VOGUE OF HAND EMBROIDERY

It may be bought at the Stores in Allover or Bands by the Yard. Hand embroidery done to order always sends the price of a frock soaring high, but this season the assortment of hand embroidered net trimming, sold in motifs, bands of all widths and allover, is so great and so attractive that it is possible to obtain superb effects through the use of such trimmings. Naturally, these ready-for-use embroideries, being executed at least in part by hand, are not cheap, but results may be secured through them at an expense much less than that of corresponding results achieved through embroidery done to order. Where self-tone colorings are desired and cannot be found on the trimming counters the dyer's art comes to the rescue and white embroidered nets are colored to match materials. Often, too, a touch of gold or silver added to the embroideries after dyeing will be an improvement, and this can be readily accomplished by any woman with the slightest taste and skill in needlework. Some detail of the net embroidery may be

WHAT THE WOMEN ARE DOING W. C. T. U. Holds Educational Meeting with Prominent Speakers. INTEREST IN SCHOOL ELECTION Clubs and Club Organs Urging Women to Exercise Franchise at School Board Election This Fall. Florida has raised the age of protection for its girls from 10 to 16 years and the club women are duly gratified. This action is the outgrowth of agitation started by the women of the state. The Florida Federation of Women's clubs will meet November 19, 20 and 21 at Gainesville. Composed of twenty-eight clubs, the federation is one of the most progressive of the south. The clubs are mainly village or city improvement clubs and many of them have opened and are maintaining village rest rooms and reading rooms and circulating libraries. The federation has recently started four traveling libraries and the president has sent out a thousand magazines to the employees of the East Florida Coast Railroad exchange. School Notes. While the General Federation of Women's clubs and women's clubs generally have not gone on record as endorsing woman suffrage, it is interesting to note to what extent the clubs and club women are interested in the ball election and the election of school boards. Club papers with few exceptions, if any, are urging the women to post themselves regarding school board candidates and then vote for the men or women who will do most for the school system. The election of women on school boards is being especially urged. Club Notes. Dundee Woman's club will hold its next meeting Wednesday at the home of Mrs. J. W. Marshall. The club will continue its study of English literature this year under the Bay View course. Mu Sigma Woman's club will meet next Wednesday morning. of the afternoon and Mrs. Charlton Edholm Biley of Tucson, Ariz., was the speaker. Mrs. Biley, formerly Miss Charlton of Omaha, has had worldwide experience in work for unfortunate women, much of which she has written in her book, "Traffic in Girls." She spoke on this subject Wednesday afternoon and urged the women to give their support and co-operation to the local work. Mrs. Carol Woodward of David City was also a guest of the union and spoke of the temperance work. Florida Clubs. UNCLEAN GROCERY STORES Something of What They May Contribute to the Nation's Food Supply. To the end of eliminating the dirty, unsanitary grocery stores and meat market in the general campaign for pure food, one

statistician offers the following figures in a current magazine. They are worthy the careful consideration of every housekeeper: "There are 24,000,000 people in the United States. For their food \$12,000,000,000 are spent annually. "Eighty-four million stomachs to be fed this year at a cost of \$12,000,000,000. Allowing as a very small average that half the marketing will be done by mail, telephone or through solicitors and children, 42,000,000 people will be fed by women who do not know nor do not try to know their grocers, and \$6,000,000,000 worth of food will be bought through the supervision of the woman who knows her grocer. This food, distributed by grocers, clean and unclean, includes nearly 2,000,000 tons of sugar, 51,000,000 pounds of coffee, 175,000,000 pounds of prunes, 17,864,766 bushels of rice, 84,000,000 barrels of flour and 84,000,000 pounds of tea. "All of these commodities must be handled by various clerks and delivery men before they pass through the grocery store to your pantry. Don't you think it is about time you got acquainted with your grocer and his helpers? Are the men and boys who handle the food for your family worthy of the trust?" Preventing Knots. Not even the woman who does exquisitely the sewing always knows how she can keep her thread from knotting at trying moments. One way is not to use too long threads. A good rule, given to children in our sewing schools, is to break off a thread just long enough to reach from the end of the cone to the left hand held at right angle to the elbow when pressed to the side. Another preventive of knots is to thread the needle before breaking the thread from the spool. In this way you are sure to get the right end of the cotton or silk so it will not untwist as you work and become thin or knotted. Pensioners of the Revolution. An analysis of the pension roll on June 30, 1907, shows the interesting fact that there were at that time three daughters of soldiers of the revolutionary war still drawing pensions. They were Sarah C. Huributt, 89 years old, of Little Marsh, Pa.; Phoebe M. Palmer, 84 years old, of Brookfield, N. Y., and Rhoda Augusta Thompson, 68 years old, of Woodbury, Conn. Esther S. Damon, a widow of a revolutionary soldier, died November 11, 1906, at the age of 92. The names of 528 widows of the war of 1812 remained on the roll at the close of the last fiscal year.
