THOMPSON BELDEN & CO.

Howard, Cor. 16th Street See-10-25-07 Open Saturday Evenings

pany had a business connection with the Borough Bank of Brooklyn, which suspended payment today. The Brooklyn bank, with a place of business at Fulton and Clinton streets, Brooklyn, did not open for business today. This bank has a capital stock of \$200,000 and owes its depositors about \$1,300,000.

More Small Bills Needed.

The secretary of the treasury is continuing to give financial assistance in a large way. The department is doing everything possible to allay apprehension. Another large supply of small bills is being rushed to New York from Washington. An associate of the secretary of the treasury said today that the secretary's refusal to make any formal statement this morning might be expressed as an indication of Mr. Cortelyou's belief that the situation generally is showing improvement.

It developed this morning that a considerable number of those in line at the Trust Company of America and at the Lincoln Trust company were not depositors, but persons who had taken positions in line in the hope of selling, favorable positions to depositors who would be willing to pay for a forward place. Wherever possible these persons were removed from the line by the police.

Importation of Gold.

It is understood that the necessities of the stock exchange situation will be met today as they were yesterday. J. P. Mor-

gan & Co. were advised early as to the stock exchange position by President Thomas of the exchange. Loans made on the stock exchange today will be carried on or next Monday.

It is understood that negotiations were begun today by international bankers looking to the importation of gold from London and Paris. It is expected that from \$10,000,000 to \$15,000,000 will be engaged at those centers for import if dealings in stocks were not active, and the general list moved rather narrowly. Individual securities, however, acted favorably. Selling of Northern Pacific carried it down 2 points and Reading 1 1/2. Oregon Short Line funding 4 per cent bonds sold at 75, a decline of 7 1/2 from yesterday's price.

A few stocks were notably weak and this kept the tone of the market unsettled, but the general selling was not active. The heaviest declines were in Northern Pacific, Reading and Illinois Central.

The large loans made by J. Pierpont Morgan & Co. and their associates to stock brokers yesterday when the brokers were demoralized, were renewed today at 20 per cent.

Wanamaker is Safe.

Among the rumors abroad in New York there have been many affecting a number of leading commercial houses. These rumors have evidently been started for the purpose of affecting the stock market, and a man high in authority in the house of John Wanamaker, makes the following statement:

The rumors that have been in circulation regarding this firm recently are ridiculous

and without foundation. The affairs of the firm were never in better shape than they are now and the business of this New York store never larger. The business of the latter store so far this month has been the largest of any month since the store was opened and we are endeavoring to make it a thorough record breaker. Everything is all right. We are able to get all the goods we want and there is no trouble.

Questioned as to how he regarded the financial situation today, J. Pierpont Morgan said:

"If people will keep their money in the banks everything will be all right."

The First National bank of Brooklyn, with a capital stock of \$200,000, suspended payment today. It owes depositors about \$1,200,000. The failure of Gregory, Gulick & Co., members of the Consolidated Stock exchange, was announced this afternoon. The failure is unimportant.

Meager Dealings in Stocks.

The meager dealings in the stock market were due to the dearth of money supply in the loan crowd at the stock exchange. Brokers waiting there to obtain supplies were in a tranquil frame of mind, relying on assurances from high banking authorities that a supply would be forthcoming later in the day. Most of the business done at the stock exchange was for cash.

About 100 depositors of the Riverside bank in Eighth avenue began to withdraw their accounts today. The bank owes depositors about \$2,500,000. It was reported early today that the Treasury department had reported about \$3,000,000 in New York banks, in addition to the deposits the secretary already had made. Men pressing the money note circulated in the stock exchange watching developments, but making no loans for several hours, as the need of the brokers did not appear to be urgent and most of the trading was being done in cash.

Suspension of Trust Companies for Which it Clears Responsible.

WASHINGTON, Oct. 25.—The suspension of the First National bank of Brooklyn occurred today. It was reported early today that the Treasury department had reported about \$3,000,000 in New York banks, in addition to the deposits the secretary already had made.

First National Bank of Brooklyn Closed Its Doors.

The First National bank of Brooklyn closed its doors this afternoon and National Bank Examiner George T. Curtis has taken charge by order of the comptroller of the currency. The First National bank cleared for the Williamsburg Trust company and the Jenkins Trust company of Brooklyn, both of which failed today. The National bank was closed to protect its depositors against the failure of the trust companies which might be presented through the clearing house.

Officers Take Advantage of Law Giving them Notice.

BALTIMORE, Md., Oct. 25.—During a run on the east branch of the Home bank, which began yesterday and was continued increasingly today, the depositors were notified that the bank would take advantage of a charter permitting it to demand sixty days' notice of withdrawal. A member of the firm of Bernsten, Cohen & Co., owners of the bank, today admitted that the

TRouble FROM COFFEE.

"Coffee treated me so badly that I want to tell people about it and if you can see my letter I will be glad.

"I am 18 years old and have drunk coffee all my life. I have felt bad for years drop down or else I would have fallen.

"I felt bad all over. My feet would swell and hurt me. A friend of mine asked me to try Postum and stop drinking coffee. I tried the Postum, but it was some days before I got hold of the right way to make it. My heart disease and drowsy disappeared and I got entirely well.

"There is much in making it. It is not as bad as making it. I got it made good, but when I got it made good, it was fine and now I wouldn't have coffee in my house at all. I am sure that Postum saved my life, and I am now perfectly well. I send you the name of about twenty people that have been helped by leaving off coffee and using Postum Food Coffee."

PRICES RALLYING IN LONDON.

News of intervention of financiers brings relief to market.

LONDON, Oct. 25.—American securities rallied sharply on the stock exchange this morning, owing to the optimistic reports from New York following the active intervention of prominent financiers in the financial market for the purpose of stopping the decline in price. Quotations at the opening today were 2 to 4 points over yesterday, and far advanced later on. Union Pacific at noon showed a gain of 4 1/2, Louisville & Nashville had risen 4 points and Atchafalpa and Canadian Pacific showed an advance of 3 1/2 points above the New York market. United States Steel was an exception to the general firmness and ruled half a point below par.

HEINESE AFFILIATION OF READING, PA., FORCED TO SUSPEND.

PHILADELPHIA, Oct. 25.—Pennsylvania Knitting company of Reading, Pa., manufacturers of hosiery, a Heinese company affiliation, against whom a petition in bankruptcy was filed yesterday, had receivers appointed for it today by the federal court. The cause of the embarrassment is laid to attachments secured by creditors in New York. The liabilities are placed at about \$200,000 and the assets at \$200,000.

Druggists Will Resist Law.

SIOUX FALLS, S. D., Oct. 25.—There now appears little doubt that Sioux Falls will be the battle ground of the legal contest between A. H. Wheaton, state food and dairy commissioner, and the druggists of South Dakota, to determine the legality of the pure food law, which was enacted by the state legislature at its session last winter. The druggists are in open rebellion against the new law, which went into effect October 1, and most if not all of them have thus far ignored the provisions of the law. Preparatory to what is believed will be an attempt to enforce the provisions of the new law in the courts. Commissioner Wheaton issued a circular letter calling the attention of the druggists of South Dakota to the provisions of the new law, and advising them that they must not sell any patent or proprietary medicine that did not contain a list of the ingredients in such medicine on the label or cover of the package or bottle.
