## WYOMING LEADING WOOL STATE

#### Goes Ahead of Montain Ducing the Last Season in Value of Clip.

CHEYENNE, Wyo., Dec. 18 .- (Special.)-For the first time in the history of the industry. Wyoming is now the banner sheep and wool state of the union. Starting with one buck and half a dozen ewes in the early 'son, Wyoming has rapidly increased its sheep holdngs, until now there are being grazed on the ranges of this state almost 5,000,000 sheep. Range conditions are ideal, scabies has been eradicated, and the sheep are in splendid condition; and with hundreds of thousands of tons of hay in the stack, ready to be fed in case of emergency, the indications are that Wyoming will increase its lead in another year.

Montana has enjoyed the proud distinct tion of being the banner sheep and wool state for many years, but gradually Wyoming has been crawling up on its sister state, and the present year, due to unfavorble elimatic conditions in Montana and favorable conditions in Wyoming, this state was able to pass its rival.

Montana and Wyoming have for years been in a class by themselves, no other state being able to produce within 12,000,000 to 15,000,000 pounds as much wool as these two states. Montana may be able to be a good second in 1968, but for another year at least it cannot possibly overtake Wyoming in the matter of wool production. The number of sheep shorn, pounds of wool produced, and value of same in the states of Montana and Wyoming for the years 1906 and 1907 follow:

HOW DEAN RAKED IN MONEY for "Get Rich Quick" Scheme

MANY NEWSPAPERS HIS VICTIMS

**Promoter** of Company that Consisted Largely of This/ Air Held on Fraud Charge at Chicago.

CHICAGO, Dec. 18 .- J. C. Dean, head o the firm of J. C. Dean & Co., stock and bond brokers was arrested last night on a charge of obtaining \$31.25 on worthless thecks from A. M. Roberts, proprietor of he New Waldorf hotel.

Behind Dean's arrest are two Chicago men who have been investigating the brokor's alleged meleoric career and who inti nate they will have some interesting evifence to present to the grand jury if Dean s held to that body on the complaint of the hotel keeper. These are Attorney James Edgar Brown, counsel for the Colorado Coal Mining company, one of Dean's clients," and George W. Haynes of

Hills National Reporting company, a firm of financial investigators. More trouble for the broker may resul

from an investigation started by Postoffice Inspector William M. Ketcham, who went to Dean's office immediately after his arrest and spent the evening looking over his papers. One item of Dean's mail found by the inspector was a pile of 400 bills for advertising from newspapers in every part of the United States. All apparently are unpaid.

### At Work Eight Months.

The fragmentary story of Dean's operaions told by Attorney Brown sounds like the scenaric of one of the "get rich quick" storles which are the mainstay of some of the current magazines. Dean opened Ma office eight months ago. The firm immediately started an aggres-

sive advortising campaign in the papers of Chicago and other cities. As inquirles uses and references, and in each case bemore be paid for various expenses. The and the parties electing not to plead nothing, it is alleged, was done by the as prayed. Dean firm.

The falling off in shipments was due to the indications for a continuance of high prices for wool and the spiendid range conditions in this state, the sheepmen being determined to feed every head that the ranges would carry during the winter of 1907 and 1908. For the 1.566,709 sheep and lambs shipped from Wyoming in 1907 the owners received approximately \$6,530,000.
