PREFUSE TO STOP SPECULATION todies in Cotton Convention Declin to Pass Resolution of Con-

gressman Heffin. ATLANTA. Ga., Oct. 9 .- By a vote of 4 to I the bodies composing the Interna-

tional Association of Cotton Growers and Spinners voted to refer the Heffin resolution asking congress and the British Parliament to investigate the cotton changes to the different bodies for individual action. The Southern Cotton association voted in the negative. This, of course, is regarded as prac-

tically destroying the force of Congressman Heffin's resolution, which was aimed at cotton speculation and cotton exchanges.

The report of the committee on better trade relations between growers and spinners was finally adopted after several changes had been made. One of these placed the conference on record as favoring the square bale, which is preforred by the great majority of spinners.
