

NEW YORK STOCKS AND BONDS

Market Rises in Anticipation of Favorable Bank Statement. BIG GAIN IN THE CASH ITEM Heavy Tone of American Smelting an Obstacle to the Rise—Northern Pacific Lower on Realizing Sales.

NEW YORK, Jan. 18.—The stock market counted on a strong bank statement today, after the close of the market, in accordance with the rule made permanent last fall. This expectation was the principal sustaining force to prices. The most serious obstacle to the advancement was the heavy tone of American Smelting, which was heavily sold, while prices elsewhere were advancing. Reading was the feature of strength. Speculative support for the stock was encouraged by the announcement of the agreement by the Department of Justice to retain the stock in accordance with the law forbidding railroads to own commodities which make up their traffic and compliance with it by May 1 threatened serious embargo on the coal roads. The steel stocks also were strong, with notable sympathetic effects on sentiments, owing to the inferences drawn of improving trade. Improved collections reported by the mercantile agencies, and hopeful surmises drawn by the development of commercial activity were favorable influences on the market. Working was in progress side by side with the new buying, notably in Northern Pacific, and in the gain of upwards of \$20,000,000 in cash holdings reported by the banks in the clearing of the week. This expansion of the loaning power of the banks is being met by expanded upward of \$100,000,000. The week's light loan expansion, under circumstances, is not likely to be repeated in the face of this decrease in the week ending November 1 last in the clearing of the week. The gain in the clearing of the week was \$30,000,000. The gain in surplus funds was \$30,000,000. The gain in surplus funds was \$30,000,000. The gain in surplus funds was \$30,000,000.

Foreign Financial.

LONDON, Jan. 18.—The supply of money exceeded the demand on the market today. Discounts were irregular on the Stock exchange. Moderate shipments hardened gilt-edged securities. There was further selling of Japanese bonds, but foreigners generally bought American shares, in response to the better Wall street close yesterday, opened steady, and hardened about partly in the afternoon. The market was in anticipation of a better New York bank statement. The market then closed strong. The market was steady on repurchases.

Movements of Stocks.

NEW YORK, Jan. 18.—Imports of merchandise and dry goods at the port of New York for the week ending January 17 were valued at \$1,740,000. Imports of specie for the port of New York for the week ending today were \$54,800 silver and \$650,888 gold. Exports of specie for the port of New York for the week ending today were \$52,064 silver and \$1,000 gold.

A Woman's Tired Aching Feet.

Can find no better relief and nearly always complete recovery than in a pair of our Foot Comfort Shoes. They are a boon to womanhood and we have had more commendation from the women of Nebraska on these shoes than we felt we deserved. They are specially constructed, made one size smaller in the instep and two sizes wider in the sole, being made this way, it gives a snug fit over the instep and heel, and at the same time allows the foot to rest comfortably on the sole, giving that feeling of rest and relief. The stock is fine soft kid and the sole is soft and flexible. They are made in lace only. Prices are:

Turned Soles - \$3.50. Welt Soles - \$4.50.

Wrecked.

A large and robust Irish woman appeared in a New York court recently to prosecute a case in which her husband was charged with having beaten her. The defendant, a small, stoop-shouldered man, had the appearance of having been run through a threshing-machine, and seemed scarcely able to stand. The judge surveyed the two with an amused grin in his eyes. "You say this man beat you?" he asked the woman. "He did not," the prosecuting witness said with emphasis, fidgeting her powerful arms. "He knocked me down."
