Prices on Board of Trade. CHICAGO, Jan. 25.-The wheat market broke badly because of liquidation by longs, and predictions of much larger world's shipments. May wheat closed 25c lower. Corn was off % sign to % sign. Oats were down % c. Provisions were 5 to 20c lower. The wheat market opened weak, despite the fact that Liverpool reported higher prices. The bearish sentiment increased as the day advanced, and the market was weak from the start to finish. The chief depressing factor was the prediction that for the coming week the shipments would be 2,000.000 bushels more than for the cor-responding week of last year.
