### ANESTHETICS IN WARFARE.

The first impulse is to laugh at the invention of a sure method of making future wars bloodless and harmless. However, scientists have been laughed at for ages, only finally to turn the laugh on the scoffers, so it is better perhaps to just wait and see what will come of the new invention.

The plan of this Massachusetts inventor is to dope the enemy and put him to sleep. He has invented a submarine that throws a shell filled with drug. All that is necessary is to slip up on the battleship of an enemy, hoist cers and crew fall helpless into the arms of Morpheus. When the men wake up they find themselves prisoners unable to continue the fight.

Convincing experiments have not yet It would save an immense amount of money now spent for guns make the pension list obsolete. It now, would be necessary only, in order to win battles on land and sea, to have a peonage prosecutions in Mississippi, larger and better supply of sleep-producing dope than our enemies. It would mean that our arsenals would be replaced by chemical laboratories and that medicine mixers would head our army and navy for keeps. The pill box would supplant the ammunition caisson and the dope-throwing syringe The Italian government, would take the place of the cannon. through its embassy at Washington, A battlefield would no longer be a scene of carnage, but would more closely resemble an opium den under police protection.

If the invention works all right in war, there is no reason why it should not be put to other uses to end all controversies and stop strife between individuals. The speaker of the house might have one of these new machines for emergencies and stop such conflicts as that recently pulled off by Williams and De Armond. Chairmen of conventions might arm themselves with sleep producers to be used on voluble interlopers who insist upon talking at the ter. March has been known to make divorce cases remained on the dockets laborers who abandon work without wrong time. The police might carry up all by itself for the shortcomings of awaiting trial. In the twenty years full repayment of all advances may be them instead of clubs. There is no limit to the possibilities of such an in-

### A DIVIDED DECISION.

#### Pennsylvania Supreme Court and Two-Cent Fare Law. Pittsburg Dispatch. The 'decision of the Pennsylvania su

eme court on the 2-cent fare law is on its face a defeat for the law, which is declared unconstitutional. But, especially since the result was by no means unforseen, the features accompanying the decision go far to recompense for the defeat by indicating that power for a rational and effective regulation of railroad practices and charges is not overruled. The lesser of these indications is the fact that the decision is a four-to-three ruling.

Even though Justice Potter's dissent is apparently confined to the single method of computing expenses and profits the fact that the Pennsylvania supreme court divides so closely on the case as presented is an indication that the fancled security of Pennsylvania corporations against regulation does not stand on a solid foundation But the warning is even more strongly intimated in the majority opinion itself on the claim that the charter of the Pennsylvania railroad grants it the right to make is own rates without reserving any legislative power. On this point the highest ourts of other states and the United States supreme court have laid down the princh ple that the regulation of franchises granted for public use is not only a legislative right but a duty, and that no legislature can bind future legislatures not to perform that duty. The majority of the Pennsylvania court do not adopt that doc trine, as Justices Mestrezat and Stewar do in the dissenting opinion. But they unearth an act passed on the same day with the Pennsylvania railroad charter, and as It is to be regretted that the census Federal laws prohibiting this form of Governor Johnson of Minnesota is be- a supplement to it, reserving to the legisstruct their delegates from the caucus inquiry deals only with numbers and slavery have been ignored and the state ing paraded as the foundation for the lature the power of additional ensutments in furtherance of the same objects, and

Thou hast not basely gathered thrift with fawning, Nor worn a laurel that thou hast not won; int, in thy zenith hour as in thy dawning, The good thy nature willed thy hand bas

On thy calm front the waves of trouble, backward surged and left the regnant still; tempests of the soul nor griefs untive e'er had power to shake thy stead-

Thy glory cannot die-for, were thy singing E en once to falter, through the domes of fame. be great organ burst, superbly ringing, whole poetic choir would chant thy

It will not falter; from the heart o'er-With the glad freedom of the wild-bird's wing. Where toy gales o'er sunlit seas are It sings because divinely born to sing. No stain is on thy banner; grandly streaming.
Its diamond whiteness leads the tuneful host.

Corever in the front of honor heaming.

And they that know thee best must I

thee most. So rest; thy regal throne thou hast as-The standards blaze, the golden trumpets And in one voice our loyal hearts are God bless the Poet, and God save the

# Information Due the Customer Which He I o s Not Always Get

In every city there is but one store where the Apollo and Apollo Player-Piano are on sale.

When a customer enters any of the other stores and inquires; "Do you keep the Apollo?" the salesman is in honor bound to reply, "No, we do not." Of course there is no law to prevent his adding: - plano player, which we claim is just as "We keep the -Consequently we are compelled to advertise this over and over again.

THERE IS BUT ONE APOLLO MADE ONLY BY THE MELVILLE CLARK PIANO CO. The Apollo Player Plano is the only Player Plano that plays the entire scale of 88 notes.

The Apollo Player Piano is the only Player Piano that plays selections as played by the world's greatest planists. A piano has 88 notes. So has the Apollo Player Piano. Daily recitals are given on this marvelous instrument

# AT HOSPE'S

The Apollo is the realization of Player Piano Perfection. A 65 note player plano belongs to the last century. The musically up-to-date must have the 88 note Apollo with the Come in at any time and enjoy a demonstration of the beauties
