GRAIN AND PRODUCE MARKET

Opening is Easy and Prices Off from Close of Saturday.

STRONG FACTIONS ARE BEARISH

Declare There is No Warrant for Any
Material Advance Under Preaent Conditions of Money
and Trade.

OMAHA, Nov. 25, 1997.

There was an easy opening on all the grain markets inis morning and prices were of some from Saturian's close.

The strong factions are bearish and desiars there is poining to warrant any material advance under pregent conditions.

Wheat opened lower and the market was some buying started by the stronger buils on the dips, which steaded the market and on the strength shown in Liverpool the market toned up favorably. December wheat opened at soad and coosed at Soles.

Prices on Board of Trade.

CHICAGO, Nov. 25.—The wheat market was strengthened today by an improved export demand. At the close wheat for May delivery showed a net gain of %0%c. Corn was down %c. Oats were a shade higher. Provisions were 2%c to 20c higher. The wheat market was inclined to be weak early in the session, owing to a sharp decline in corn resulting from renewed liquidation of the December delivery. The weakness of the stock market was also a depressing factor at the start. These bear influences, however, were partially offset by an advance of 1d in the price of wheat at Liverpool. The market became strong in the last half of the session on active covering by shorts, which covering was based chiefly on talk of an improvement in export business, fifty-two beat loads of wheat being reported as taken today at New York, while twenty loads were said to have been purchased here for direct shipment. The close was strong. May opened a shade higher to 10.0%c lower at 11.00%c lower at 11.00%c, sold off to 11.00%c lower at 11.00%c lower and close of the stock market became strong in the last half of the session on active covering by shorts, which covering was based chiefly on talk of an improvement in export business, fifty-two beat loads of wheat being reported as taken today at New York, while twenty loads were said to have been purchased here for direct shipment. Market Shows No Disposition to Follow Up Advance of Saturday.

VALUES GENERALLY WEAKER

Drop Due Largely to Selling Out of Loans-More Gold is Engaged and Call Money is Lower.

NEW YORK, Nov. 15,—The stock market showed no disposition at any time today to follow up the advance of Situnday. The suvement seemed to be considered illustryised on second thought on the ground that a resumption of an active advance in stocks would be premature before the banking operations of the country have been restored to normal. An early resumption of cash payments by the banks all over the country 's now looked for with growing confidence, but the conditions which this resumption may disclose are awalted before seeking to enter on speculative commitments. There was a renewal also of some of the urgent liquidation in special stocks which was such an unsettling factor in the whole market last week.

also of some of the urgent liquidation in special stocks which was such an unsettling factor in the whole market last week.

The selling out of loans was the accepted explanation of the weakness, which was especially pronounced in Missouri Pacific. It was thought that the weakness of this stock might owe something also to the change in personal relationships involved in the working out of contests for control of related railroad properties. Dividend in the working out of contests for control of related railroad properties. Dividend of the present of the whole list of railroad stocks was more or less affected by this consideration, which was given fresh force by the contents of the regular weekly reports from railroad traffic were worked off or were being rapidly cleared up and that arrears of railroad traffic were worked off or were being rapidly cleared up and that dide freight cars were accumulating. Published estimates of the extent to which working forces had been cut down in it dustrial enterprises made a formidable showing and coupled with the heavy outward tide of returning foreigners pointing to the same conclusion, had a rather depressing effect on sentiment. On the other adds of the account was a strong advance in copper, both of Lemin and New York. Attention was attracted also by reports of the large numbers of revocations of previous cancellations of orders in various lines of wholesale trade. This was resarded as systement rebound.

There was a further distinct easing of the premium on currency today and this was the most important development of the day's arrivals of gold in the London but that he marked may have been a folial for the open market that had been "earmarked" on heleased \$5,00,000 of gold to the open market that had been "earmarked" of the day's arrivals of gold in the London that that the gold was allowed to go at a sharp recession in the original reports the country of the countr

The call money market was approciably easier today. Funds are still lacking, however, in the time loan market and the commercial paper market also is practically suspended. Taken in connection with the favorable showing of the Saturday bank statement, however, the resnonses in the various departments of the money markets left no doubt of the positive improvement in conditions now definitely insuranted. Careful compilations of the gold movement indicated a ranid approach to the stoneones wark in the aggressis of the engagements. Under these circumstances the discussion of the possibilities of the treasury relief plan fell largely into abeyance as having served much of its intended purpose so far as it had helped in the restoration of confidence, while the course of events had detracted from the importance of the question of its final working out. The stock market remeined unaffected by the manifest improvement in the banking position and the condition of the circulation and prices declined without much interruption from start to finish.

Bonds were irregular. Total sales, par value, £2946,000. United States bonds were unchanged on call.

Discounts were easier, although America secured all the bar gold on the open market. Trading on the stock exchange developed a better tendency on signs of an improved outlook in America, and the rise in Wall Street of Saturday and, although the nearness of settlement restricted business, quotations advanced practically all around. The prospects of easier money and investment buying assisted in the improvement, but resilizations caused a slight reaction from the best. A more favorable bank statement, with the prospects of relaxation in the monetary situation and the rise in Wall Street, induced the bears on the American market to cover, and this, with fair local buying in the forenoon, put values well above parity. Later, the New York opening came to steady the market, but reaction occurred in the afternoon and the improvement disappeared. The market closed easy below the opening level. The rise in copper here, as well as in America, assisted the copper shares, especially Rio Tintos, to advance. 16 feeders. 940 3 80 1 feeder. 710 3 80 HOGS—Receipts were very light this morning, only twenty-five cars being reported in the yards. While this was very annil, even for a Monday, it was about on a par with previous days since the beginning of the money troubles. The receipts at Chicago were very large and the market demoralized, which fact carried down the market hare in spite of light receipts. Hogs sold here this morning logible lower than last week. Most everything sold inside the range \$2.0004.00, this being the first day that the market has dropped below \$4.00 in seven years. With so few cars on sale it did not take buyers very long to effect a clearance when the trade was once under way. BERLIN, Nov. 25.—The weekly statement of the Imperial Bank of Germany shows the following changes: Cash in hand increased 4.280,000 marks, treasury notes decreased 2.160,000 marks, other securities decreased 23.440,000 marks and notes in circulation decreased 57,220,000 marks. effect a clearance when the trade was once under way.

While the market has broken down so rapidly at this point it has suffered no more than have other market points, in fact, not so much. Thus on Saturday the average price paid for all the hogs at this point was \$4.06, the average at Chicago was only \$4.00, and at St. Joseph \$4.00. One trouble just at present is that shippers are crowding Cfficago too hard, thus breaking that market down at a rapid rate, which in its turn carries down all others.

Louis Gillott pleaded guilty to breaking bottles and the city ordinance at one and the same time in police court Monday morning. He threw the bottles into the street just to hear them break, he said. "Were the bottles full or empty?" asked the judge.

"Empty." he said. "Were you full or empty?" to which question he did not respond. Gillott also pleaded guilty to carrying concealed weapons, as a revolver found on him when arrested. Sentence

was postponed till Tuesday morning. "How long do you suppose it would take you to get out of town?" asked Judge Crawford of Henry Lechenberg, who was booked as a suspicious character in police court Monday morning.

"About two days," was the answer. "Couldn't you make it in about two
