GRAIN AND PRODUCE MARKET

Opening is Firm and Higher on Bullish Reports.

EUROPEAN IMPORTS LARGER

Cash Grain is Strong and Strength in Liverpool and Other Ports Allows Good Domestic Trade Advance.

radbar ac OMAHA, Nov. 26, 1907.

Grain opened up firm and higher on bullish reports from European countries where much larger importations are expected. Cash grain a 2000g and the strength in Livetpool and all outside markets have allowed a good advance in somestic trading.

A great deal of wheat was wanted on the start this morning, and the wheat market opened firm and higher. When cables came strong with reports of heavy expected foreign demand, wheat advanced readily.

Corn opened quiet but firm, with no sales

Corn opened quiet but firm, with no sales pressing.

Better demand and the strength shown in wheat heiped to show some little advantage on the bull side toward the close.

Oats started firm and worked higher with other grain and on an increased eastern demand. Officings were light and holders are expecting better prices.

Primary wheat receipts were 1.567,000 bu. and shipments were 75,000 bu. against receipts last year of 1.095,000 bu. and shipments of 895,000 bu. against receipts last year of 1.095,000 bu. and shipments were 175,000 bu. against receipts last year of 47,000 bu. against receipts last year of 47,000 bu. and shipments were 175,000 bu. against receipts last year of 47,000 bu. against receipts last year of 47,000 bu. and shipments were 175,000 bu. and shipments were 175,000 bu. against receipts last year of 47,000 bu. and shipments and 4,574d higher on wheat and 4,574d higher on corn taken for export.

CHICAGO GRAIN AND PROVISIONS

Pentures of the Trading and Closing

Prices on Board of Trade.

CHICAGO, Nov. 26.—Urgent demand for cash wheat in northwestern markets and a liberal decrease in the world's visible supply were responsible in a large measure for a sharp raily in the Chicago wheat markets and a liberal decrease in the world's visible supply were responsible in a large measure for a sharp raily in the Chicago wheat market today. At the close the May option showed a net gain of 1½c. Corn was up 2.60. Oats were 2.501c higher and provisions advanced 20c to 40c.

The wheat market was strong throughout the session. An advance of more than id at Liverpool induced free covering by shorts at the start, and as the session advanced the demand from this source became still more urgent, atimulated by other buillish influences that developed chief of which was a decrease of 3.55.900 bushels in the world's visible supply, as compared with an increase of nearly 2.000.000 bushels in the world's visible supply, as compared with an increase of nearly 2.000.000 bushels the world's visible supply, as compared with an increase of nearly 2.000.000 bushels the mountain district. A barometric depression of decided energy has appeared in the southwest. The market closed strong, with prices at the hijah point. May opened, unchanged to be reflect to 2.6,500 bushels. Primary receipts were 1.2500 bushels. Duinting and Chicago reported receipts of 1.250 cars against 70 cars last week and 20 cars against 70 cars last for corn was active buying of December by shorts. This de-

against 70 cars last week and 851 cars one year ago.

The feature of trade in corn was active buying of December by shorts. This demand, which resulted in an advance of more than 2 cents in the price of that option, was due to firm cables, the advance in wheat, and liberal decrease in the world's visible supply. Other deliveries were strong in sympathy. The market closed strong at the top. May opened a shade to be to 1 cent higher at 53%-6556, sold at 53% and advanced to 54%. The close was at 54%-654%. December closed at 54% Local receipts were isl cars, with twenty of contract grade.

Trade in oats was more active than for some time past and the market was strong.

some time past and the market was strong.
The chief factor was the strength of wheat
and corn. Shorts were the principal buyers. May opened 16014c higher at 425c, advanced to 5014c, and closed at 5014c. Decomber closed at 4614c. Local receipts were
219 cars.

cember closed at 46½c. Local receipts were 213 cars.
Provisions were strong because of liberal purchases by a leading local packer. A 15c to 20c advance in live hogs was the most potent factor contributing to the strength. At the close January pork was up 40c at \$12.55. Lard was up 20c at \$7.45. Bibs were 20c higher at 36.55.
Estimated receipts for tomorrow: Wheat, 80 cars; corn, 85 cars; oats, 92 cars; hogs.

