SOME HISTORY OF THE QUESTION.

The sensational address of Attorney General Byers, Sunday night, at the First Presbyterian church, is still the principal subject of discussion throughout the city Opinions necessarily vary, but those who believe there was much of politics back of it are many. Friends of Judge O. D. Wheeler are particularly indignant over the attack made on him by the attorney general with reference to the Brown saloon cases. They say the attorney general's criticism was entirely unwarranted by the facts, which had evidently been misrepre-

sented to Mr. Byers. A prominent member of the local bar said yesterday: "While Mr. Byers saw fit to impugn the action of Judge Wheeler, he refrained from passing any comment or tion for renomination by the republicans criticism on G. "It has been deemed advisable by certain gentlemen interested in the success of the democratic party that a conference should be held by men representing the different views, as to the issues that should be urged upon the democratic national con vention, the purpose being to secure unity of action and strength for the party. Accordingly invitations were sent out for such a conference to be held in this city or the 23d instant.
