NOTICE TO BRIDGE CONTRACTORS.

Bridge Buildera and Material Men Juleaburg, Cole, Jan. 7, 1998.—Sealed proposals will be received by the Board of County Commissioners of Sedgwick county, Colorado, up to 12 o'clock noon of the Eath day of January, 1908. For the complete construction of a pile bridge, about 1,590 feet long, across a portion of the South Platte river, extending from the south end of the new State bridge at Juleaburg to the south bank of the South Platte river.

Sealed proposals will be received by the Board of County Commissioners of Sedgwick county, Colorado, up to 12 o'clock noon of the Eath day of January, Ess. for the furnishing of all material to build a pile bridge about 1,000 feet long, said material to be delivered at the north end of that portion of the State bridge new built at Juleaburg, Colorado, across the South LONDON. Jan. 18.—The supply of money exceeded the demand on the market today. Biacounts were easy. Trading on the Stock exchange continued irregular and undecided. Moderate shipments hardened gilt-edged securities, but realizations depressed home rails. There was further selling of Japanese bonds, but foreigners generally ruled steady. American shares, in response to the better Wall street close yesterday, opened steady, and hardened above parity during the session on professional support in anticipation of a better New York bank statement. The market then closed strong. Grand Trunk was steadler on repurchases. HERLIN. Jan. 18.—The tendency of prices on the Bourse today was more favorable, but business was limited.
PARIS, Jan. 18.—Prices on the Bourse today were firm. Foreign Financial.

terlal to be delivered at the north end of that portion of the State bridge new built at Juleaburg, Colorado, across the South Platte river.

Seuled proposals will also be received by said board up to 12 o'clock noon of the Eith day of January 1998, for the building and furnishing of all labor in the building of a pile bridge about 1,650 feet long across a portion of the South Platte river, extending from the south end of the new State bridge at Juleaburg to the south bank of the South Platte river.

All proposals to be filed with the county clerk, at her office in Juleaburg, Colorado, at which office further information in regard to such bridge and were and a copy of the plans and specifications and amount of material required for said bridge will be kept and can be seen by any person interested.

The said Board of County Commissioners reserves the right to reject any and all bids offered.

WEATHER IN THE GRAIN BELT Fair and Slowly Rising Temperature for Sunday.

OMAHA. Jan. 19, 1908.
Light snowfails occurred in the lower take region and upper Ohio vailey since the last report and generally cloudy weather prevails in the Atlantic and east guif states this morning. The weather is generally clear throughout the Mississippi valley and west to the mountains. A decided fall in temperature occurred last night in the upper Mississippi valley and west over the Mississippi valley and west over the Mississippi valley and west over the Mississippi valley and the mountains. Higher temperatures are general in other sections and conditions are favorable for slowly rising temperature in this vicinity tonight and Sunday, with continued fear weather.

Omains record of temperature and precipitation compared with the corresponding day of the last three years: ocal exchange declined more than 2 cents oday, beause of free selling by free lading holdings. At the close the May option was off \$\frac{34605}{6}\text{c}\$c. Corn was 1 cent lower, that were down \$\frac{36}{6}\text{c}\$c and provisions were \$\frac{36}{6}\text{c}\$c to \$100 lower.

The wheat market was weak the entire lay but the severe break in prices did not lay but the severe break in prices did not

Cattle. Hogn.

Totals ... CATTLE—Receipts of cattle today were very light, but for the week there has been a liberal run, showing a large gain over last week, with the total well up to the record of a year ago. The arrivals all the week have comisted very largely of warmed-up beef steers, with a very liberal showing of cows and helfers. Right good and well finished beef cattle have been in light supply. During the first half of the week the

market on beef steers was steady to stro very day, so that by Wednesday pric booked a little higher than at the close looked a little higher than at the close of the previous week. On Thursday the situation was changed. Packers seemed to have been pretty well filled up and at the same time advances from eastern points were discouraging, with the result that the market that day and again on Friday showed considerable decline. At the close of the week the market is generally logist lower than at the close of the week before.

Cows and helfers were in very active demand during the early part of the week due not only to free buying on the part of local packers, but also to a large shipping demand. In consequence of this the market was quoted strong or a little higher each day during the first three days of the week. As was the case with best steers

was quoted strong or a little higher each day during the first three days of the week. As was the case with best steers prices took a downward turn on Thursday and Friday so that at the close of the week the market is safely 150 colored than it was on Wednesday, the high point. In other words, the advance of the week was lost, teaving the market hardly as good as it was at the close of last week. Stockers and feeders have been very free sellers all the week up until Friday, with prices gradually firming up. While the weakness on Friday wipes out a portion of the gain still the market at the close of the week as generally a little better than one week ago, in most cases loc higher. Quotations on cattle: Good to choice corn-fed steers, \$4.5006.18; common to fair corn-fed steers, \$3.5004.18; good to choice cows and heifers, \$2.7503.50; fair to good cows and heifers, \$2.7503.50; common to fair to good stockers and feeders, \$3.5004.0; fair to good stockers and feeders, \$3.5004.0

SHEEP There were no from receipts of sheep today and nothing of any consequence in the rards. For the week the recoipts have been very liberal, the total amounting to 20.72 head, as against 17.44 head last week The receipts for the corresponding week of a year ago were liberal, amounting to 35.5% head.

The week started out with the market in a very satisfactory condition as viewed from a seller's standpoint. Prices strengthened up very materially during the first four days of the week under the influence of the free buying and in spic of liberal receipts. On Thursday and Friday prices dropped back sharply owner to the bit slump at eastern markets. The flooding of the Buffalo market seemed to start a downward movement in process which extended as far west as Omaha. The heavy snow and sleet storms in the vicinity of Chicago were really beneficial to western sellers of sheep, as the consequent demoralization of the telegraph service prevented a full knowledge or senditions at eastern points from reaching here until late in the week, when otherwise the market might have broken soones than it did. ket might have broken soons than it did.
As it was the market durin, most of the week was in a very satisfactory condition and by no means bad even after the break.
Still at the close of the went prices are lightly time on Wednesday and possibly at little lower than they were at the high time on Wednesday and possibly at little lower than at the close of tax week. As a matter of course the decline was the most pronounced on the medium grades, strictly choice kinds showing the less loss.
Quotations on good to energe fed sheep and lambs: Lambs, \$6.7507.00; yearling wethers, \$5.4005.00; wethers, \$6.0076.35; ewes, \$4.7503.00.
