OMAHA, Nov. 29, 1907. There was a slump in the foreign buildituation and the domestic market reit that There is a strong mixture of sentiment on floor and little was accomplished either

Way, Wheat opened with a good tone and re Wheat opened with a good tone and responded readily to any buying, but the foreign situation has changed and there was a falling off of the demand from abroad, which gave us a slight decline on this side. December wheat opened at 87%c and closed at 88c.

Corn opened steady and held firm throughout the session.

Demand has held fairly weel and husking returns have been somewhat disappointing, and buils are taking all advantages possible.

ing returns have been somewhat disappointing, and buils are taking all advantages possible.

December corn opened at 48%c, and closed at 48%c.

Oats were safe on selling by longs and cash interests. Some buying was done by holders of downs but the crewd turned buillah and worked for a builge. December oats closed at 44%c.

Primary wheat receipts were 1,816,300 bushels and shipments were 541,000 bushels, against receipts last year of 1,710,000 bushels, and shipments were 352,000 bushels, and shipments were 352,000 bushels, and shipments were 352,000 bushels, and shipments were 52,000 bushels, and shipments of 338,000 bushels.

Clearances were 1,750,000 bu of corn, 4,000 bu, of oats and wheat and our equal to 1,138,000 bu.

Liverpool closed 14,431%d lower on wheat and 14,49%d lower on corn.

CHICAGO, Nov. 29.—Rain in India and favorable weather for harvesting in Argentina had a depressing effect today on the local wheat market. At the close wheat for May delivery showed a net loss of ic. Corn was dewn 20. Outs were %c lower and provisions were 2%c higher to 2%c lower.

The wheat market opened weak, owing chiefly to a decline of id at Liverpool. Liberal receipts in the northwest, however, had considerable influence early in the session. Selling by commission houses and pit traders was general. The greater part of the offerings were taken by a leading commission house which was supposed to be covering a hort sales. After the first hour trade became exceedingly dull and the market failed to show any recuperative power. The weekly review of a St. Louis trade journal containing optimistic reports of the newly sown winter wheat crop was an important factor in the latter part of the day. The market closed weak. May opened % % %c to % \$10 lower, at \$1.02% \$

cars.

Provisions opened strong on buying by foreigners and eased off later, owing to the weakness of grain. A 10g lie advance in live hogs had a bullish influence early in the session. At the cless January pork was unchanged, at \$12.45. Lard was off 2.50, at \$7.47%. Ribs were up 2.50, at \$6.21%.

Estimated receipts for tomorrow are: Wheat, \$5 cars; corn, 239 cars; oats, 289 cars; hogs, 15.000 head.

Early Market Irregular on Fear of Month-End Complications.

GOULD GROUP LEADS DECLINE

Later Dealings Are Active and Higher and Close is Buoyant on Retreat of Uncovered Short Interests.

NEW YORK, Nov. 29.—The human motives which always ile back of the action of the stock market were rather more easily discerned today than usual. The haiting, irregular movement of the early market was quite plainly the reflection of the dread that the exigencies of the December 1 more yestilements would bring out some forced liquidation of the kind which has come on the market from time to time since the financial consistion began to mend. There was, in fact, evidence of such liquidation at one or two points, notably in the Gould group, with effect in Missouri Pacific and Western Union. The buoyant tone which developed later was evidently due to the conviction that the December settlements were not to entail serious burdens on the market.

The scarcity of stocks, except when some special supply was forced out of a lean, has been a conspicuous feature of the market for some time past. The professional operator has been keenly alert to this state of affairs, but cautious against a premature attempt to take advantage of it or to attempt to mark up prices in face of further liquidation that must be accompished. Holders of stocks are clearly determined not to sell them at the present unprofitable level, except as they may be obliged to do so by the maturing of money obligations on which extensions are refused. With the lifting of that kind of preessure today it was found easy to bid up prices rapidly with the absorption of comparatively light supplies of stock on the way up. The same process is going on in the bond market. In that department, even more than in stocks, low quotations have been made on the forced marketing of small blocks of bonds in some cases, thus ordering no adequate representation of value placed on the security by the bulk of its holders. The recovery in such cases represents a price readjustment rather than a response to a demand are would be required to move from an ordinary level. The movement today did reflect some degree of the special demand from the preparation for the December settlement

The developments ever the Thanksgiving holiday were given a favorable interpretation. The decision to discontinue the offer of the United States treasury 3 per cent certificates was accepted as testimony that the need for this amergency measure was considered to be passed. The premium on the currency also tended to decline and is destined to disappear as soon as the end of the month payrolls are met. There was an accumulation of testimony from bankers throughout the country of the readiness to resume cash payments. The local banking situation was known to be improving fast, sithough the surface showing of temorrow's weekly bank statement may be thrown out of the reckoning by the treasury certificate transaction. The re-deposit of the 75 per cent of the subscriptions with the banks, which the secretary of the treasury agreed to did not work smoothly at first and the transaction will also affect the loan item. The gain of \$33,076.00 by the banks on the subtreasury operations for the week, to which is to be added several millions of United States gold coin imported and not figuring in the subtreasury operations for the week, to which is to be added several millions of United States gold coin imported and not figuring in the subtreasury operations, shows that the force of the tide of imported gold has overtaken that of the forwardings to interior banks. The country's demands for currency are shown infallibly by this test to be satisfied. The rise in prices became rather impetuous in the late dealings, but this was attributable in part to the retreat of an uncovered short interest.

Honds were very strong. Total, sales, par value, \$5,850,800. United States bonds were unchanged on call.

Russians received much attention, principally for Paris account. Americans were quietly supported and were fractionally higher than yesterday on investments and in anticipation of a favorable New York opening. Canadian Pacific was a point higher. The New York opening came steady and then realizations caused a temporary setback, but under renewed buying prices hardened and the market closed firm.

PARIS, Nev. 29.—Trading on the Bourse today was firm on the improved situation in the United States.

BERLIN, Nov. 28.—Trading on the Bourse today was irregular. Foreign shares were mostly higher, while local shares were weaker in connection with the unsatisfactory developements in the iron trade. Canadian Facific was actively traded in at rising prices.

HOGS—Hogs sold 10@18c higher this morning than on Wednesday before the holday. Some of the first sales possibly did not show quite that much advance, but when the trade had warmed up. It was quite active and fully that much higher. The few loads on sale changed hands in very good season in the morning. The big bulk of hogs sold at \$4.35@4.40, with a top at \$4.55. It will be remembered that the hogs on Wednesday sold for the most part at \$4.25, with a top at \$4.55.

For three days in succession the market has been higher. Monday was the low point, hogs on that day having sold on an average of \$3.55. Since that day prices have rapidly advanced, so that the general market today was 5c higher than last Friday, but a strong loc lower than on Thursday of last week.
