## Parisian Women's Renowned Beauty

Mainly Consists of Beautiful Complexions. Specialist Gives Splendid Formula.

In a recent interview Dr. Jean Vallier, the eminent dermatologist, made some very interesting statements concerning the beauty of the fair sex. He claimed the highest type of features and those that approach nearest to the old Greek standards are to be found in America. Although the French ladies are world renowned for their beauty, they lack the classical mould of face. But this defect is evidently counterbalanced by their matchless complexion. To this they give the most rigid care in the matter of diet and daily massage.

Dr. Vallier gave the formula for a skin food which he said had worked wonders for the society ladies of Paris and which, though a simple mixture, is probably the most effective known to science for restoring the normal rosy complexion and building up the undeveloped parts of the face, neck and bust. The formula is as follows: Two ounces of Rose Water; one ounce Cologne Spirit, and four ounces Barm (crystallized). The Barm is to be dissolved in a pint of hot water (not boiling), then when cooled to be strained through a fine cloth, and the Rose Water and Cologne Spirit added. This is to be used twice a day and massaged well into the skin, and if persisted in there will be no further need for powders or rouge. It is not expensive, the ingredients being obtainable from any druggist, and coming from such high authority is well worth a thorough trial.

The week of Ak-Sar-Ben with its innumerable accompaniments of good times, has been a most enjoyable one. It has been a continuous line of pleasure and entertainment, and it is a pleasure to report that the coronation ball Friday evening. What a brilliant event it was. Society had anticipated it for months and such long anticipation generally results in disappointment, but quite to the contrary it was a marvel of beauty and was generally counted as one of the most spectacular as well as the most elaborate and successful balls yet given. An invitation to be a maid of honor from out of town was more than an empty compliment this year, as a score or more of the prominent women of Omaha took the visiting girls in charge on their arrival in Omaha, fed and dined them at their beautiful homes, introduced them to the young people, and in fact were so untiring in their efforts that by the evening of the ball they were repaid by seeing these guests gladdened by a well filled program by young men that were not entire strangers to them, a very welcome change from former years. This week finds very little scheduled for large and formal affairs, still plans are embryo for reorganizing dancing and card clubs, planning horse show costumes, as this heralded event is only ten days distant.

NECK SHAVE TRUST NOW

Barbers of a Kansas Town Ordered to Come Out of the Price Combine.

The Methodist town of Baldwin, Kan., which is the seat of Baker university, is about to enter into the power of a trust. The town is most stirred, and formal complaint was made to the county attorney, who at once saw that the law of the land was being trampled under foot by the trust barbers of Baldwin. He indited a letter to the mayor of Baldwin at once, in which he gave plain notice that the trust must be dissolved and the people of Baldwin spared the hardship of having to pay extra for neck shaving.

Since "Marty" Starr started the first barber shop in Baldwin forty years ago, necks have been shaved as a part of the face and have been shaved whenever requested, as a matter of course. These residents who do not shave their beards had their necks shaved every time they had their hair cut and did not pay for it. They naturally regarded it as an abridgment of personal liberty and a strike at the vitals of that freedom guaranteed by the constitution when they find posted in their barber shops and flaunted in their faces in the newspapers a notice to the effect that hereafter neck shaving must be paid for extra.

The letter of the county attorney is as follows:

LAWRENCE, Kan., Sept. 17, 1907.—Mr. C. W. Mitchell, Baldwin, Kan.—Dear Friend: I received this morning through the mail a supplement of September 13 to the Baldwin Ledger, in which the following notice was called to my attention: "Notice: September 26 we will charge extra for neck shave. George Burgett, McPheters, Axton."

This agreement is undoubtedly in violation of what is known as our anti-trust law, which will make these parties subject to a fine of from \$5,000 to \$100,000 and a sentence from thirty days to six months. I have no desire to cause these parties any trouble at all, as the chances are they did this not knowing what the law is and not knowing that they were violating the law.

I wish you would turn this letter over to your city marshal or to the constable and have him, for me, to notify these parties that they can't make this kind of combination and for them to make of combination off, and the best way for them to do that would be to publish a card to that effect in the next issue of your local paper. If you will have this matter attended to for me I will appreciate the same.

## WORK OF THE CLUB WOMEN

Interest Centers in Convention of State Federation of Clubs.

### FOOD COMMITTEE MAKES REPORT

Mrs. Walter McNab Miller Issues Circular of Instruction to Members of General Federation of Women's Clubs.

From all over the state club women will gather this week at Hastings for the thirteenth annual meeting of the Nebraska Federation of Women's clubs, to be held there Tuesday, Wednesday and Thursday. The Omaha clubs will be represented by a general delegation, the majority of the women expecting to leave Monday afternoon to reach Hastings in time for the Tuesday program. Owing to the opening session of the Omaha Woman's club, Mrs. A. B. Somers, president; Mrs. D. C. Cameron, secretary; and Mrs. F. H. Cole, chairman of the state federation program committee, will not leave until Tuesday morning. Among the questions that are promised special attention this fall is the proposed change from the annual to the biennial state convention. This matter has come up for discussion at the past two meetings, but promises to be a real issue this year.

