

BIG TIME AMONG BOWLERS

Des Moines Sends Strong Team to Try Out Omaha Men.

WINS TWO MATCHES, LOSES ONE

Morning Game is Taken from Metropolitan and One is Lost, and One Captured from Association.

Monday afternoon and evening the strong bowling team that has represented Des Moines all over the country rolled matches with two of Omaha's picked teams at the Association alleys. The afternoon match won the first half of a series of six games on which a purse of \$200 has been placed.

In the evening games the Omaha team again won on total pins, but the \$50 purse went to the Des Moines boys, as this match was made for games instead of pins to win.

The best individual total for the night went to Tommy Reynolds credit with 271, the best single game to Frank Conrad with 227.

The Des Moines boys are visiting many cities to interest as many bowlers as possible in the northwestern tournament to be held in Sioux City near the first of the year.

Four or five teams from the Omaha league have agreed to attend.

Following is the detailed score:

Table with columns for Player, 1st, 2nd, 3rd, 4th, 5th, 6th, Total. Includes teams Des Moines and Omaha.

Table with columns for Player, 1st, 2nd, 3rd, 4th, 5th, 6th, Total. Includes teams Des Moines and Omaha.

Saturday lost to the Longmont High school by the score of 4 to 6, and the University of Wyoming... Saturday was defeated by the Colorado Mines team...

TOUCHDOWN DUE TO KROGER Husky Fullback the Man Who Scored on the Gophers.

LINCOLN, Oct. 21.—(Special.)—Dance Hupman in this case personified by the whole bunch of Minnesota writers of sport-makes many blunders. He says that the Husky fullback who scored the touchdown for Nebraska, Banzal for Kroger!

The Nebraska team arrived here this morning, tired from its hard wrestle with the Gophers and the long trip which followed it, but little the less energetic in its experience. Disappointed that the only touchdown of the game was not sufficient to win it for Nebraska, both the coaches and the men were yet in good spirits over the success that attended their efforts to defeat the Gophers.

Coach Cole has nothing but praise for the work of the Cornhuskers, insisting that it was luck and not superior playing that won for the northerners, the lanky ex-Wolverine declares that the men put up a fight to be proud of, earned a victory what the score indicated and on their showing should have had the victory.

As was expected, Coach Cole has decreed immediate resumption of the work interrupted by the game. Tomorrow the men will start active preparations for the clash with Colorado. The Gophers will be expected to arrive here defeating the Colorado Aggies, but no chances will be taken by the Cornhuskers, former clashes with the northerners not having been forgotten. The assurance of the Gophers that Nebraska is stronger than any team in the west is a source of gratification to the Nebraska fans.

Hard Smash and Successful Kick Wins from Belmonts.

Before a crowd of more than 500 people the Diets Athletics foot ball team won the second game of the season yesterday afternoon, meeting the Belmonts on the gridiron and defeating them, 14 to 0.

The last touchdown for the Diets team was made by Tullie, who pushed through the line for the last six yards. The lineup:

Table with columns for Player, Position, Team. Includes names like G. C. Belmont, M. Belmont, etc.

Referee, Corrigan; umpire, W. Hatchen, Smith.

IOWA FALLS, Ia., Oct. 21.—(Special.)—The high school basketball team of Iowa Falls defeated the team of the Ellsworth college academy, the score being 22 to 19 in favor of the academy.

Chance and Jennings will now have to step from the center of the stage to make way for Stagg and Yost.

Nebraska now has a claim for recognition as the national champion showing made against the Gophers Monday.

Harry Niles of St. Louis is about to accept a position with the St. Louis university for a month to play ball in Mexico during the winter months.

There are really some bugs who cannot bear the winter because there is no base ball and who are wishing it was April 15.

George Capron, the phenomenal punter and drop kicker of the Minnesota eleven has been chosen to play for his team this year with his scientific kicking.

Rumors that Mr. Ban Johnson has succeeded in being elected president of the National League in addition to his presidency of the American, are not yet confirmed.

Bellevue students and the faculty are rejoicing that Jones, the injured football player, is recovering from what seemed to be a fatal injury. He was injured and then kept at play and a blood clot must have formed, which was threatening to be serious, but the doctors now say he will recover.

The handsome Kimball golf trophy donated by R. H. and T. R. Kimball, which has been played for during the summer at the Omaha Country club, was won by J. E. Buckingham Saturday and Sunday. It was assumed that the other trophies are given out next Saturday after the banquet.

