SALOON SCREENS MUST GO

Mayor Orders All Bars Exposed to Public View.

CONDEMNNS LAW REQUIRING IT

Says it Sets Before Children Passing Places Object Lessons and Temptations of Dangerous Character.

"I do not contemplate taking action to have the saloon screens removed in South Omaha. Whether that will be done or not I cannot say. It is not in my sphere to do it."

This statement was made by Elmer E. Thomas. The question was asked of him in view of the pending election at which it is believed that Omaha will be made a part of Omaha.

Condemning the law that requires it, disapproving the judgment of the persons demanding it, Mayor Dahlman has issued his proclamation calling for the removal by all saloons of all screens that obscure from public view their bars and the entire interior of their places of business.

Ascribing his action wholly to the formal demand made upon him by the Civic Federation, the mayor pleads his own lack of opinion and obedience to a law which in his judgment is unwise, for the simple reason that it sets before the eyes of children object lessons and strong temptations, which they would better off to avoid. The proclamation is drawn to conform with the Sackett law enacted by the last legislature.

Timely Tips To Rheumatism

Medical Expert Gives Simple Directions for the Cure of Rheumatism, Kidney and Bladder Troubles.

The well known physician, Dr. George Edmund Flood, states that Rheumatism and the more frequent forms of Kidney and Bladder troubles are largely due to errors in diet and the general mode of life.

Dr. Flood cautions all who have Rheumatism or Kidney and Bladder ailments to be moderate in the consumption of heavy, rich foods. A good diet will be found in soups, broths, fresh milk, and plenty of water. "You should," says Dr. Flood, "take plenty of time to eat and immediately cease eating when your stomach tells you that you have had enough, even though your palate may ask for more."

If your work is of a moderate amount of exercise taken each day in the open air will be of great benefit. Dr. Flood wishes it understood, however, that careful diet will not alone suffice to cure these ailments, although it proves of invaluable assistance. Dr. Flood has achieved great success in his practice in the treatment of Rheumatism, Kidney and Bladder troubles, and for the benefit of our readers he has consented to our reproduction in this column of the complete prescription which contributed so greatly to his success.

Fluid Extract Cascara Aromatic, 1/2 ounce Concentrated Barkola Compound, 1 ounce Aromatic Elixir, 1 ounce. This prescription can be filled by any druggist, anywhere, or better still, get the ingredients yourself and mix them at home by shaking them up in a bottle.

MONEY TORN INTO PIECES

Ten-Dollar Bill Notched from Man Who Grabs it and Runs.

T. C. Kaurmar grabbed a \$10 bill from a man's hand in the Paxton hotel and ran up the stairs with it, with the owner of the bill and two bystanders in hot pursuit. He was overhauled on the third floor and in the scuffle that followed the bill was torn in three pieces, each of the pursuers getting one piece. Kaurmar was turned over to Sergeant Samuelson and after he had been in prison for several hours he seemed to come to himself. He said he had been on a spree and was in bad shape. The police surgeon examined him and confirmed the statement. He was sent to the Omaha General hospital.

KID AT LEAST GETS EVEN

Turns in Fire Alarm to Punish Playmates Who Run Him Aways.

An alarm was turned in from Twenty-fifth and Farnam streets Thursday night and four fire companies responded, only to find there was no fire. The alarm was telephoned in Thursday night from 35 South Twenty-fifth street and the detective went to that address and found Curtis Bevington, a 14-year-old boy at home. The young man confessed that he was the identical one who telephoned in the alarm. "Some kids had a big bonfire down on

Great American Fortunes and the Making of Them

STREET RAILWAY FINANCIERS.

The enormous wealth accumulated by the group of men in the street railway systems of New York, Chicago and other cities, representing a capitalization of \$1,000,000,000, is the subject of a series of articles by Burton J. Hendrick of the staff of McClure's. The first of these articles appears in the November number and describes the operations in New York City of the syndicate headed by Thomas F. Ryan, controlling the Metropolitan Street Railway and its allied lines. The story of how these men obtained possession of the greatest transit monopoly in the world, and the uses they have made of it, involves many dramatic instances and contains notable character studies of most of the foremost business men of the last twenty-five years.
