No truth is more forcibly manifested in physical life than the old saying "like begets like;" for just as the offspring of healthy ancestry are blessed with pure, rich blood, insuring health and strength, so the children of blood tainted parentage inherit a polluted circulation to burden their existence with disease and suffering. Swollen glands about the neck, brittle bones, weak eyes, pale, waxy complexions, running sores and ulcers and general poor health, are the usual ways in which Scrofula is manifested. In some cases the blood is so filled with the scrofulous germs and tubercular matter that, from birth, life is made miserable with suffering. Others who inherit the disease succeed in holding the trouble in check during young, vigorous life, but when the system has begun to weaken and lose its natural vitality, and especially after a spell of sickness, the ravages of the disease will commence and in a great many cas/3 terminate in Consumption. REFLECTION ON OTHER MEMBERS in Cases Heard Before

the Commission. LINCOLN, Nov. 27 .- (Special.)-The next meeting of the State Board of Education, which, though set for this week, will not be held until some time during the holidays, promises to be a rather stormy affair. Dr. Shellhorn, the new member appointed by Governor Sheldon to take the place of Colonel Thomas Majors, is to be called onto the carpet for an explanation of his first act as a member of the

charges against the board members. Dr. Shellhorn wrote a letter to Miss was appointed a member of the board, and in the letter he stated that the board morning. was about to investigate Prof. Searson and give him a whitewash. It was not until July 23, so a member of the board said, that the members knew anything about the charges. That was the date upon which Searson asked for an investigation. Some of the board members oblect to the language used in the letter, which came out at the trial of Searson,
