MONEY BILL IN EMERGENCY

Plan to Provide Currency Proposed by Commercial Club.

COPIES WILL GO TO WASHINGTON

Senate and House Currency Committees Will Be Asked to Convene and Frame a Measure of This Sort.

In more definite form than resolutions adopted by the commercial clubs of other cities, the executive committee of the Omaha Commercial Club Tuesday noon passed a resolution recommending that the currency committees of the senate and house convene immediately and with a committee of bankers and business men, frame a bill for an emergency circulation, which will be for use in such times as the present, when currency is short.

Whereas, Unusual financial conditions prevail throughout the United States and business interests of the country are becoming congested and very much restricted, therefore, be it Resolved, That we, the Commercial Club of Omaha, recommend that the currency committee of the house of representatives and of the United States senate convene immediately, and that they designate a committee of representative bankers and representative business men from various cities to meet with them before congress assembles and frame a bill for an emergency circulation for just such conditions as now exist. And we further recommend that this be made the first order of business taken up and disposed of before congress adjourns.

St. Joe Plan Vague. The Omaha club was asked to sign the telegram to the president, sent by the St. Joseph, Kansas City and St. Louis clubs, but did not do so, because it was indefinite and frowned upon by the members of the Omaha Clearing House association.

Believing that prompt legislative measures should be adopted to prevent a repetition of existing financial conditions, we, the undersigned organizations, respectfully and earnestly urge that currency legislation be the first matter to be considered at the December session of congress.

The Omaha resolution, like the Omaha idea of the cashier's check system, is likely to travel all over the country, as it proposes a definite plan for framing a currency bill and unlike many of the resolutions passed by representatives and the currency committee in conjunction with a committee of bankers and business men, who are in a position to know the exact needs of the country with regard to circulating medium.

Banking Runs Smoothly. Banking in Omaha with the checks in circulation without incident. The bankers will not make known the exact amount of the checks issued, but intimate that it will be more than \$1,000,000. At no time will half that amount be in circulation, according to President Yates of the Clearing House association, and he is more than willing to believe that probably \$200,000 will cover the amount of the checks in actual use.

The Postoffice department authorized the announcement that cashiers' checks cannot be received at the money order department in payment of money orders. Only what will be received. The announcement is made necessary from the fact that banks and others persist in offering checks for money orders, which, under the postal laws, cannot be accepted, however good they may be.

NEBRASKA CITY—Thomas Flanagan, an employe at the steam laundry, had a narrow escape from being killed yesterday. BEATRICE—A report reached the city last evening that a mob of 200 citizens from the northeast part of the county were formed to lynch R. Mead Shumway in case he remained in the county jail over night. It was the intention of the mob to remove the alleged murderer to Lincoln last night, but reports are to the effect that the officer had him placed under guard and removed from the jail to some other part of the city. Prison life evidently does not agree with Shumway, as he looked emaciated when he faced Judge Keilgarr yesterday. He has lost considerable flesh since his incarceration, and has the appearance of a man who is gradually losing his health.

NEBRASKA CITY—The Missouri Pacific for some time has had thirty Greeks in its employ and domiciled them in two cars on a sidetrack in the yards. The men did not give good satisfaction, as they did not do their work well, so they were discharged and thirty other Greeks brought here to take their places. The first squad refused to vacate their quarters and the second crowd thought they should be given a place to eat and cook. This first crowd did not want to surrender until they had been given their money and transportation furnished to the next place where they would be employed. After considerable haggling, in which officers and attorneys took a hand, the first crowd was permitted to retain their present quarters and the second crowd will be cared for near the freight house.

The Careful Physician

A doctor recently said—"I know that if I could keep Coffee from most of my patients the remedies would be more effective."

That's because Coffee contains a drug—Caffeine—which interferes with the success of other drugs the doctor may be giving the patient.

Some of the effects of the Coffee drug are: Nervousness, Palpitation of the Heart, Shortness of Breath, Insomnia, Appetite, Cold Hands and Feet, Indigestion, Bowel Troubles, etc., etc.

Common sense would suggest the disease of Coffee when such symptoms show themselves, before the disease becomes permanent. It is well to heed the doctor's advice when he says—

"Cut Out Coffee if it disagrees" It's an easy and pleasant task when the further suggestion is observed:—"And Use Postum"

10 days' change from Coffee to Postum [well-boiled according to directions on pkg.] will prove that "There's a Reason" for

She thanks Cuticura very much, and will recommend it highly in our locality and in every nook and corner of our parish. God bless you for the sake of suffering humanity. I. M. SOUTHERN MAN CURED Of Terrible Eczema by Cuticura in Six Weeks.

"Some time ago I suffered terribly with eczema, and I had the best medical attendance, but the more medicine I took the worse it seemed to get. I kept on with medicine for about five weeks until I saw the Cuticura Remedies advertised, and I at once purchased the Cuticura Soap, Ointment, and Cuticura Resolvent, but had not the slightest hope of them curing me. After I had used the first set of the Cuticura Remedies, I saw improvement, and in just six weeks my skin was as smooth as ever. I advise every one suffering from this terrible disease to use the Cuticura Remedies. Henry J. Scully, 132 Spring St., Charleston, S. C., June 12, 1906."
