LONDON, Nov. 13.—The supplies of money in the market today were moderate and there was a good demand. Discounts were firmer, owing to the fears of further gold movements to New York. Trading on the Stock exchange developed an easier tendency, owing to the unfavorable position in the United States and less confidence regarding cheaper money, while husiness slackened pending the announcement of tomorrow's bank rate. Investment purchases were negatived by the above influences. Foreigners continued firm in sympathy with Paris, and Kaffirs recovered from an early duliness and closed closed strong. Americans were marked below parity at the outset on less reassuring reports from New York but they milied in the forenoon on covering operations. The market sagged later in the absence of support and with the New York advices coloriess trading was dull at the linin).

ELOPERS ELUDE THE PURSUER Girl Stays by Her Lover Despite Pleadings of Brother Who

Follows for a While. Passengers on the Lincoln and Beatrice. Burlington train leaving Beatrice Tuesday afternoon were entertained with the scenes of an elopement which culminated successfully, notwithstanding persisent endeavors of a brother of the girl to stop the proceedings.

young man and young woman, with an accompaniment of gripe boarded the train hurriedly, and after getting the young woman seated in the chair car, the prospective groom started for the front of the car to be on guard against pursuers. About the same moment another young man boarded the rear end of the car and ONAHA WHOLESALE MARKET.

pleading with the girl. Just before reaching DeWitt, the lover came in and took the girl into another car with her grips. After they had gone out the brother again appeared and missing the girl asked some of the passengers where they had gone. He started to run after it, but the train was moving too fast and the last the passengers saw of him was as a most dejected specimen of humanity standing on the platform of the station at DeWitt wringing his hands.

Inquiry over telephone at Beatrice failed to elicit the names of the clopers.

A voter from the precinct organized himself into a Society for the Suppression of Black Bottle at Elections and made a complaint to County Attorney English a few days ago. He declared for several years sly winks, the retiring of voters and candidates to secluded places and suspicious smacking of the lips afterward have been features of elections when some rich plum like the road overseership has been up for contest. He declared he for one was getting tired of it. After hearing the law of the case he left the county at torney's office saying he would return later and announce what course he wanted jo
