Financial Conditions Still Dominant Feature of the 'Change.

## RIFT IN SKY SHOULD RALLY PIT Features of Trading and Prices on

Foreign Acceptances from the Continent Are Still Excellent-Wheat Gets Firm on Higher Offerings.

OMAHA, Nov. 4, 1907.

Financial conditions are still the dominate feature of the garin market. The market has a soldout appearance and should rally with any improvement in stocks and monetary conditions.

Foreign acceptances from the continent re-excellent.

Wheat opened and

Articles.	Open.	High.	Lows	Close!	Sat'y

tons in the stock market and a better export demand caused strong markets for wheat here today. At the close wheat for December delivery showed a net gain of 15c. Corn was up %c. Oats were ½c higher. Provisions were a shade higher to 2½c lower.

The wheat market opened weak because of a decline of nearly 2 pence at Liverpool, caused by an advance in the rate of discount by the Bank of England and rains in Australia, where the crop had been in much need of moisture. Another bearish feature was the fresh slump in stocks resulting from the poor showing of the Saturday statement of the New York banks. Towards the middle of the day sentiment became more builtish because of small primary receipts, liberal clearances which were considered indications of a decided change for the better in the financial situation, and reports of 100 bastloads of wheat taken for expoct. The market closed attrong. December opened %c to 1%c lower at 58c 0 58 mc, savanaed to 78 %c and closed at \$1.03 % an

on hand decreased 1.735.000 by, and the visible supply increased 1.235.000 bu. Primary receipts were 774.000 bu, against 1.275.000 bu, on the sained day last year. Of the sained day last year. LONDON, Nov. t.—Money was in good demand and short supply in the market today. Discounts advanced over the bank rate. Prices on the Stock exchange opened the week in a doleful fashion, the 6 per cent bank rate and the unfavorable news from New York causing dealers to mark down quotations all around, but the amount of stock which changed hands was small. The prices of British securities hardened later, inducing covering operations. Consols recovered from the lowest quotation, but eased again on realizations, owing to the high money. Americans were offered during the great part of the session without finding many buyers. The weakness of the high money. Americans were obsered during the great part of the session without finding many buyers. The weakness of the New York bank statement and the possible check to gold withdrawals, owing to the higher bank rate, prompted selling. The losses in the forenoon ranged from 1 to 4 points, Cavadian Pacific and Union Pacific suffering the most. The receipts of the New York quotations later caused a recovery, which advanced Union Pacific 14 points, Atchison, Topeka & Santa Fe 2 points and several others advanced fractionally. The market closed firm. The improvement in Americans was helped by the United States buying nearly £500,000 in gold from the Bank of England this afternoon. Copper shares dropped with the metal and foreigners as well. Diamonds weakened on Paris selling.

Statement Bash

Statement Bank of Germany. BERLIN, Nov. 4.—The weekly statement of the Imperial Bank of Germany shows the following changes: Cash in hand 58,-120,000m. treasury notes decreased 200,000m., other securities increased 58,46,000m., notes in circulation increased 78,060,000m.

Treasury Statement. WASHINGTON, Nov. 4.—Today's statement of the treasury balances in the general fund, exclusive of the \$150,000,000 gold reserve, shows: Available cash balance. \$230,486,402; gold coin and bullion, \$15,405,642; gold certificates, \$74,751,880.

## Dun's Report of Clearings

Banking conditions late in October were much disturbed, yet bank clearings in nearly all sections of the country, as reported for that month by R. G. Dun & Co., show a larger volume of payments through the banks than in any preceding October, total exchanges at all cities in the United States outside New York being \$5,556,319,971, an increase of 8.9 per cent, over October last year and 18.4 per cent, over the corresponding mouth of 1905, both record years. New York City is again omitt d from the total because of the loss there, due to purely speculative conditions. There is also a small loss at Boston and Philadelphia, reflecting the same situation in those cities. The increase is mainly in the West and in the South; trade has been very active there and since the movement of the crops has started quite freely payments have increased. Many of the cities in the West and South report the largest volume of bank exchanges of any preceding October and at some cities the largest volume ever reported. There are noteworthy gains at Chicago, Detroit, Milwaukoe, Indianapolis, St. Louis, Kansas City, St. Paul and Minneapolis, showing that the exceptional activity was not confined to any one section but was widespread. In the South Atlantic States, where the improvement is notable, Baltimore reports a good gain; also Richmond and Atlanta and other cities in Georgia. There is a gain at Leuisville. Memphis. Nashville and Chattanooga, but the lateness of the cotton movement in the Middle South and Southwest has caused a decrease at New Orleans and some Southwestern points. Comparison is made below of bank exchanges by sections covering three years : also the average

The disposition of the day's receipts was as follows, each buyer purchasing the number of head indicated:
Cattle, Hogs Sheep. Swift and Company.... Cudahy Packing Co.... Armour & Co.... Vansant & Co... Carey & Benton Lobman & Co.
McCreary & Curey .....
Hill & Son .....
F. P. Lewis .....
Huston & Co.
Hamilton & Rothschild .... 13 .