20.000 head. The leading futures ranged as follows: Articles, Open. | High. | Low. | Clore. | Yea'y.

NEW YORK STOCKS AND BONDS

Early Values Are Higher, but Demand Dies Out and Dullness Ensues.

HOARDING FOR MONTH-END NEEDS

Large Payments on Stock Subscriptions and Dividends to Be Met-Merchants Are Needing Lonns.

NEW YORK, Nev. 28.—There were none of the signs of selling out of collateral in loans in today's stock market, such as has been the depressing influence at interveals for some time past. Free fram this influence, the scarcity of the market supply of stocks again became manifest and prices advanced easily on a small demand. The advance in prices did not bring out increased offerings, but the scanty demand became even lighter, leaving the market in a condition of extreme duliness in some of the later stages.

A feature of the day was the growing case of the call money market, largely due to the small demand for loans at the Stock exchange. The approach of the emoof the month leaves open a probability of a temporary hardening of miney rates to meet the large requirements of that period. These include an installment of subscriptions to new St. Paul stock, originally fixed at 13 per cent, but reduced to 10 per cent since the financial stringency developed, and calling for approximately \$10.00,000 at that figure. Great Northern stock subscriptions also are payable, an installment calling for \$3.000,000. The interest and dividend payments for December still show an aggregate far in excess of previous years, arguing the continued high rate of the distribution of profits. The ease of the call loan market did not bring corresponding increase in the demand for commercial papers, for which there is, yet practically no market.

Today's condition is greatly humpering the conduct of commercial operations sid is one of the phases of the situation calling most pressingly for relief. Some of the largest dealers in commercial paper in New York are calling the attention of small interior banks to the importance of setting in motion credit operations of this class, arguing that abstention from granting facilities to merchants will threw back the mills and first producers on the banks to be carried. The refusal to take commercial to the carried the refusal to take commercial paper.

HOGS-Receipts of hogs this morning were lighter than usual, only about fifty cars being reported in. The market opened in pretty good season with a fair demand on the part of buyers. Under the influence of the good buying demand and the more favorable advices from other selling points the market was 10515c higher when the carde was once under way. It became active at the advance so that everything was sold in good season in the morning, the market closing strong. In other words the most of the hogs sold at \$4.0500 t.0, with several loads of pretty good hogs up to \$4.15.

Today's advance carries the market back

have experienced a sharp break all along the line.

There was some little buying demand this morning for feeders and, if anything, there was more activity on that kind than on killera. The prices paid for desirable kinds of feeders did not show very much change as compared with yesterday. While it would be only natural to expect them to be a little easter on account of the break in killers some of the sales actually looked stronger than yesterday, owing to there being a good demand for the few here.

The market on killers opened with a few loads that were wanted by the packers for immediate slaughter, selling at about yesterday's prices. Quite a string of old burry wethers brought \$4.60. It was very evident, however, that packers were very weak, owing to the advices from Chicago and other eastern points and as soon as their immediate wants were filled the trade became very slow and weak.

Mrs. Olive Brennan, wife of Harry, instituted an investigation, and by examining the original letter signed by Thorpe, it was found it did not in any way resemble the writing of Thorpe Harry Brennan is now at Lewiston, Mont., and his wife and friends cannot imagine why he should wish to appear among the

dead. Grand Jury Call is Surprise.

CHEYENNE, Wyo., Nov. 16.—(Special.)

-Judge R. N. Matson of the First district court has called the grand jury to meet in Cheyenne on Monday, December 2. The meeting of the grand jury at this time comes as a surprise, and as no information is to be had, the people can only surmise as to the reasons for calling the jury. The recent activity upon the part of the state authorities to onforce the anti-gambling laws is said to be one of the causes for calling a grand jury together in this county, and that a number of alleged violations of the gamn-16,000 ling laws will be submitted for investigation by the jury at this time.

Irrigation Work is Stopped. BAGGS, Wyo., Nov. 25.—(Special.)—Work has been stopped on the Little Snake river tives. BL000500; cows and heifers. B 750 to tockers and feeders. B.2504.00.
