

YELLOW ROU THE BANKERS

Eastern Men Hurry Home on Reading Exaggerated Reports.

GLAD TO LEARN THE TRUTH

John H. Flack Says The Bee, with Conservative Reports of Wall Street Affairs, Brought Relief.

Yellow reports in newspapers concerning the financial situation in New York City are credited with breaking up the trip of Pittsburgh and Philadelphia bankers, who went to Milner, Idaho, last Saturday and passed through Omaha Thursday night en route for their homes as fast as steam can carry them.

John H. Flack, president of the City Savings bank, who accompanied the bankers on their western trip, returned to Omaha with them.

"It was a relief when we secured copies of The Bee on the train Thursday and read the conservative reports of the situation," said Mr. Flack. "We had been getting yellow papers with headlines which fairly shrieked 'Panic,' and we could not get telegrams from the east. These reports, while not believed by the bankers, made things appear so much worse than they were that it is small wonder they have not scared some people in the west."

Faster than a rolling ball of snow on a steep hill, a panic will grip a town if people are given such yellow stories of failures, according to the bankers, and knowing that any number of papers in the east were publishing just such reports as they met in the west, they felt it to be much safer to return home.

A banquet had been planned by the governor of Idaho for the financiers, and they were invited to Boise as the guests of the state. A special engine was prepared to send for the party, but the bankers were forced to decline. The banquet and reception planned at Salt Lake City was also called off, and the bankers tried to get a special train to carry them to Salt Lake, connecting with the Union Pacific, but money would not secure it.

While the bankers in the party declared that nothing serious would come of the present situation, and not a ripple of it would be felt west of Pittsburgh, they said it would look better for them to be in the financial institutions. The men in the party alone represented capital of \$20,000,000, and are among the foremost bankers of Pennsylvania.

Catlin Expects Hard Contest.

IOWA CITY, Ia., Oct. 25.—(Special.)—In anticipation of a hard game with Drake university, Coach Catlin has been sending his men through strenuous training stunts on Iowa field this week. Scrimmage work has been supplemented with blackboard work every night. Bobbie Miller, a halfback, is temporarily out of the contest with a badly swollen arm. Murphy, another halfback, has also been kept out of the field on account of illness, but is expected to be in shape for the Drake game. Tackle Stutsman is suffering from a stomach trouble, but a notion is not all believed to be serious. With these exceptions, the team, as a whole, is in excellent condition. The team has shown decided improvement over the work in the M-
