Weak Foreign Cables Have Serious Effect on Domestic Prices.

RECEIPTS ARE PRACTICALLY NIL

Terminals Are Shipping All Grain Possible-Little Support Given to Any of the Options.

OMAHA. Nov. 5, 1907.

The market opened off and showed no grip. Foreign cables came week and had serious effect on the domestic market. All terminals are shipping all possible grain and receiving practically nothing.

Wheat opened soft and there was a considerable break early and was followed later by another as soon as buying eased up. There was little support given any of the options at the close. Decumber wheat opened at \$7 %c and closed at \$5 %c. Corn was steady at the start, out soon sympathized with wheat and fell off several fractions. There was some good support out, but weak cables and the break in wheat was too strong. December corn opened at 53 %c and closed at 52 %c.

Oats opened heavy and dropped several points on selling of long stuff that had been held over. Trade was light and the sharket closed on the decline. December dats opened at 47c and clased at 46 %c.

Primary wheat receipts were \$25,000 bushels and shipments were \$34,000 bushels. Against receipts last year of \$2,227,000 bushels and shipments were \$25,000 bushels and shipments were \$25,000 bushels and shipments of \$53,000 bushels.

Liverpool closed %d to %d lower and wheat, and 15,000 bushels of wheat, and 15,000 bushels of wheat, and 15,000 bushels of corn, taken for export. OMAHA, Nov. 6, 1907.

Louis 49 CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Nov. 6 .- Wheat prices on the CHICAGO, Nov. 6.—Wheat prices on the local exchange broke more than 20 today because of rumors of financial embarrassment in different parts of the country, and the reported closing down of several flour mills at Minneapoils. At the close the December delivery showed a net loss of 25c. Corn was down 15c. Oats were Dac lower. Provisions were of 2550 The market was weak all day. The chief causes of the decline at the opening were lower prices at Inverpoil, and the reported closing of a number of mills in the northwest. The weakness became more secute in the last half of the session on the northwest. The weakness became more acute in the last half of the session on runners that various small banks throughout the country are not in easy circumstances. The market lacked buil support, the demand coming largely from shorts fellers were extremely aggressive in the set half hour, and the market closed weak, with prices near the bottom. December duesed a shade to helpe lower at 94 ag 18 vc. sold at 26 c. and then declined to the country. The close was at 25 ag 22 c. May ranged between \$1.01% and \$1.03%, and closed at \$1.01% and \$1.03%, and closed at \$1.01% and \$1.03%. The world's visible supply, as shown by Brad-world's visible supply, as shown by Brad-

and flour Werstequal to 68,301 bus The world's visible supply, as anown by Bradstreet's, increased 1,36,000 bu. Primary-receipts were \$13,00 bu., against \$2,37,000 bu. on the same day last year. Minneapolis, Duluth and Chicago reported receipts of 555 cars, against 500 cars last week and 1,216 cars one year ago.

Corn declined nearly 50 in sympathy with a sharp break in provisions, and on favorable crop reports from Kansas. Talk of to hogs was also an influential factor. The market closed weak at the lowest point, December opened talke lower at 57,236,25, sold at 55,5, and then declined to 55,5, where it closed Local receipts were 51 cars, with 25 of contract grade.

grade.

Trade in oats was very light. The slump in wheat and corn and a weak market for easn grain were the bearish factors.

December opened Mc lower at 194c, soid at 494c, and then declined to 494c, where it closed. Local receipts were 87 cars. it closed. Local receipts were 87 cars.

Provisions broke sharply on heavy selling by leading packers. The greatest weakness was in January pork, which declined 75c from the close of yesteriny. A weak market for live hogs and the prediction by a prominent local packer that hogs would be to be selling at 4g per pound were the reskening factors. At the close January pork was down 15c, at \$13.20. Lard was off fluent \$1.50. Ribs were \$2007/2c lower, at \$1.000,7.00%.

Estimated receipts for tomorrow are: Wheat, 2 c.rs; corn, 56 cars; oats, 51 cars; hogs, 14.000 head.

Administration of the control of the

buying only such stuff as they actually need to fill current orders. On the other hand, while there is a good demand for feeders, there being plenty of people who would like to feed a bunch of sheep or lambs, still the scarcity of money retards buying on their part to such an extent that market values are steadily working lower for the lack of buying support.

This morning the market opened with a vary light demand. Packers were out in fair season looking around, but it was very evident that they did not need very many and some of them did not hesitate to say that prices would have to be around isc to 35c lower to interest them very much. Under such conditions it is hardly necessary to add that the trade was very stagnant, with comparatively little business doing.

The attendance of feeder buyers from the

doing.

The attendance of feeder buyers from the country was rather limited and those who were here seemed to feel that there was nothing to be made by being in a hurry and hence they were disposed to take their time in making selections, with the result that the market on feeders was just

Here's the latest joke. Ice water from the mountain lakes of Colorado; ordinary dampness from the Arkansas and pure running thirst quencher from the brooks and ponds of Kansas. was thrown at the Missouri river improve ment movement when notices and preselippings were received at the Commercia. club Wednesday announcing the con-vention of the "inland Communities" to be held at Wichita, Kan., November 16. Investigation of the bundle of documents showed that the object of the meeting will be to oppose the expenditure of public money for the improvement of waterways

and Omaha, gaining an advantage infreight rates, by reviving extensive river transportation. The movement was started in Wichita and the inland towns and cities of Colorado and Texas have been urged to join in the great movement to prevent the money of the people being expended by the people for the benefit of the people everywhere

and do everything possible to prevent river ofties, such as Kansas City, St. Joseph
