Bulls are more numerous on the floor and predict stronger prices.

NEW YORK STOCKS AND BONDS Day's Political News Receives Favor-

able Interpretation. OPENING VALUES ARE HIGHER

Trade Conditions Cause Industrials to Turn Downward and Pinal Prices Are Lower Than Wednes-

dny's Close.

NEW YORK, Dec. 12.—Today's political news received a favorable interpretation in Wall street and was signalized by many opening advances of 1 to 2 points, with the liarriman stocks displaying the most activity and strength. The action of the market alarmed the short interests and they bought extensively, giving an appearance of great strength and animation to the trading. The initial price, however, proved to be the highest, as recent untavorable factors intruded themselves and the market lost about all it had gained. The failure of the bulls to follow up their advantage encouraged the bears to work digently to break prices, and by concentrating their seiling against certain stocks in which special considerations operated the latter managed to bring about a general decline. The principal industrials, New York Central, Pennsylvania and Missouri Pacific, were targets for this selling at intervals, with trade conditions and gossip as to expected dividend returns attending the decline. These circumstances effectively offset the good effect produced by the relexation in call money, the high rate today being only about half, of that prevailing yesterday. While the more abundant supply of funds on call relieved the concern felt over the monetary conditions to some axtent, it is recognized that the needs of early large corporate requirements and the necessity of the gradual repairment of impaired bank reserves are influential factors to be considered in future stock market operations. Reports from the interior of improved monetary conditions are supported by the lighter shipinfluential factors to be considered in future stock market operations. Reports from the interior of improved monetary conditions are supported by the lighter shipments from here, but the position of the local banks has not been essentially favored by this development, ewing to the heavy drain of subtreasury operations. The banks have lost nearly \$5,000,000 on this account during the week. Time funds continue unsatianable in large amounts, and rates, though high, are considered nominal.

In spite of these unfavorable circumstances the market as a whole rendered a fairly good account of itself and showed evidence of support at opportune times. A large proportion of the day's business was transacted at the high range of prices, the market thereafter sagging in a dull and listless fashion until the list eventually fell back to a parity with yesterday's closing prices or below. The bear attacks which occurred at frequent intervals during the day were aided in large part by the timidity of the built to rouse the market from its lethargy, and when the room operators offered large amounts of different stocks simultaneously the supporting orders were withdrawn and heavy stop-loss orders were uncovered.

BOY DISEASED BY AMBITION

Thirteen-Year-Old Chap Scorns Orphanage for Business.

BUT HE GOES BACK TO FORMER

Little Fugitive is Found by Juvenile Officer Engaged in a Game of Solitaire and Protests on Restraint.

The principal trouble with Charlis Allen aged 12, is that he is too ambitious. Shakespears has said something about ambition o'erleaping itself and falling on t'other side. That's the way with Charlie.

Charlie is, to use his own words, "half a orphant," His father is dead and his mother couldn't take care of him. Therefore the fuventie authorities took him in hand and placed him in the Benson orphanage. Charlie made a trip through the institution, inspected everything theroughly, talked to some of the children and decided it was no place for an ambitious young man like him-Having unbounded fatth in that declara-

tion of the right of every citizen to liberty and the pursuit of happiness, Charlie went to a door which was unlocked, opened it and walked away. An hour later his absence was discovered. Wedensday one of Probation Officer

Mogy's deputies went down to 1313 Chicago street, where Charlie had once lived with a kind hearted woman. There she found Charlie sitting in solitary and manly state at a table. He was playing a game of cards. He glanced carelessly at the young

woman and then went calmly on with his game.

Charles is Nanchalant. "What are you doing here, Charitet" she

Charlie looked up with an expression that said. "Beg pardon, are you addressing She repeated her inquiry.

"I am playing a little game of cards," he replied nonchalantly, as he made a few rapid movements of the cards in his game of solitaire. "But you ought to be at the orphanage."

she insisted. "No," said Charlte," I have no time to spend in orphanages. I'm going to get a job and make mensy. I want to get rich. I'm going to Peoria. I can get a job in

Peoria." The young woman then made an eloquent plea for Omaha as a center of industry. It is much superior to Peoria as a place for work and high wages, she declared. Charite paused in his game, showing that he was interested in the proposi-tion. He appeared to be in deep thought. When the young woman stated that she knew where she could get him a job, he capitulated and agreed to go with her. Eventually he consented to return to the orphanage whither he was taken. "I don't want to waste much time with these kids, though," he said. "I got to get

a job and begin to get rich." Millions of bottles or Foley's Honey and Tar have been sold without any person ever having experienced any other than beneficial results from its use for coughs, colds and lung troubles. This is because the genuine Foley's Hensy and Tar in the yellow package contains no opiates or other harmful drugs. Guard your health by refusing any but the genuine. For sale by all druggists.

EUROPEANS ARE GOING HOME Return to Fatherlands in Response to Rumors of Work and Chenp Living.

City is big at present," said S. C. Sinclair, a Kansas City business man who is stoppping at the Paxton. "Thousands of these people are leaving every day for their southern European homes. The financial flurry was the cause of many being out of work. Most of them have near sums of money laid up and desire a trip to their native land. Then they have received reports that there is a scarcity of labor all over Europe. They know that while wages there are not as high as in America, the cost of living is not as great. Some of them will probably never return to this country, but most of them expect to return. Many who are going are natur-

alized citizens of this country.
"There is one great fear that most of them hold in common, and that fear has deterred many others from going. It is the fear they will be pressed into the army and made to serve three or five years. Those who have taken out naturalization papers in this country are relying on them for protection against their SIOUX CITY I.a.
