When You Visit Omaha.

Take time to visit this store and look over the superb stock in every department. Your visit to the store may be the means of changing the whole expense of your trip to the city. Others have had such experiences here—why not you?

Out-of-Town Folks. As well as Omaha people are fast learning that it pays to buy the best goods always, and that at this store, the best can always be had at the most moderate prices.

The Lowest Price. does not necessarily mean the best value. Often the price that seems lowest proves to be the highest to the consumer, because the money's worth in wear is not obtained.

It Is Our Rule to first procure the best goods on the market. Then fit the prices at the lowest point consistent with our policy of fair treatment to you and to ourselves as well.

What You Buy Here you can always depend upon as reliable first class goods, worth all and often more than you pay for it, and sure to give you the satisfaction you expect for your outlay.

Do You Find It So when you make a purchase at some of these alleged "Bargain stores"? Do you find that you always feel fully satisfied when you get home and have the opportunity to carefully and closely examine your purchase?

"Your Money Back" If you want it is a phrase freely used these days, but have you ever tried to get it? Were you treated pleasantly when you requested your money back for goods you bought?

There's No Occasion to ask for your money back here. You don't want it. What you buy you keep, because it is fully satisfactory. But if you should happen to be displeased with your purchase you'll have no trouble getting your money back.

If you can't come—order by mail.

SCRUTINY BECOMES CLOSE

Illinois Central Committee Still Examining Proxies.

BOTH SIDES ARE AT WORK

Many of the Smaller Stockholders, Wearing by the Long Delay, Have Left the City.

CHICAGO, Oct. 19.—The meeting of the Illinois Central stockholders was today adjourned until 11 o'clock next Tuesday morning. The proxy committee is still unable to report, but it is believed that it may be able to submit its findings to the stockholders' meeting when it next convenes. The committee has been at work almost night and day, but the volume of business is so very large and with the scrutiny which is bestowed on each in behalf of both Mr. Fish and Mr. Harriman, the work makes slow progress.

The general situation is practically the same. Both sides seeking proxies with much energy, and it was reported today, although the story could not be confirmed, that Mr. Harriman had recently purchased in Chicago a block of 700 shares, paying for them several dollars a share above the market price.

Talks on Teeth

The man with one or two teeth in either jaw had no alternative but plates before the Alveolar Method of supplying teeth without plates or ordinary bridge work was discovered. Today we can supply Alveolar teeth that are as firm and solid as your natural ones. It calls for the highest degree of skill on the part of the operator.

Dr. Murphy has had a wide experience in the practice of Alveolar Dentistry, having had full charge of the operating and laboratory work while consulting dentist with the G. Gordon Martin Incorporated firm at Chicago since Dr. G. Gordon Martin personally located at Austin, Texas.

We have all the patent appliances used in Alveolar Dentistry, and we guarantee that our work is the very highest class obtainable.

In the past four and a half years we have treated approximately ten thousand cases in our offices—many of them desperate ones—a large portion of our work is of the "last report" order.

How the Republican Party Has Made Good in Nebraska

The Promise—Now for Performance

- TO THE REPUBLICANS OF NEBRASKA—
- The platform adopted by the Republican State Convention held at Lincoln August 22, makes the following distinct promises of state legislation in the interest of the people:
1. Laws to compel the railroads to pay their taxes at the same time and in the same manner as a private individual.
 2. A direct primary law for the nomination of all state county and district officers including congressmen and United States Senators.
 3. A law prohibiting free passes in all forms, except to bona fide railway employees and their immediate families and caretakers of the steels.
 4. Laws fully empowering the new State Railway Commission to prohibit rebates, discriminations and special rates to corporations, persons or localities, and to see to it that any and all abuses are corrected and equitable freight and passenger rates obtained for the people.
 5. In event of failure of the constitutional amendment or its being declared invalid, laws giving the people of this state the same advantages congress has already given the nation under the railroad rate bill in matters of interstate commerce.
 6. A law along the same lines as adopted by congress touching the liability of employers to their employees permitting recovery for injuries notwithstanding the negligence of a fellow servant.
 7. Legislative appropriations to meet current expenses of state government only under the most rigid economy.
 8. A law providing that railroad property in cities and villages shall be assessed and taxed the same as other property for city and village purposes.
 9. A law insuring inspection and uniform tests of dairy products.
- As the republican nominees for our respective legislative districts, we hereby pledge ourselves, if elected, to support and vote for measures that will carry out each of these promises.

Governor George L. Sheldon cut from The Bee the pledges made by the republican party of Nebraska in its platform, and as fast as a bill redeeming a pledge was signed by him, he drew a line through the pledge on the sheet. The cut is made from a photographic reproduction of the sheet taken from the governor's office, where it hung during the entire time of the session of the legislature. The dates written in are the days on which the bills were signed by the governor. It shows each and every promise made to the people by the party redeemed by enactment into law.
