**NEW IMPROVED HOT BLAST THE SOLAR**  
burns smoke and gas without blowing the fire. Has front feed door and ashpan. Heats the floor and keeps fire forty-eight hours without attention. We sell it at a cut price for cash or on small monthly payments.

The improvement in the Solar over the old has been, the original is the Solar air-tube is open in the side instead of the end. This makes it possible to have the tube open, admitting air to the fire constantly. The has-been makes a variable heat as soon as the blast is turned on and CANNOT be controlled. When the Solar is the same as an ordinary soft coal stove.
