Detroit Defeats Washington.

WASHINGTON, Oct. 2.—Although the Detroits needed to win from the Washingtons today in order to make it practically impossible for the Philadelphians to close the gap in the chamionship series, Manager Jennings Washington friends waived the question of doubt and presented him with a floral horse shoe, in token of him men's victory before the game started at American League park this afternoon. Manager Jennings had no speech of thanks for the donors—even his whistle failed him at this crisis—but his men responded for him by running away with the game in brilliant style. Tonight they are enroute to St. Louis for the final series of the season, which ands there with a double header Sunday. The score by which the Detroits tightened their hold on the pennant stood 9 to 3, the Washingtons scoring only after "Bill" Domovan, having the game safe, eased up, a bit and lobbed the ball over the plate. Cobb took up his sterrific clip at the bat, getting three hits in four times up, but he turned his ankle in

Creighton Eleven and Missourians t Local Woman's Christian Temperance Meet at Vinton Street Park.

Creighton's gridiron warriors will battle with the braves from Tarkio college Saturday afternoon at Vinton Street park.

Coach Bell has put his men through a hard week of practice, and, although no scrimmages have been held since Wednesday, he feels that his men are in prime condition. Morganthaler will be in the game and the presence of the big fellow will materially increase the strength of the Creighton line.

Wersi comes from Tarkio that the Missourians were never better and that they have a team both fast and heavy. The battle should be a good one.

The practice at Creighton this week has been secret and several surprises in Creighton's style of piky are expected in temorrow's game. Union May Invite Next Convention Here-Many Will Attend Iowa Meeting Next Week.

A movement is on among local temperance workers to invite the next annual convention of the Nebraska's Women's Christian Temperance union to meet in Omaha. While no definite action has been taken yet it is expected that the delegates from the two local unions will extend the invitation to the state convention which convenes at Lincoln October 16 to 18. MEETING OF VETERINARIANS Interesting Session Held at South Omaha Live Stock Exchange.

A small attendance of South Omaha stockmen welcomed the coming of the Western Veterinary association in the Stock Exchange building Wednesday afternoon. It should be said, however, that the attendance at the meeting by no means represents the status of the local interest. The last year has given ample proof that the South Omaha exchange is keenly alive to all points of the question of improvement in animal husbandry. While the stockmen and the commission men ordinarily have little time to listen to speeches and labored discussions, they are always ready to assist in any legitimate proposition. Twelve or fifteen veterinarians from Minnesota, Missouri, Wyoming and Nebraska were present to discuss the needs of this state. The meeting was set for yesterday morning, but it was found impracticable, for the morning is the busiest period of the day, therefore the session was adjourned until aft-

At noon the visitors were entertained at the exchange dining hall by the Union Stock Yards and the South Omaha Live Stock exchange.

The afternoon session began about 2:30 and continued until 5. Mayor Thomas Hoctor made an address of welcome. He was followed by Dr. A. T. Peters of the State university at Lincoln, who told of the benefits of the Nebraska educational institution in the prevention of animal diseases. The general knowledge of animal diseases learned by the young men is valuable in detecting contagion before the dangerous stages are reached. These young men are quick to send in information and enable the state to investigate and control the disease.

Benefit of Co-operation, Dr. Ramsey, citief of field inspection in Colorado, told of the benefits derived from co-operation with the federal authorities in Colorado. He is from Denver and told that the disease of scables in sheep had been totally wiped out since the government, took hold of the inspection. The increase in the value of the wool and the weight of the product from the same number of head would reach near \$400,000 in the last five years. This is remarkable and shows what need there is of government and state inspection. The saving to the farmers in a single year'in Nebraska would support the best of bureaus for ten years.

Dr. O. E. Dyson of Chicago gave an interesting address on the practical methods of hygiene in ordinary farming, things to avoid and especially the prompt discovery eration, including Mrs. J. P. Whitney of of contagion and the separation of the diseased from the healthy stock.

Dr. M. H. Reynolds of St. Anthony Park experiment station told of the things which the state of Minnesota had accomplished in the way of handling diseases. There the state has created a Board of Domestic Animals and Health. Jay Laverty of the South Omaha Live

Stock exchange told of the value to all parties concerned to have the assurance that all stock was healthy and fit for every variety of use.

Dr. D. F. Luckey of Missouri told many interesting facts as to the good conditions in that state from the action of the Board of Sanitation. He said that if he had had \$10,000 at his disposal five years ago, before the invasion of the plague of hog cholera, he could have saved the farmers of the state over \$4,000,000. Now the hope of a speedy eradication of that disease is remote. In other lines, however, the condition of live stock is greatly improved.

Nebraska Behind the Times. William F. Pflaeging of Cheyenne, Wyo. the state veterinarian, told of the eradication of scab in sheep and of mange cattle and the proposed attempt to drive out tuberculosis. He said the greatest menace to Wyoming was Nebraska, for Nebraska as yet had not come up to the scratch and made even a creditable effort to care for the domestic animals.

Charles A. McKim, the Nebraska state veterinarian, followed him and practically was forced to admit the truth of his state ments. He said the appropriations were far below the necessities. The under of ficers in the bureau were not nearly well enough paid and traveling expenses were limited. In fact, he declared that Nebraska, one of the best agricultural and stock-producing states of the union, set aside less for the care of animals than any other state of the west. He favored a state board of sanitation like the other states of the west enjoyed and an appropriation near \$30,000 to carry on prac-

tical work. The questions will be further discussed n the coming meeting of the stock ex-

Pete Bollin, timer for the street car company, and Detective Mitchell caught two fellows who gave their names as W. A. Shaw and R. L. Mohr, in the act of giving the grand rush to some people at the Union depot, and picking their pockets during the rush act. So far as known their operations had only netted them \$10 up to the time of their destection and his money was lost by Richard Fletcher of Percival, Ia. When Bollin and Mitchell attempted to arrest them the men put up a fight and it was with some difficulty that they were over

If you are menaced with diseases or weaknesses, and have not consulted us or secured proper medical treatment, don't think you are not paying for it. You are —and perhaps many times over. If you procrastinate and postpone treatment from day to day, week to week and month to month, or experiment with uncertain, danerous or unreliable treatment, sooner or later you must pay the penalty. If you do not heed our admonition you will then more forcibly appreciate our advice that the least expense would be incurred through the early employment of genuine professional skill. Commence an active and energetic course of treatment at once, and avoid suffering, anxiety and remorse.

We treat men only and cure promptly, safely and thoroughly, and at the lowest cost, BRONCHITIS, CATARRH, NERVOUS DEBILITY, BLOOD POISON, SKIN DISEASES, KIDNEY and BLADDER DISEASES and all Special Diseases and weaknesses and their complications.
