

GRAIN AND PRODUCE MARKET

Situation Heavy and No Strength is Developed.

NEITHER OPTIONS OR IN CASH

No One is Willing to Take the Buying Side, as General Business is Practically at a Standstill.

OMAHA, Nov. 21.—The situation in the grain market is heavy and no strength is shown on either side of the cash market. No one seems willing to take the buying side so long as the banks and the general business of the country is bad.

Wheat started moderately strong at the opening, but as soon as it came on the market showed no strength. Selling was slow and the demand for support, the market being quiet. The market was disappointing to the long holders, who had hoped to show some strength on the general wet conditions that have prevailed during the winter belt. The demand was light and all hold orders were closed.

December corn opened at 48¢ and closed

Oats were weak and slumped with other grains, but the demand for oats was improving as the supply in the east is received. December oats opened at 48¢ and closed.

Primary wheat receipts were 683,000 bushels and shipments were 914,000 bushels.

Corn receipts were 350,000 bushels and shipments were 334,000 bushels, against receipts last year of 381,000 bushels and shipments 346,000 bushels.

Clearances were 266,000 bushels of corn, 266 bushels of oats and wheat and flour equal to 67,000 bushels.

Wheat prices were 44¢ lower on wheat and 4¢ higher on oats.

Seaboard reported 88,000 bushels of corn taken for export.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Nov. 21.—Wheat prices on the local exchange declined 2¢ from the high point today on selling caused chiefly by the arrival of a large amount of foreign wheat for December delivery showed a net loss of 14¢/15¢. Corn was down 2¢. Oats were unchanged. Provisions were steady.

The weakness in the wheat pit developed after the market had opened firm on active buying by shorts. Prices were soon weak and continued to decline throughout the day. Wall street and liquidation in the December delivery. Other bearish factors were liberal primary receipts, poor export demand, and a reduction in foreign purchases of Europe. After prices had dropped 2¢ from the high point the market rallied on renewed buying by shorts. The close, however, was 14¢/15¢ lower than the opening.
