This week finds the "Indians" of Bellevue at hard practice for the game with Peru, which is the decisive battle this year. fustend of the meeting on the gridieon with

When the foot ball team of the Normal school defeated Donne it threw the decisive game to a match between Belleyue and

Peru, which was quite unexpected. Sullenberger is being worked in at right half, as Brown is in bad shape, due to n wrench of his leg in Saturday's game. It is doubtful whether he will be able to play at all next Saturday. Outside of Brown the other members of the team are in excellent shape and, despite the weather, have been on the field every evening taking a good workout. . Coach Srow is optimistic about the game and expects to win by a small score. With Brown out the score

Coach Shearer of Peru witnessed the Doane game Saturday, getting wise to many things the Indians have in the foot

Undoubtedly next Saturday's contest with the schoolmanters will be a harder fought battle than the preceding game. Peru and Bellevue, both victors over Doane, will be left to fight it out, and that is what they will do on the Bellevus campus next Saturday.

Contest Between Captains.

One feature of the game will be the battle between the two centers, both captains of their respective teams. Swenson of Peru and Kearns of Beffevue have the reputation of being the best linesmen in Nebraska. Swenson outweighs Kearns by thirty pounds and is much faster, yet lacks reach and experience. This is Kearns last hard game and it is expected that he will put up the game of his life. Swenson, the mainstay on the Peru team, will, without a doubt, hold-up the separation.

WITH THE BOWLERS.

The Meiz Brothers' team and Storz Blues broke their tie for first place last night, when the former won two games of their series. The race is the closest in the league's history, as the Gate City by winning two games this week will tie the Storz or three will tie the Meiz. The Indians, whom they play tonight, however, say they will not be able to win enough to tie either. For the high total and single game last night Eddie Cochran captured the honors, with 501 and 241. ficiently investigate the claims to consideration of a rival company and the absence of provisions compelling connections with independent companies.

The mayor in announcing his approval naid:

This ordinance was under consideration by the council committee for nearly two years. That committee had the assistance of a commission of experts appointed under a previous administration, the results of whose investigation, research and reflection are a matter of public record. Abundant opportunity to be heard was afforded everyone who had anything to suggest to the committee in connection with framing the ordinance. Viewed from every possible atandpoint, saw only the question of rates, the ordinance as passed by the council is one of the most complete that has ever been adopted in this city for the regulation and control of a public service colporation.

ulation and control of a public service cor-poration.

As to the question of rutes it cannot be definitely told whether they are too high. That problem is essentially a legislative one. If it shall be determined in the future that the rates are too high, abundant authority is reserved by the terms of the ordinance for their future regulation.

WILL ANGLERS ORGANIZE National Movement to Protect Game Fish is Approved by Roosevelt and Cleveland.

NEW YORK, Nov. 12.-At a meeting described as a conference of anglers, held in the museum of natural history tonight, preliminary steps were taken towards forming a permanent national organization for the protection of food and game fish in American waters. Dr. Harry Van Dyke of the Princeton faculty presided and heads a committee appointed to draw up plans of organization. Letters of commendation were received from President Roosevelt and former President Cleveland

The meeting was called for promoting more sportsmanlike spirit in the pursuit of fish by anglers and to induce fishermen to use tackle and methods that give the lish a "fair chance."

Regulation.

MILWAUKER, Wis., Nov. 12.-William Jennings Bryan was the guest of honor at a banquet on the twenty-first anniversary of the Jefferson club of this city at the Plankinton house tonight. Covers were laid for over five hundred guests. Mr. Bryan responded to the teast "De mocracy." He discussed the democratic theory of government as presented by togian theory of centralization and in

dled to corporations when they conrol as much as 25 per cent of the total output in their respective lines. Accord-Nebraskan Guest of Jefferson Club at ing to this system no one corporation would be permitted to control more than 50 per cent of the total product.

On the tariff question he favored immediate revision, beginning with the tariff n articles which come into competition with trust-made articles. Such a tariff he thought beint to be entirely removed. He believes that the fear of removal will compel the dissolution of such trusts as are protected by the tariff. He regarded a tariff commission as merely an excuse for delay in revision. The protectionists, trouble that is not beyond the reach of he said, never favor tariff revision until they are threatened with defeat, and then they favor it only to postpone reductions.

Regulation for Bailroads. On the ratiroad question he expressed himself as in favor of more stringent regulation, that regulation to take the form of legislation ascertaining the present value of the rallroads, preventing the watering of stock, and reducing rates. He argued hat a reasonable rate would be a rate hat would enable the railroads to maintain their stock at par when the road was onestly capitalized;

He discussed the present money stringency, saying that it began with speculation in New York, but that it has extended.