All going interest at the Country club is now centered in the big team match to be played next Saturday in which nearly all the soldiers of the club will participate. After the match a dinner will be served, the losers paying for it and then Chairman Brown's luncheon for the winners will be the prizes and trophies which have been won this summer.

Now it is clear why the Browns insist on letting the Cardinals win the local championship every time. The Browns, defeated last spring by the Cardinals, outdrew them during the season in point of attendance, while at Philadelphia the Athletics lost all citizenship in the game in the streets to the Phillies and yet had much larger crowds during the season than the National League club. Joe Vito gets through with his winter reorganization of the map of base ball will look very much different. He has read the situation and he is anxious to make these post-season enterprises as well as he is in pointing the world to its champions. Detroit, he will leave no room for criticism of his work.

Already Frank Isbell, who has bought out the rights in the Wichita team, has opened negotiations to land in the Western league. He has written a letter to the National League asking for a franchise, asking if there was a chance to re-open the case which the Western league had lost when it was attempted to increase its circuit from six to eight clubs by buying Topeka and Wichita from the Western association. Frank Isbell announces his own and Wichita's willingness to advance into a class A franchise. The club he will put together will be so good for any except the best of the minor leagues that it will be a sure thing and there is a chance the case will be brought up again, with better outlook for success.

'Good old GUCKENHEIMER Rye "Bottled in Bond"'. 'has for purity, excellence and distinctive flavor, gained the unanimous approval of all. A trial will convince. The U. S. Government stamp, guaranteeing 100% proof, is on every bottle. Look for it! A. Guckenheimer & Bros., Distillers, Pittsburg, Pa.'

LEARN LESSON IN DAKOTA

Concrete for Construction of State Building Saves Much Money.

WATER SUPPLY FOR GLENWOOD Corporations Have Found a Hole in Iowa Law to Evade Restrictions Placed on Them by the State.

(From a Staff Correspondent.)

DES MOINES, Ia., Oct. 21.—(Special.)—By erecting its public buildings of concrete at the Yankton insane hospital the state of South Dakota has reduced the cost of building more than one-half. State Architect Liebbe of the low Board of Control has just returned from Yankton, where he visited the institution there, after making a week's trip to the various Iowa institutions. It is not unlikely that the ideas of public buildings at Yankton will be adopted in the Iowa Board of Control work.

Architect Liebbe found that at Yankton a building that by contract would cost only \$125,000 is being erected of concrete for \$45,000, and when completed it will be one of the handsomest public buildings that it is possible to erect and also one of the most durable, being absolutely fire proof. Sand and gravel, such as exists at both Cherokee and Eldora, where the state has public buildings, is being used at Yankton. Dr. Meade is now engaged in erecting a large building which will, when completed, cost about \$60,000, but would by letting the contract to contractors have cost \$125,000. Dr. Meade employs one skillful mason and one skillful carpenter, and from the bottom of the building erects such blocks of stone. Falls Jasper stone is put and the concrete poured in on top of them. The jasper makes the face of the concrete block which is put into the wall of the building. The work is so simple that any person can do it with a skilled person to direct the work.

South Dakota erects all its state buildings at Yankton in this way. The cattle barn is an enormous structure, all of concrete, erected at very small expense, and the buildings for the inmates are extra large, with generously large rooms and spacious halls, the state being able to erect such buildings because of the low cost by using concrete.

The sand and gravel are handy at Yankton; but the jasper stone has to be shipped in. At the Iowa institutions sand and gravel can be secured easily, and the stone can be shipped in as easily as at Yankton.

Robbison Gets Right-of-Way. Judge Robbison, of the State Board of Control has spent three days at Glenwood, Ia., arranging for the right-of-way for 14,600 feet of water main or nearly three miles of water main for the new water works system for the school for feeble minded children there. The state has put down four wells in the old bed of the Missouri river. A set of these wells discloses that though they are close together ten hours pumping in one well failed to lower the water in the other wells an inch. In the ten hours pumping 100,000 gallons of water was taken out.

It is believed that this especially settles the trouble the state has for years encountered at Glenwood for a good water supply. The institution uses about 125,000 gallons each twenty-four hours.

At Clarinda the smokestack for the hospital has been completed and is ready for the lightning rod. The walls for the new women's infirmary are up to the second story. It will be a three story structure.

