## CRAIN AND PRODUCE MARKET That Tired Feeling is Manifest at Opening of Week. MOST TRADERS ON THE BEAR SIDE sone is Holding Short and Coneral Stocks Are Decreasing-Weak Cables Tend to Stimulate Selling.

OMAHA. Dec. 2, 1907.

After the advance made Saturday the grain market acted thred and was at a standardill this morning. Most traders are favoring the bear side, however, none is holding short and general stocks are decreasing.

Wheat opened steady, but was almost stationary, with no feature whatever to the market. Weak cables had a tendency to cause selling, but crating orders were reached before the deciline was heavy. May wheat opened at \$3 % c and closed at \$5 % c.

Corn was acting heavy and fell of slightly on any secession of buying. Recipts for the month have been the lightest for years and dounsatic and foreign demand has failen off in proportion. May corn opened at \$3 % c and closed at \$6 % c.

Oats opened fairly strong and held firm throughout the day. There was no feature to the market and little trading was done. May oats opened at \$4 % c.

Primary receipts were 1,20%,000 bushels and shipments were 1,20%,000 bushels and shipments were 1,20%,000 bushels and shipments were \$3,000 bushels and \$3 May wheat opened at \$5% and closed at \$8% a.

Corn was acting heavy and fell off slightly on any secession of buying. Receipts for the month have been the lightest for years and domestic and foreign demand has failen off in proportion. May corn opened at \$9% and closed at \$6% and closed at \$6%.

Oats opened fairly strong and held firm throughout the day. There was no feature to the market and little trading was done. May outs opened at \$4% and closed at \$6.

Primary receipts of wheat were 1,125,000 bushels and shipments were 1,225,000 bushels. Corn receipts were \$67,000 bushels and shipments were \$67,000 bushels and shipments were \$25,000 bushels and shipments were \$3,000 bushels of corn. Core bushels of oats and wheat and flour equal to \$75,000 bushels.

Liverpool closed \$4d\$ to \$6d\$ lower on wheat and unchanged on corn.

Seeboard reported 100,000 bushels of wheat and \$0,000 bushels of corn taken for export.

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Dec. 8.—A stack export demand and a liberal increase in the visible supply had a weakening effect today on the local wheat market, the May delivery at the close showing a net loss of lightly. Corn was a shade lower. Cats were a shade higher. Provisions were 2½ to 17½ higher. The wheat market was weak throughout the day, with the exception of a short period about the middle of the seasion, when buying by shorts, based on a rally in stocks, caused moderate strength for a short time. At the start the market was bearishly affected by easy cables and by weakness of the stock list. As the session advanced absence of demand from exporters, who asserted that foreign bids for American wheat were very disappointing, laspired additional sales. An increase of 1.32,000 bushels in the visible supply, compared with a decreased of \$6.00, bushels, the corresponding factor for the bears. The market closed weak. Deliverles on December contracts were estimated at \$6.000 bushels. Prices on Board of Trade. The market closed weak. Deliveries on December contracts were estimated at \$50,000 bushels. May opened \$2% to \$30 %c lower, at \$1.074,81.095, advanced to \$1035, and then declined to \$1.02. The close was at \$1.025, Clearances of wheat and flour were equal to \$67,000 bushel. The amount on passage increased [,155,000 bushels. Frimary receipts were 1,252,000 bushels. Erimary receipts were 1,252,000 bushels. Composed with 1,284,000 bushels the corresponding day last year. Minnaspolls, Duluth and Chicago reported receipts of 700 cars, against \$77 cars last week and \$13 cars one year ago.

inth and Chicago reported receipts of 790 cars, against 977 cars last week and 948 cars one year age.

The corn market was strong almost all day because of an absence of any deliveries on December contracts, which induced considerable covering, by shorts. An advance of Mile in the price of cash grain stimulated additional purchases of the options. The market late in the day was bearishly affected by the weakness of wheat, all of the early gains being lost on realizing sales. The close was easy. May opened a shade to 125% lower, at 56% to 56% advanced to 56% and closed at 55%. Local receipts were list cars, with 15 cars of contract grade.

There was only a moderate trade in oats, but the market was firm the greater part of the day, the strength of corn being the chief buillish influence. Deliveries on December contracts were estimated at 500,000 bushels. Country acceptances were light and the movement was again small. May opened a shade lower at 50%, advanced to 51% and closed at 61c. Local receipts work 125 cars.

