Dr. Hay in Solomon Role.

Dr. Hay, superintendent of the Lincoln insane asylum, has proved himself a Solomon. He has two assistant physicians, Dr. Wigton and Dr. Pilbury. Dr. Wigton has a very large room at the asylum, plenty large enough for two. In fact the room has always been used by a married couple, but neither Pilbury nor Wigton was married, so Wigton has had the big room all to himself. Yesterday Pilbury, very much abashed, called at Dr. Hay's office and announced he intended to get married. The doctor was agreeable. "But I want Wigton's room," said Pilbury. Before the superintendent could answer Wigton, with a great big smile, came into the room and announced he intended to get married. "Whoever marries first gets the room," said the doctor, and they do say dressmakers are working overtime in two families.

ADAMS JURY IS DISCHARGED. Panel Fails to Agree, Standing Eight for Acquittal and Four for Conviction.

RATHDRUM, Idaho, Nov. 25.—The jury in the Steve Adams murder case was discharged at 5:45 yesterday afternoon, being unananimous in their verdict, after being out almost 5:30 o'clock Saturday night. The jury stood eight for acquittal and four for conviction. Jurymen J. F. House, Charles Dittmer, D. W. Garwood and S. A. Varnum were the four men who believed Steve Adams guilty of the murder of Fred Tyler, in the Marble creek district of Shoshone county, Idaho, on August 19, 1904.

Five ballots were taken, all with the same result. The jury was ready to report at 3 o'clock, but the court conferred with attorneys for both sides and it was agreed to keep the jury out a little longer. Clarence Darrow, of Chicago, was called to the stand on several occasions, to bail for Adams and of immunity from arrest by Colorado authorities until the Tyler case is disposed of. No promise was given him. Sheriff Batley of Shoshone county is here with a warrant for the arrest of Adams on the charge of murdering Ed Boule near Howard in 1904, at the same time the Tyler murder occurred.

It is understood that Adams is not to be taken to Colorado at present and that the state will not oppose the efforts to get bail for Adams. Darrow will later make application for bail for his client, but will not be allowed to appear for the members of the jury, declared the arrangement of the jury will have no effect on the prosecution of the Tyler case again, nor will it lessen the efforts of the state to prosecute other cases wherein Western Federation of Miners officials and prominent members are defendants. Mr. Hawley is disappointed at the verdict. Darrow says that a defense expected an acquittal.

KAISER WILLIAM BETTER

Health of His Majesty Greatly Benefited by Climate in England.

LONDON, Nov. 25.—Emperor William continues to improve in health, and enjoys the daily walks and drives about the neighborhood of High Cliff. He has decided to prolong his stay in England, and has postponed the start originally contemplated, and is planning short sea cruises in addition to the motor drives.

The weather still is fine and the emperor today attended the village church, joining heartily in the singing of hymns. He was much improved in appearance, and he lost the sallow look and carrow air which were noticeable on his arrival in England.

With regard to rumors circulated that he was about to undergo an operation of the ear, it was announced that such an operation is not necessary for such an operation. A dispatch from Athens states that the emperor is expected to visit Corfu in February to inspect a castle which he recently acquired.

WHAT WAS IT

The Woman Feared?

What a comfort to find it is not the awful thing I feared, but only chronic indigestion, which proper food can relieve.

"I was troubled for years with indigestion and chronic constipation. At times I would have such a gnawing in my stomach that actually I feared I had some disease, but I was relieved of this when I took Grape-Nuts."

"Since that time my bowels have been as regular as a clock. I had also noticed before I began to eat Grape-Nuts that I was becoming forgetful. Now I put little things about the house, which was very annoying."

"I decided to try it. After a short time I was satisfied the trouble was not the awful thing I feared but was still bad enough. However, I was relieved of my bad case of dyspepsia by changing from improper food to Grape-Nuts."

"Since that time my bowels have been as regular as a clock. I had also noticed before I began to eat Grape-Nuts that I was becoming forgetful. Now I put little things about the house, which was very annoying."

"But since the digestive organs have become strong from eating Grape-Nuts, my memory is good and my mind as clear as when I was young, and I am thankful." Name given by Postum Co., Battle Creek, Mich. Read the little booklet, "The Road to Wellville," in packages. "There's a Reason."

EXCHANGE OR SIDE BUREAU

Proposition Which Lumber Men Are Now Acting On.

MAY HAVE EXPERT ON RATES

Committee is Appointed to Outline Need—One Plan is to Operate Through the Commercial Club.

As a result of the meeting of the wholesale and retail lumbermen of Omaha at the Commercial club rooms Monday noon, a traffic bureau, with an expert rate man at its head, may be added to the already busy departments of the Commercial club.

The lumbermen met to organize an exchange to cope with freight rates, as the lumber business has now reached large proportions in Omaha and dealers are still experiencing delays in securing shipments from six weeks to six months. After they arrive in the yards from a week to ten days is required to get them to the yards of the lumber dealers.

Discussions followed the call to order by J. P. White of the Cady Lumber company, and it has not been decided whether to complete the organization of an independent exchange composed of lumber, coal and material dealers, or secure the organization of a traffic bureau by the Commercial club, which will be largely paid for by car load shippers in all lines.

"The time has come when the lumbermen should be represented on the exchange committee of the Commercial club and where there is more than one representative of a line of business on the committee some of the extras should retire and make room for representatives from the lumber men, coal dealers and the grain exchange."

City United at Last. E. E. Bruce, a charter member of the Commercial club, was present to speak for the club and said:

"Omaha has never been together before and I have been interested in this club for many years. Twelve-thirty o'clock today struck the hour when every business man in Omaha realized that he needed the help and support of every other business man and the influence of the Commercial club. The reason the business men have been apart is plain. For many years the individuals could go to the railroad companies and secure what they wanted in the way of rates and perhaps got something better than the other fellow. That is all ended now and we must stand together."

John A. Kuhn of the traffic department of the United States Lumber interests was called by Chairman White and declared that 90 per cent of the work of the commissioner of a commercial club should be to deal with freight and transportation questions and securing new industries. He said the organization of a traffic bureau in charge of a rate expert was a necessity.

H. G. Evans of the Bowman-Krans Lumber company outlined the object of the lumbermen's exchange and said that while it would be independent of the Commercial club in a way, it was not the idea of the lumber and material men to work outside of the club, but to work with it.

A committee consisting of seven lumbermen was appointed to outline the needs of their business and present them to the exchange committee of the Commercial club at the meeting Tuesday. Members of the committee are J. H. White, L. T. Sunder, Frank Copinger, C. W. Hull, H. G. Evans, D. H. Ledwith and N. P. Urdike.

Nebraska Says Coinage of Silver Has No Bearing on Monetary

BALTIMORE, Nov. 25.—William Jennings Bryan lectured at Ford's opera house yesterday under the auspices of the Young Men's Christian association prior to which he was given a luncheon by friends and admirers. Just before the latter event, in response to a question as to whether coinage of silver as advocated by him would have prevented the money stringency from which the country has been suffering, he said:

"The coinage of silver has no bearing upon the monetary conditions which exist today. The restoration of bimetalism would have given us more money than we have at present, but the unprecedented discovery of gold has given us such an increase in the volume of money that prices have risen."

"The present stringency is not due to the scarcity of money, but to the scare that has spread among depositors."
