In fact, most salesmen are quoting strictly good cows as stronger as compared with a week age. On the other hand, with large offerings of common to medium grades, the market on such has had a tendency toward weakness, being generally a liftle easier at the close of the week. Steckers and feeders have been coming in very fast this week, but with a large attendance of country buyers they have gone out equally as fast. All good grades of feeders have commanded strong prices throughout the week, being very free sellers at current figures. Even the medium grades have sold very good, although possibly the rough-herned cattle are a trine easier at the close of the week, still the change, if any, has been slight.

Quotations on cattle: Good to choice corn-fed steers, \$6.3067.00; fair to good corn-fed steers, \$6.3068.30; common to fair carne steers, \$6.3068.30; common to fair grade stee

noise-it was one those slow, steady to easier markets, that while not showing very much difference, are still unsatisfactory to the sellers. The trade was slow in spite of the fact that receipts were even lighter than expected, with the close dull and a little lower than yesterday. The most of the hogs here were on the heavy order, so that the sales on paper do not show up as well as yesterday.

The receipts for the week, while ligher than last week, show nevertheless a little gain over the corresponding week of last year. The tendency of prices has been steadily upward all the week, the market being practically higher every day until today. At the close of the week the market is Ediso higher than it was one week ago. Hogs are now selling at the highest point touched since the latter part of May. Representative sales:

SHEEP—There were four ears of lambs reported in this morning, which were sold to arrive, being weighed up at \$7.00. Receipts of sheep this week show a very heavy falling off as compared with last week, there being a decrease of over 20,000 head. There is also a large decrease as compared with a year ago. The market throughout the entire week has been in a most satisfactory condition, so far as the selling interests were concerned, and prices have been very high as compared with most satisfactory condition, so far as the selling interests were concerned, and prices have been very high as compared with those prevailing at other market points.

Fat sheep and lambs have been in light supply throughout the week, especially sheep. At the same time there has been a very good buying demand on the part of packers, so that the market has been in a good healthy condition, with everything received sening very readily on arrival. Fat sheep have said at about steady prices, with the market, if anything, a lit. it stronger at the close. On the other hand, fat lambs have eased off under the unfavorable conditions prevailing at easter market points and are generally quoted looking lower at the close of the week.

The great bulk of the receipts this week has been made up of feeder lambs, with a liberal sprinkling of ewes and only a few wethers and yearlings. The market has been in good condition all the week, with an active buying demand sufficient to keep the supply well cleaned up, practically peanuts, Sc; Faw peanuts, 75.0.

everything being sold on the day of artival All desirable kinds of feeders have sold at about steady prices. While good feeder and breeding ewes have sold at about steady prices, old, thin and broken mouthed ewes have been in very poor demand all the week, with prices decidedly lower. The fact is the country does not appear to be at all anxious to feed interior kinds of owes, and, hence receivers find it rather hard wors to dispose of stuff of that kind. Quotations on good to choice killers: Lambs, 87.767.16; yearling wethers, \$1.50p b.10; wethers, \$1.80p.30; ewes, \$4.50p.50.

No quotations are given on fair to good killers, as feeder buyers are taking practically everything of that description at hetter crices than packers will pay.

Quotations on feeders: Lambs, \$6.50p.50; common ewes, \$5.50p.50; yearlings, \$5.50p.50; wethers, \$4.7645.10; ewes, \$4.00p.50; common ewes, \$2.5646.50; yearling breeding ewes, \$6.50p.50;