Provisions were strong owing to a 15000c advance in live hogs and to small deliveries of December contracts. The deliveries of pork were said to have been 760 barrels. Commission houses reported an increase in investment purchases. The bulk of trade was in May deliveries. At the close May pork was up 146c, at \$12.51%. Lard was up 174c, at \$17.5c. Ribs were up 14c, at \$16.07%.

Estimated receipts for tomorrow: Wheat, 25 cars; norn, 155 cars; cars, 158 cars; loss, 20,000 head.

The leading futures ranged as follows:

WEATHER IN THE GRAIN BELT Fair and Colder is the Prediction of the Prophet.

OMAHA, Dec. 2, 1907. OMAHA. Dec. 2, 1907.
Generally cloudy weather prevails throughout the Missourl and upper Mississippi valleys and upper lake region. Very light and scattered snows have fallen in the Ohlo valley and lower lake region within the last twenty-four hours and are falling in the eastern states this morning. The weather continues cool in the east and south and is cooler generally throughout the central valleys. A high pressure, with clear and cooler, everlies the west, and the weather will be colder in this vicinity tonight, with fair tonight and Tuesday. NEW YORK, Dec. 2,-The price move-

NEW YORK, Dec. 2.—The price movement of stocks underwent some violent mutations today and the course of the market gave abundant evidence of the revival of something like animation in the speculation. The supposition of the reentry into active participation in the speculation of some of the processional operators of large calibre was corroborated by the appearance of the trading and the signs of bearishness and resourcefulness with which it was conducted.

The softness of the early market and the readiness with which it yielded to seiling pressure conveyed the impression that the active campaign for a rise, which had been entered upon last week, had been quickly abandoned in face of some features developed over the end of the week which were regarded as rather discouraging. The pronounced turn in the later market suggested a partly manipulative origin for the early relapse in the favorite manner of a veteran speculative leader, who has been suspected of a prominent share in the initiation of the present movement. The market was highly speculative in character throughout to a degree that has not been tion of the present movement. The market was highly speculative in character throughout to a degree that has not been approached since the crisis in financial affairs. The reaction in the early dealings served to shake out the weak following of the buil leadership and to encourage renewed short seiling by the bears, who had commenced to cover extensively late last week in the uneasiness engendered by the aggressiveness of the advance. This shaking out of a weak buil following and the revival of a short interest strengthened the technical position of the market and facilitated the later advances. Room traders held the belief that it was designed to this end.

The renewal of the advance late in the day was assigned to the general pur-

traders held the belief that it was designed to this end.

The renewal of the advance late in the day was assigned to the general purposes of a reorganized party in the speculation to take advantage of the turn towards improvement in the financial situation, which made itself clearly perceptible aiready last week. The market had the designation of "political," also, from some observers, meaning that speculative anticipulon was being made of future events. It was introduced the country with its corresponding reflection in the trend of legislation and administrative acts. It was alleged in behalf of this view that sufficient was known of the contents of the president's message to be presented to congress tomorrow to bear out this assumption of a modified view of corporation questions. While prices were declining in the morning assertions were current with equal positiveness the market was discounting an expected bad influence on prices from the tener of the presidential message. It was argued also that the pace set in the recovery last week had become far too rapid and influence were frowning upon the impetuosity of the movement. Free selling for London account was a factor in the early session, foreigners taking advantage of the rapid advance in prices to take oulck speculative profits. The stiffness of the money market, with the continuance of the pecember settlements, was another bridling influence. Payment was made of the money market, with the continuance of the December settlements, was another bridling influence. Payment was made of the money market, with the continuance of the pecember settlements, was another bridling influence. Payment was made of the money market, with the continuance of the pecember settlements, was another bridling influence. Payment was made of the money market, with the continuance of the pecember settlements, was another bridling influence decided to new 8t. Paul stock. There was some recovery in the rate of the premium on currency also. This did not impair the feeling of confiden

Bonds were irregular, in sympathy with stocks, but were decidedly more active and showed a large absorption. Total sales par value, \$5.346,000. United States 2s. advanced ½ and the 2s. ½ per cent in the bid prices on call.

