Fictitions Sums Charged Against Depositors in Bank in Order to Make the Books Pass Muster.

SAN FRANCISCO, Jan. 3.-Another sensational chapter was added to the California Safe Deposit and Trust company scandal yesterday, when H. L. Storrs, one of the bookkeepers of the concern, broke down under a merciless cross-examination and confessed that the false entries in the books were in his handwriting and had been made under orders from J. Dalzeli Brown, the imprisoned manager of the ank, and J. D. Robertson, the fugitive assistant secretary.

The confession made by Storrs was com plete in every respect and established the fact that nearly \$1,000,000 had been falsely added to the absets of the bank in order to deceive the state commissioners. More than \$500,000 had been fraudulently added to the account of Brown, Walter J. Bartnett and the San Francisco and San Joaquin Coal company alone. In order to balance the books Storrs said that a like sum had been charged against depositors in the bank.

The confession of Storrs was made in the bank building at California and Montgomery streets after he had been subjected to a searching examination by Assistant District Attorney William Hoff

JUDGE MORRIS WILL NOT AGREE

Present Trial is Fourth and Has Lauted Forty-Six Days-Eight Years of Litigation for the Prisoner.

GEORGETOWN, Ky., Jan. 3.-At 10:48 clock this morning the jury in the Caleb Powers trial came from the jury room and the foreman, J. L. Price, announced that it was impossible for the jury to agree upon a verdict. "We are further from a verdict than ever," said Foreman

Judge Morris sent the jury back for further deliberation, telling them that the law required that they if possible make a decision and to go back and try to agree upon a verdict. No intimation was given as to how the jury stands.

The jury had a good night's rest and resumed deliberations at 8:45 e'clock today. Caleb Powers was indicted eight years ago as accessory before the fact to the murder of William Goebel, democratic contestant for the office of governor. It has been one of the most stubbornly contested criminal cases in the history of American jurisprudence.

Trial Lasted Seven Weeks.

The present trial has covered more than seven weeks, with forty-six actual days of court proceedings. There have been 177 witnesses examined, seventy-six for the commonwealth and 191 for the defense. In addition three sets of depositions have been read and the testimony of six witnesses, who died since the last trial was admitted. Powers for himself and Henry E. Youtsey, who is now a life convict, for the prosecution, were the principal witnesses. During the trial seven persons have been brought before the court for contempt, resulting 'n four convictions and three dismissals. The present trial is the fourth through

Total Clearings for Year Outside New York City Show Gain of 4.2 Per Cent.

NEW YORK, Jan. 3.—Bank clearings for the year at nearly all cities in the United States, as reported by R. G. Dun & Co., effect larger settlements through the reflect larger settlements through the banks than in any preceding year, notwithstanding the restriction in payments during the last three months. Omitting New York City, where the smaller value of stock market operations reduced the volume of of bank settlements materially, total exchanges for the year are \$57.588,711.972, an increase of 4.2 per cent, compared with 1866, and 14.8 per cent over the figures of 1866. There is a small loss in New England and the middle Atlantic states, due almost wholly to losses at Boston and Philadelphia, but in all other sections of the country an increase is shown. The west leads in the percentage of gain, but there is a small increase in the south and at Pacific coast points. At Chicago there is a considerable gain; also at Cincinnati, Clevecoast points. At Chicago there is a considerable gain; also at Cincinnati, Cleves and Theodore Kitka, the handwriting expert.

J. Daizell Brown was today given until January 8 to plead on the grand indictment charging him with embezzlement in connection with the disappearance of the Catter of th ville and New Orleans there is a decrease. The progress of events during the year is quite clearly reflected in the average daily figures for each quarter. A small loss appears in the first six months, compared with 1906, due to the heavy decrease in bank clearings in New York City, but the loss is small until the latter part of the year. The fourth quarter, instead of showing as high an average as in the first six months, is the lowest, but the loss compared with 1906 is only 22.6 per cent and compared with 1905 is only 19 per cent.