At Cherokee a \$6,000 cow and hay barn and a \$100 chicken barn are very nearly completed and ready to be occupied. In the erection of the chicken barn at Cherokee the state has solved the problem of lice. The roosts are made with metal as each end with a hook in each end that hooks into a staple. Near each end two holes are bored through the stick from the under side. The upper side of the hole is closed with a cork. The theory is that the lice bite the chickens at night and then seek a dark place. When they leave the hen the first dark place they find is these holes. In the holes during the daytime they lay their eggs. But every day or two the corks are drawn and the end of the pole immersed in hot water or kerosene, which kills both lice and eggs.

Cherokee Gets Crops. While other parts of the state have suffered this year, the state farm at the state insane hospital at Cherokee seems to have thrived. The oats recently threshed weigh

thirty-five pounds to the bushel and the corn is all good. There were 10,000 bushels of potatoes, all large and good, raised at Cherokee on the state farm this year.

Find Hole in the Law. One of the big holes in the incorporation laws of this state have been discovered and it is likely that the legislature will be asked to amend it so that corporations cannot incorporate in other states in order to escape the laws of Iowa. It has been today called to the attention of Secretary of State Hayward that manufacturing concerns are going to North Dakota and other states to incorporate when their office and all their business are in Iowa.

The law requiring that every foreign corporation doing business in Iowa shall file a certified copy of its articles of incorporation in this state exempts mercantile and manufacturing corporations. This law was enacted in 1888. At the session of the legislature this year a bill was enacted providing that every corporation must issue stock in exchange for cash only and that for the full amount, and that it must be all taken up. If cash is not taken material and labor can be accepted, but only after the sanction of the executive council has been secured for the deal.

Now the manufacturing concerns that desire to incorporate and accept most anything for their stock and desire to enjoy the loose and easy days go to North Dakota to incorporate. There the fee is small and the terms lenient. They then fly return to Iowa, open their office, locate their plant, and do all their business in this state and in some cases none at all in North Dakota. It is probable that to remedy this the next legislature will be asked to remove the exception of mercantile and manufacturing concerns in the law of 1888.

Elevation of Flavin. More than a score of dignitaries of the Roman Catholic church and many out of town laymen of the church are at Des Moines today attending the ceremonies attending the elevation of Rev. Father Michael Flavin of St. Ambrose Catholic church to the position of monsignor or member of the pope's family. St. Ambrose church was elaborately decorated in the panel colors of yellow and white and the Papal Irish and American flags were conspicuous. Cut flowers and palms finished the decorations.

The main services were held this morning at 10 o'clock. Guilmont's fourth solemn mass was sung by the choir of thirty-five voices, with organ and orchestral accompaniment. Fully one hundred priests from various parts of the state were in attendance. The fourth degree members of the Knights of Columbus acted as the escort to Monsignor Flavin. This evening the Chamberlain hotel, J. Brown, of Council Bluffs, was among those in attendance on the ceremonies and the reception.

Mrs. White Dead. Mrs. Virgil White died in Los Angeles, Cal., Friday. This is another chapter in a strange romance and series of adventures. Virgil White was a young and brilliant lawyer of Des Moines, the son of Fred White, of North English, one-time democratic candidate for governor of Iowa. Virgil White mysteriously disappeared and an empty boat on the Des Moines river led to the suspicion that he was killed either by intention or accident, but he was later discovered in the western part of Iowa only to disappear again. He was found later in Nebraska. Recently his marriage to Miss Emaline Hicks, a prominent musician and teacher at Highland Park college in this city was announced only to be followed now in close order by the information of her death.

Quick Shine Shoe Polish. Besides these qualities the great cure contains no turpentine or acids, gives a satin finish, will not rub off on the clothing.

If You Know The merits of Texas Wonder you would never suffer from kidney, bladder or rheumatic trouble. It bottle, two months' treatment. Sold by Sherran & McConnell Drug Co. and Owl Drug Co. Testimonials with each bottle.

S. S. S. CURES ECZEMA

The cause of Eczema is a too acid condition of the blood. The itching, burning eruptions are caused by the outpouring through the pores and glands of the skin of the fiery poisons with which the circulation is loaded. This acid matter coming in contact with the delicate tissues and fibres with which the skin is so abundantly supplied causes irritation and inflammation and often excessive discomfort and annoyance. While external applications, such as salves, washes, lotions, etc., are soothing and cleansing they are in no wise curative, because they do not reach the blood where the trouble is located. You can never cure Eczema with outside treatment; the blood must be purified. S. S. S. is the best treatment for the disease. It goes down into the circulation, neutralizes the acids and humors with which the blood is infected, and makes the blood-current fresh and healthy. Then instead of fiery, acid matter oozing out through the pores and glands, irritating the cuticle, the skin is nourished by a rich, cooling, healthy stream of blood. S. S. S. removes every trace of the disease, and when the cure is complete the skin is left smooth and free from any eruption. Book on Skin Diseases and any medical advice furnished free of charge to all who write.

