DIVIDEND PAYING

STOCKS

Standard railroad and other stocks have dropped from 340 to \$100 per share. They are selling today at extremely low prices, which can well be termed bargains, re-turning large quarterly dividends. A syndicate is being formed to make con-servative purchases of some of the choice issues on a aste margin which must show large profits within 18 months. There is no risk, as only standard dividend payers will be bought, so that you will receive your quarterly dividends, to say nothing of benefiting by the uprise when the mar-ket gets back to its normal condition after this tight money scare is over.
