WAITING SPELL AT THE START

No One Cares to Brenk It, as Reports from Abroad Are Not Conductve to Successful Breaking.

OMAHA, Nov. 22, 1907. All grain opened easier and dropped several points, owing to a lack of support.
There was a waiting spell at the start which no one was willing to break. As reports came in, however, and Liverpool strengthened there was a short rally and the general tone of the market grew bet-

Wheat opened with good selling by com-mission houses, which was gradually taken by local bulls. This steadled prices after a small loss was experienced. Liverpool closed strong and gave our domestic mar-ket a much better tone. het a much better tone.

Oats opened easier and fell off several points owing to a light demand and a general sanguine feeling among the heavy traders. Selling was some scattered and amounted to little.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing

Prices on Board of Trade.

CHICAGO. Nov. 22.—Grain prices on the local Board of Trade declined sharply today because of liquidation of the December delivery. At the close wheat for December delivery showed a not loss of 1/49 1/40. Corn was down 2%c. Oats were 1/30 1/40. Corn was down 2%c. Oats were 1/30 1/40. The wheat market was nervous and prices fluctuated over a range of 2c. The feature of trade was the selling of December holdings by longs. The market was weak all day, with the exception of a brief period near the end of the first hour, when prices advanced approximately id on buying by shorts based on a late rally at Liverpool, where prices had been id lower. Aside from the desire on the part of longs to dispose of the December holdings, the market was bearishing affected by Argentina advices. The reports from that country received early in the session told of favorable weather for the crop, while later dispatches predicted that a large proportion of the new crop will be available for export. The market closed weak. December opened 46/46 to 16/40 to 16 Prices on Board of Trade.

Provisions were weak because of selling pressure from longs and local packers. A decline of 10c to 20c in the price of live hogs and the slump in grains were bearish factors. At the close January pork was off 20cc at \$12.17%, Lard was down 20c at \$7.47%. Ribs were 22%0250 lower at \$0.52%, Estimated receipts for tomorrow: Wheat, 20 cars; corn, 161 cars; oats, 56 cars; hogs, 12.060 head. The leading futures ranged as follows;

lower than vesterday. Today's decline carries the market to the lowest point touched so far this season. Hogs are now selling at the lowest point for this time in November since 1890. The feeling on the part of packers is very bearish and the most of them are predicting a \$4.00 market for the near future. While one man's guess is as good as another in times like the present, there does not appear to be anything in sight just at present to encourage the belief that there will be any very marked improvement soon. As a matter of course, temporary reactions are to be expected, but there are very few operators on the market with the courage to predict anything in the way of a permanent advance. As a rule commission men are refusing to advise their customers either to hold or to ship, leaving it for each man to act on his own judgment.