Totals 4.803 2.804 10.773 CATTLE—Receipts of cattle this morning were very light for a Monday at this time of the year, only 189 car loads being resported in the yards. This was less than half the receipts of Monday a year ago. As buyers all seemed to want cattle and were all afraid that receipts might continue light for the next few days, they were all out in the yards in good season looking for supplies. The result was that the market opened in good season and the big bulk of all cattle changed hands before midday. It was in fact, generally speaking, a good healthy and fairly active market all around, and if anything, batter than sellers expected. As to prices, all destrable kinds of cattle, beef steers, cows, helfers and feeders sold strong to a little higher all around. As a matter of fact, it was possible to find cattle here and there that were not the As a matter of fact, it was possible to find cattle here and there that were not the kind that buyers wanted that moved slowly, but anything that was wanted sold very readily.

After the more urgent orders were filled the trade slowed that the trade slowed trade slowed the trade slowed the trade slowed the trade slowed trade the trade slowed trade slowed the trade slowed trade slowed the trade slowed trade slowed the trade slowed trade slow

After the more urgent orders were filled the trade slowed up and the advance of the early morning was lost. This means that the late trains did not fare so well. Packers seemed to feel that they paid more than necessary early, especially on cows and heifers and were inclined to try to cheapen up on the late arrivals. Feeder buyers also went slower Joward the close after they had picked up such cattle as they especially wanted. The feeling was very weak and all the advance lost on the close.

very weak and all the advance lost on the close.

Quotations on cattle: Good to choice cornfed steers, \$5.5065.50; fair to good cornfed steers, \$5.0065.50; common to fair cornfed steers, \$7.0065.60; common to fair cornfed steers, \$7.0065.60; common to fair cows and helfers, \$3.0063.65; good to choice cows and helfers, \$3.0063.65; common to fair cows and helfers, \$3.0063.65; common to fair cows and helfers, \$1.5062.55; good to choice stockers and feeders, \$3.50654.00; common to fair stockers and feeders, \$3.50654.00; common to fair stockers and feeders, \$2.7863.50.

Ropresentative sales:

Representative sales:

HOGS-Receipts of hogs were very light this morning, the same as they have been for the last week or wore. It is apparent, however, that the demand itself is limited. been fully up to the requirements of the have been fully up to the requirements of the market. The trade opened slow and under the influence of unfavorable reports from other selling points the early sales were generally be lower than last week a close. The market continued duil, closing about 56 lower than last week. After allowing for the decline today the market is attil 10c higher than it was "Monday of last week. SHEEP-Receipts of sheep were quite liberal this morning, but the arrivals consisted very largely of feeder sheep and lambs, with comparatively few of any kind good enough to make killers. Other markets were reporting liberal receipts, with prospects lower. As usual on Monday morning, the attendance of feeder buyers was rather light, so that the trade was very slow in opening. Packers were also very backward about taking hold, their orders apparently being backward about taking hold, their orders apparently being or a second to want very many and even if they had, the quality of the bulk of the receipts was not good enough for packer's purposes. The result was that the murket was not only slow all the morning, but it was well along toward midday before any business of consequence was transacted. When the sheep did sell they went at prices safely logific lower than the close of last week. Even at the decline it was very bard work to move the stuff, it being not

so much a matter of price as wanting the offerings at all.

GRIEF'OVER DEATH OF WALKER News of Killing is Deployed by See cret Service Men in Omaha.

The killing of Joseph Walker, a secret service man, near Durango, Colo., Sunday is deeply deplored about the United States district attorney's office here in Omaha, where Walker was well known. Mr. Walker was engaged in the investigation of some of the land fraud cases in Nebraska and secured the arrest of Aquilla Triplett, and A. B. Todd at Denver. He was here as a witness in the Richards and Comstock cases. He was chief of the Colorado district and Evaporated Apples and Dried Fruits. had been a potent factor in the unearthing

home being in Denver. I have worked with him for years and was only recently associated with him in the coal and tim-ber land business in the west. He and L C. Wheeler were very closely associated in the work of these investigations. I can but think that he was deliberately mur-