From the Pure Food Committee. Mrs. Walter McNab Miller, chairman of the pure food committee of the general federation of women's clubs, has issued the following circular to club women in the interest of a general campaign to be begun for pure food:

In a circular sent out last autumn this committee urged for the two years to come a concentration of effort along two lines:

First—The improvement of the milk supply.

Second—The improvement of sanitary conditions in markets and provision stores.

We desire in the present circular to indicate definite methods for making the work of the coming year effective.

There are four main questions always to be considered in the milk supply:

(a) Is the milk dirty?

(b) Is it of low standard as to protein and fat content?

(c) Is it adulterated by the use of preservatives or coloring matter?

(d) Is it capable of communicating disease?

In order to ascertain the answers to these questions as to your local milk supply, we recommend to every club the appointment of an investigating committee that shall report within a limited, specified time, and shall make a written report to this committee which will enable it to reach a true understanding of the facts and to recommend wise action. It must first work through existing agencies whenever possible; and, second, it must obtain expert assistance.

To obtain a supply of pure milk for infants requires still greater precautions, and in working toward this end the committee should co-operate with the local health department. Where such an organization does not exist, the committee can help the physicians of the town to organize one. The need of the child makes a matter of vital importance and it will not be difficult to raise the necessary sum to defray the expenses for the first few months of the inquiry. The committee should be addressed to the president of the national association, Dr. Henry L. Colt of Newark, N. J.

The second subject to which your committee would direct the attention of clubs is the better inspection of local and provision stores, in order to improve their sanitary condition.

Here is an open field for the hygienist; for, imperfect as is our system of inspection, the case of milk still more unsatisfactory is the law and its enforcement regarding the sale of food that is stale or spoiled, and the condition of premises that harbor dirt and flies. The club pure food committee, on looking into the matter, will find in most instances that the law is inadequate and poorly enforced.

We desire as the first step that your "white list" be made out, and that club members be asked to patronize those dealers who meet the requirements as to cleanliness of premises, the clothing of employees and the proper screening of foods from insects and vermin. At the same time by judicious praise and blame an increasing number of dealers should be brought up to the standard in these regards. A copy of the Portland "Clean List" requirements will be sent on application to Mrs. Walter McNab Miller, Columbia, Mo.

We strongly recommend in the case of both milk and market inspection such methods as will bring to bear the weight of a just public opinion rather than a hasty resort to legal enactments and penalties. Our committees should exercise caution regarding sudden action that tends to upset business and to unduly punish the dealer who has but adjusted to low standards and a lax interpretation of the law by his customers. We should rather endeavor to teach with words and where to buy, why dirt may mean disease and how to judge and choose.

This is a task brought about through lectures and conferences as fully explained in last year's circular.

Omaha Woman's Club Opens.

The Omaha Woman's club will hold its opening meeting of the fall Monday afternoon in its room in the First Congregational church. The features of the program will be the annual address of the president, Mrs. A. B. Somers, and a talk on "Life in the Philippines" by Mrs. C. S. Longfellow, formerly of Omaha, but now a resident of Manila. The presentation to the club of the madonna, brought from Europe by Mrs. Frank Hailer, will be made by Mrs. William Grigor, chairman of the art department. Miss Sorenson will present a memorial to Mrs. A. L. Sheetz, formerly a leader of the club's musical department.

Both Women's Christian Temperance unions of Omaha will attend Wednesday's sessions of the Iowa Women's Christian Temperance union convention in session at Council Bluffs this week. Members of the Frances Willard union will meet at the Paxton hotel at 9 o'clock and members of the Omaha union at the Young Woman's Christian association rooms at the same hour, and all will go over together. The Omaha union will hold its regular meeting Tuesday at 2:30 o'clock instead of Wednesday.

Hear Dr. Clark, the peerless speaker, on The Spirit of Literature, October 7 at First Methodist church.

## FOOD FOR THE PACIFIC TRIP

Will Require Five Million Pounds of Establish to Feed the Crews.

Providing food for the 12,000 or more enlisted men during their cruise to the Pacific across the ships of the Atlantic fleet is the problem now occupying the attention of the Navy department. Bids for 5,000,000 pounds of provisions, including everything from fresh beef to Saratoga chips and pickles, are to be opened at the bureau of supplies and stores at Washington. Contractors are to be awarded October 10 and the provisions are to be delivered by the contractors at the New York Navy yard from November 1 to November 15.

All of the ships of the fleet, including the torpedo boats and the supply ships and the colliers, are to take their provisions from the New York Navy yard. Each of the sixteen battleships is to be allotted 50 tons, to carry which amount represents the full capacity of the ship. The supply ships Colgoe and Glacier will take what remains excepting a small allotment to each of the smaller vessels of the fleet. The supplies taken are only for the enlisted men. The officers must provide for themselves by private arrangement.

The major items comprising the 5,000,000 pounds of provisions for which bids are to be opened are 1,000,000 pounds of fresh beef, 1,000,000 pounds of vegetables, including potatoes, onions, turnips, tomatoes, etc.; 1,000,000 pounds of flour, 500,000 pounds of canned fruits, 100,000 pounds of condensed
