MORNING SHOPPING

An experienced shopper tells us that she can do twice as much shopping in the forenoon as in the afternoon, with one-half the fatigue.

She says there are no crowds then; that she has no difficulty in obtaining a seat in the street cars; that she is waited upon more promptly at all the stores and that the clerks are more courteous and take more pains to show goods, because they, like herself, are not tired at that time of the day.

Knowing this to be true, we suggest to all ladies able to do so, to try this plan and do their shopping in the early part of the day.

CHICAGO, Dec. 20-Before the American Base Ball association officially decides upon placing a team in Chicago it must settle what promises to be a sharp controversy within its own membership. The contest over this important proposition is due to come up December 28, the data when the American association will convene in this city in annual meeting. For the association to enter Chicago the vote would have to be unanimous, and, as several of the magnates are determined to go through with that project, it is unknown what pressure may be brought to bear on the others. Ist. A member of the American association said that every club owner in that league was in favor of coming into Chicago, but that two or three of them would hold back for what they term "nonner condubear on the others. hack for what they term "proper condi-Totals tions." Those conditions mean permission from the National and American leagues. The other members are in favor of coming Watter 75 in and then asking "what are you going
