MUCH NEW CROP IS MOVED final market than last year, which will 1907, than last year for the same month. The river traffic for the ten months is Corn Receipts Will Fall of.

ket Than Usual.

Larger Percentage 1907 Grain in Mar-

MORE VALUABLE THAN LAST YEAR

Nebraska Farms May Not Yield as Heavily as in 1996, but Products Bring Larger Aggregate Sum.

That a much larger percentage of the 1907 crop in the west has been moved than at the same time last year is shown by the report of the Department of Commerce and Labor, just received at the Omaha Grain exchange.

The crop of 1907, while more valuable than that of 1900, is not as large, and when over 2.000.000 bushels have been received at the Omaha market, as against 5,000,000 bushels during the crop movement period of last your, it indicates that the movement to the primary markets, the initial move from fields to the markets of the world or final consumption is much greater than last year, and with such an amount of the grain out of the road a traffic

plockade is scarcely possible. During the months of September and October, the months considered as the cropmoving period, the receipts of wheat are 1,127,600 bushels, as against 2,000,160 bushels last year; receipts of oats were 4,650,000 | markets have been; Chicago, 72,000,000; St. bushels, last year 4,000,000; corn receipts | 2,022,000, as against 2,003,000 during the same

What is true at the Omaha market is

Indications are that the receipts of corn at the Omaha market will be less for the SAYS year of 1907 than for 1906 and the cause will not be altogether the financial flurry, which has so materially cut down grain receipts at all primary markets. According to the report of the Department of Commerce and Labor, the decrease in receipts was apparent at the close of October. With the panic effects just passing there is little hope among the grain men that the corn receipts of the next fifteen days will make up the loss. For the ten months ending October 31, 17,276,000 bushels of corn had been received at the Omaha market. On the same date last year 18,012,000 bushels had been received. The wheat record for the year will doubtless be broken, as the market would have to lose 1,250,000 bushels during November and December to go below last year. The receipts for the ten months of 1907 were 5,485,400 bushels, as against 6,975,000 bushels during the same months last year.

At the end of October Omaha holds sixth place in wheat receipts among the primary markets of the United States. The receipts at five other markets were: Minneapolis, 68,000,000; Duluth, 38,000,000; Kansas City, 21,000,000; Chicago, 22,000,000; St. Louis, 15,000,000 bushels.

As the fourth largest oats market, Omaha en months of 1907, as against 10,190,000 the defendant. pushels for 1996. Receipts at six other Louis, 27,662,006; Minneapolis, 15,809,000; Milwaukee, 10,609,000; Peoria, 11,407,000; Kansas City, 8,013,000 bushels.

One of the interesting statements of the found to be true of eleven other primary report of the Department of Commerce and markets, showing that the 1907 crop of Labor is the fact that 25 per cent less small grain and the old corn is nearer the river traffic was reported for October,

The river traffic for the ten months is many millions of tons less than last year.

SUTTON IS BIASED Council Files Motion to Transfer Gas Case to Another Judge.

W. J. Connell, attorney for the defendants in the suit of T. W. Blackburn against the mayor and former members of the city council over the letting of the gas contract for the lighting of the streets, has filed a motion in district court to change the hearing from Judge Sutton's court to that of one of the other judges. Mr. Connell alleges in an affidavit filed with the motion that Judge Sutton is violently prefudiced against him and the Omaha Gas ompany and they cannot secure a fair hearing before him

He asserts that Judge Sutton has such feelings of personal hostility against him that they do not speak when they meet outside the court reom. Mr. Connell says he fought Judge Sution with all his ability at the last primary election and this is one of the causes of the hostile feeling. He attaches to the metion extracts from the bills of particulars in several cases before bills of particulars in several cases before Judge Sutton in which Mr. Connell has appeared to support his allegation of pre-Among these cases were the socalled Coal trust, the first gas case and CITY DIVIDED FOR SUNDAY receipts have been 11,744,000 bushels for the the contempt hearing in which Connell was