Werthelmer V. A. Britton 1.190 .B. 241 6.933 CATTLE-Receipts of cattle at this point

CATFLE-Receipts of cattle at this point were very moderate this morning, only 189 cars being reported in. This was none too heavy for the market, but, unfortunately for the selling interests, Chicago reported a very large run, with the market there liggest lower than last week. It was very apparent, however, that packers at this point wanted a few cattle, and, as sellers were pretty strong in their ideas, the market on the good kinds of both steers and cows opened not far from steady; in fact, a good many of the selesmen figured their stuff as bringing fully as good prices as last week. With feeders the situation was, if anything, a little better. Receipts last week were light and speculators cleaned up everything on hand, so that they were in good shape to buy freely today. As the offerings were again light, the market was fairly active at good, strong prices. Quotations on cattle: Good to choice corn-fed steers, \$5.0066.50; fair to good range steers, \$5.0066.50; common to fair corn-fed steers, \$5.0066.50; fair to good cows and heifers, \$5.0063.50; good to choice cows and heifers, \$5.0063.50; common to fair cows and heifers, \$5.0066.50; good to choice stockers and feeders heifers, \$1.2592.40; good to choice ters and feeders, \$3.7564.50; fair to stockers and feeders, \$3.7568.75; comto fair stockers and reeders, \$3.500

SHEEP-Receipts of sheep were light for a Monday only thirty-nine cars being reported in Of this number seven cars were through stuff, consigned to an eastern feed lot. At the same time, with the moderate receipts at this point, Chicago was reporting a very large run, and packers of the consigned to an eastern feed lot. At the same time, with the moderate receipts at this point, Chicago was reporting a very large run, and packers of the consigned to an eastern feed lot. At the same time, with the moderate receipts at this point, Chicago was reporting a very large run, and packers of the consigned to an eastern feed lot. At the same time, with the moderate receipts at this point of surprising that huyers at this point were very slow and backward about taking hold and it was later than usual before very much business was transacted. When the sheep did sell they went at prices that were anywhere from sleady to quite a little lower. Most salesmen were quoting it talout steady the last weeks close, but slow and weak. Some of the same yearings that brought flow the first of last week and sold up to \$10.0 with precity fair westerns, both feel and rangers, at \$5.5 at the receipts were so moderate, the most of the offerings changed hands in fair season in spite of the fact that the trade was slow.

Quotations in good to choice fed sheep and lamber; Lamba, \$5.562.8. Fears, \$1.023.18. Pears, \$1.023.18. Such as the receipts were so moderate, the most of the offerings changed hands in fair season in spite of the fact that the trade was slow.

IRON TRADE IS SLOWING UP Scarcity of Currency Causes Some Shutdowns, but Conditions Are Looking Brighter.

CLEVELAND, O., Dec. 2.-Among manufacturers of iron, steel tools and machinery there is a general belief that the present depression will not be so prolonged as in previous periods of stagnation in business. Careful inquiry made by correspondents of the Iron Trade Review in many cities of the United States indicates a somewhat better feeling, especially as to financial conditions. will, however, he further curtallment of production, especially in pig iron, steel and semi-finished materials, but aside from plants which manufacture such products, the numbers of closed concerns are not large, although there is a general reduction of hours of working and of the number of employes. Curtailment of pig tron production has proceeded at a rapid rate in the east, and in eastern Pennsylvania a number of the furnaces have been put out of blast within a few weeks. United States Steel corporation now has fifty of its ninety-five workable furnaces out of blast and several more are expected to be blown out within a few days. The Republic Iron and Steel company will start its Youngstown plants tomorrow, and has resumed operations at its East St. Louis plant with one-third of the number of employes, but expects to put on an additional large force next Monday.

250 members of Persons Confess

Conversion as Result of

Efforts.

CHICAGO, Dec 2—Rev. Dr. R. A. Torrev closed last night one of the most remarkable evangelistic campaigns ever
seen in Chicago. The meetings, which
were held for the most part in a huge
steam-heated tent erected at North
Ciark and Chestnut streets, have attracted an average attendance of \$.00

for Sundays and 3.000 on other nights.

Dr. Torrey has delivered 135 sermons
to more than 175,000 lieteners. About
3.200 persons professed conversion. Less
than 1.000 of these were wemen.

The campaign was planned and financed