BOOM FOR STATE BALL LEAGUE

Grand Island Fans Decide It Must Be This or None.

GRAND ISLAND, Neb., Oct. 21.—(Special.)—At a meeting of local baseball enthusiasts held here Monday night, the Grand Island fans decided to support a state league with equal success. At present conditions were not satisfactory this year.

At Grand Island the fans are actually a team for only about two months. All of these, with Henry and South Omaha, and, possibly, York, Wahoo, Holdrege and others, could and would support a team if it were put on the same footing as the rivalry-generating schedule of games. This being the unanimous sentiment of the fans, the committee in charge of the league, headed by ex-manager Henry Slevens as chairman, was chosen to get into communication with the managers of players or devotees of the game in various other cities, with the view of calling a meeting in which the various delegates from all cities interested in the movement. At the same time, a state league promoting benefit ball was decided upon for Halloween night, the purpose being to secure funds to defray the expenses of entertaining all such delegates while here. It was one of the most enthusiastic meetings ever held locally, and there is every indication that the sentiment here exists in other cities as well.

J. COLLINS WILL BE CUT DOWN

Veteran Bean Stated for Reduction in His Salary.

There is no doubt that Jimmy Collins is the best paid ball player in the country, says an exchange, but it is said that the slum bath to which Jimmy's contract will be subjected this winter will make it impossible to mean proportions that Collins will be unable to see the figures.

His friends say he probably retire, as he is getting very heavy. Collins got \$11,000 for this season's work. The Philadelphia club assumed the Boston contract, which expires this fall. The yearly contract salary was \$3,500, and the former Boston manager got in addition \$4,000 of the money paid for his release from the Boston club.

SOLDIERS BEATEN AT FOOT BALL

War Signals Did Not Work, Well on Gridiron Yesterday.

Wireless signals, balloon messages and helicopter flashes all went wrong Sunday afternoon at Fort Omaha, and the Signal corps foot ball team lost to the Superiors in a hard fought game. The score was 6 to 0.

The Superiors claimed they were out-weighted by the Signal corps, but their trick playing showed the professional signal corps players that they were not to be trifled with. The Superiors kept the pigskin in the soldiers' field through both halves, and no one who was not a player for the victors to the fort. The lineup follows:

Table with columns for Player, Position, Team. Includes names like C. C. Superior, S. Superior, etc.

Cheyenne, Wyo., Oct. 21.—(Special.)—Foot ball enthusiasm in Cheyenne today was somewhat because of its absence. The Cheyenne High school team returned this morning from Longmont, where it

FAIRBANKS PRAISES WEST

Great in the Material Products Which Add to Nation's Wealth.

CITIZENSHIP OF HIGHEST CLASS

Expect to See Commerce Resumed on Missouri River as Great Factor in Solution of Transportation Problem.

Charles Warren Fairbanks, vice president of the United States, arrived in Omaha in Vermillion, S. D., Sunday night at 10:30 o'clock from the Northwestern. He left for Kansas City over the Burlington at 10:50. Owing to the lateness of his arrival and the uncertainty of being able to see him at all only a few were at the depot to greet him. The vice president was tired but in the best of spirits and was the president of her common school system and the fact that she has a smaller per cent of illiteracy than any state in the union. The product of your fields which you contribute to the commerce of the country adds much to the national strength, but the citizenship you are creating will add far more than all other things combined to that national strength, which is our chief glory.

"I want to see, and I believe I will see, the re-establishment of navigation on the Missouri river with modern enterprise and modern machinery. I believe that in the development and improvement of the country's waterways we will find one great factor in the solution of the transportation problem."

When asked how the government at Washington could run with East, Roosevelt and himself away, he smiled and said it seemed to be running all right. "I am enjoying my western trip immensely," he said. "You've got a great country out here and all indications are that it is going to be much greater. Seventy-five years is but a comparatively short period, but it practically covers the time when the first settlement was made in this territory. Your state is to be felicitated upon many things, but upon nothing more than the provision she has made for the support of her common school system and the fact that she has a smaller per cent of illiteracy than any state in the union. The product of your fields which you contribute to the commerce of the country adds much to the national strength, but the citizenship you are creating will add far more than all other things combined to that national strength, which is our chief glory."
