It is unqualifiedly true that no better fitting boots were ever produced than the "Queen Quality". Their maker is a genius in combining Fit with Style. That "they fit where others fail," and "give ease the first day worn" are proverbial with every shoe man.

But you know yourself they must have some merits superior to other shoes. A factory output of 10,000 pairs per day-the largest in the world, tells you that.

The new styles ready.
