When court adjourned last evening the state had presented practically all of its testimony.

The defense chaims that Lankton was the aggressor in the fight and that Shelber acted in self-defense. The testimony of the state yesterday went to substantiate the contention of the defense.

In his opening statement to the jury County Attorney Hess contented himself with saying that he would present all the evidence which he had been able to obtain relative to the three-cornered fight between the defendant, Lankton and the latter's companion, William Delahovde, in which Lankton received a wound by striking his head against the pavement, which caused his death the next day. Emme Tinley, counsel for the defense, declared that the evidence of all the witnesses to the fight would show that Lankton had been the aggressor and that the defendant only knocked him down in self-defense.

Attorneys for Roy W., Stevens, convicted of an attempted criminal assault on liyear-old Christena Christensen, have been given until Saturday next in which to file a motion for a new trial. In case a new trial is denied, it is said an appeal will be taken. J. J. Stewart, one of Stevens' counsel, said yesterday, "We expect to take an appeal if we do not obtain a new trial. if we take this step, we shall try to secure

Brings Back Big Rumor. An Iowa banker, whose name cannot be sclosed, but who helds a considerable mount of paper of the big packing institutions, has brought back the report rom Chicago that the prices of live stock are to take a tumble and that later this will be followed by a fall of the price of iressed meats. This lows banker went to Chicago to get his money. It is known that the big packing industries have, borrowed vast sums of money and country bankers hold the paper. This Iowa banker wanted his money back and went to Chicago after it. He didn't get it, but learned that the packing house concerns will immediately nammer the price of live stock down from 6 cents to \$1 a hundred. This will stop ive stock coming to market and will give them the control of the dressed beef market until such a time as they can get rid of the stock of dressed meats that they have on hand and for which they paid a high price. When this is done they will have noney with which to pay off their loans.
