BUSINESS, THEREFORE, IMPROVES

'oreign Markets Are in Strong Posttion and Are Demanding Domestie Stock-Monetary Outlook is Helpful.

OMAHA, Oct. 25, 1907. With reassuring prospects on the Stock xchange and a stronger monetary outlook, rain took strength and opened consider-

drouth in India and Australia, and by excessive rains in Argentina. The market was subjected to heavy selling pressure from several of the lending longs, and these sales soon started prices downward. Throughout the remainder of the day the tendancy was toward a lower level. Declines in the price of cash wheat at all outside markets except those in the scuthwest had a depressing affect on options on the local market. The amentical situation in the financial word, however, was the chief factor. The market closed weak. December opened it, giltic to 24,004%c higher, at \$1.00 to \$1.01, sold off to \$5%c, and closed at \$5%c. May sold between \$1.00 and \$1.07%, and closed at \$1.06%. Clearances of wheat and four were equal to \$1.00 bu. Primary receipts were 1.05.000 bu., compared with \$55.000 bu. the corresponding tay a year ago. Minnapolis, Duluth and Chicago reported receipts of sel cars a ginst in cars last week and the tars a year ago.

The corn market was strong early in the day, chiefly because of the advance in wheat. The break in wheat caused considerable selling in corn, but prices showed only a moderate decline. Shorts were fairly active buyers late in the day. There was a firm tone at the close. December opened the to \$50.00 for and closed at \$7%c. Local receipts were 27 cars, with \$3 of contract grade.

Oats were quite strong at the start, in

receipts were 27 cars, with 33 of contract grade.

Once were quite strong at the start, in sympathy with the advance in wheat and corn, but some ensed off on selling by local longs. The break in wheat was the chief factor. December opened 15% to 55% to 55% and then declined to 55% and up to 51% and then declined to 55%. The close was at 55% Local receipts were 25 cars.

Provisions were strong at the opening, owing to liberal purchases by local packers, which were based on a smaller run of live hogs, and the strength of grain. The market weakened later on profit taking. At the close January pork was off 5c at \$1.57%.

Estimated receipts for tomorow; Wheat. 76 cars; corn, 314 cars; oats, 253 cars; hogs, 5,000 head.

The leading futures ranged as follows:

Wool Brarket.

BOSTON, Oct. E.—WOOL—The Commercial Bulletin of Boston, basing its report upon statistics gathered for the government, will say tomorrow of the wool market. The panicky condition of the New York stock and financial markets has had little influence upon the local wool situation, though there is apparently more conservative feeling among both buyers and sellers. The market is quieter, as the large operators previously covered their requirements and are temporarily out of the market. Varieties of territory stock are selling at lightle in the grease and on the scoured basis of 600000 for fine and 60000 for fine medium. In original bags ciething territory sold on the basis of 60000000. Fleece wools are firm, particularly fine and half bloods. A bid of fligs for Delaines was turned and unwashed, while the unmerchantable is sold at lig. Half blood sold at Stc. Three-eighths sells at SG65500 and more interest in one-quarter blood results in sales of Ohlo at fig. Australian advices are very strong and higher urless are going in Melbourne and Sydney. The shipments of wool from Boston to October 26 inclusive, according to the same authority, are 500 from Boston to October 26 inclusive, according to the same authority, are 500 from least year. The receipts to October 56 inclusive, were 500 127,306 lbs., as against 125,00000 for the same period last year.

ST. LOUIS. Oct. 25.—WOOL—Quiet; medium grades, combing and clothing. 39400 Ect.; light fine. Territory in the same lime is the same filled in washed. 250500 to the washed. 250500 to be averaged to be same to be same lime is the same lime is the same period last year.

Events of Week in New York Tend to Cause Conservatism.

RETAIL BUSINESS IS IRREGULAR

Leading Industries Maintain Active . Machinery at Most Points-Railway Earnings Increase.

NEW YORK, Oct. 35 .- R. G. Dun & Co. Weekly Review of Trade tomorrow wil

New England footwear manufacturers re-port trade quiet and conditions unchanged. Wholesalers throughout the country are doing a good business, but are conserva-tive. Leather is dull, especially at the east, but a steady volume is noted at the west and south. Heavy sole leather con-tinues scarce, but light weights are ac-cumulating and large orders should be placed.

PROOF OF OMAHA SOUNDNESS Wheat Brings a Higher Price on Local Martet Than in Chiengo.

Excellent conditions in western business circles, regardless of the flurry in the east, were shown today when the Updike Grain company closed large contracts for wheat to be shipped to Europe at a higher price than is paid on the Chicago market.

"Wheat in cars at Omaha is worth more than it is in Chicago for export business." figures on the amount of wheat which we have sold, but we secured a better price than can be obtained in Chicago."

Grain men account for the better prices in the west largely on the ground that the western banks have taken care of the financial needs of the western markets, while money is short in the east, even in Chloago, which is usually considered the
