Musical and Reception—A musical program
was rendered by the Beach Camp quartet at a reception given by the Alpha
camp, Woodmen of the World, at Myrtle
hall Tuesday evening.

Liquor Dealer in Trouble—N. H. Fox
was taken before United States Commissioner Anderson Wednesday morning for selling liquor in the basement of 1302 Douglas
street. He is alleged to have engaged in
the traffic Sunday last, without first
procuring the government license therefore.
The hearing is set for 10 a. m. Thursday.

Opticians Being Examined—The new
State Board of Optometry, which is holding its first examination for opticians at the Young Men's Christian Association building, will be in session until Thursday evening. All opticians who have not qualified are required to pass a thorough examination before the state board, which consists of C. C. McLeese of Davenport, J. C. Hulson of Omaha and Max J. Egge of Grand Island.

Boy Goes on Father's Bond—Frank Balch, the laborer living at 247 South Twentieth street, who was arrested for firing two pistol shots at his wife, was released from the police station Wednesday on a bond signed by his son, Mrs. Balch called at the station with the son and they succeeded in securing the release of the husband and father. He will have a hearing Thursday morning.

Hamer Insists Barker Gray—"That man was as crazy as a loon and might never to have been hanged," said Judge F. G. Hamer of Kearney, who made such a persistent fight to save the neck of Frank Barker from the gallows. "Of course I realize the governor and the judges were up against a hard proposition in this case," added Judge Hamer. Judge Hamer spent Wednesday in Omaha on business.

Boys Get Ninety Days—Edward Ryan and William McLellan, two boys just over the juvenile court age, were sentenced to ninety days each in the county jail by Judge Trout Wednesday. They pleaded guilty to breaking into the basement of the Barnard flats and stealing some clothing and jewelry belonging to John Rossiter. They might have been sent to the penitentiary, but owing to their youth the court was lenient with them.

Tariff Clerks' Examination—A class of twelve young men was examined before the civil service board in the federal building Wednesday, for positions as tariff clerks in the interstate commerce service. The examinations are called for under the new railroad rate law and comprise the knowledge of the applicants on the questions of demurrage, lighterage and railway freight rates generally. The applicants were required to have a practical knowledge of railroad matters. The examinations continued for seven hours.

Burnam Files Annual Report—City Attorney Harry E. Burnam has filed his annual report with the city clerk. The report pays special credit to the work of the street department in the matter of repairs to sidewalks and pavements during the year 1907, in which the street force is credited with being vigilant and is commendable with regard to the extent and quality of the work done.

FIVE HUNDRED MEN CUT ICE

**Swift's Army at Work Day and Night
at Lake.**

MORE START IF COLD CONTINUES

**Weather Forecaster Threatens to
Spoil the Harvest by Raising His
Mercury—Union Pacific
Fills from Laramie.**

Five hundred men were put to work Wednesday cutting ice for the big Swift ice houses at Cut Off lake. The men will work day and night, 25 in each shift. Electric arc lights were put in place Wednesday for the benefit of the night force.

"We have ten-inch ice on the lake now," said Fred Moran, foreman. "All we want is a continuation of freezing weather for a few weeks to get the houses filled. With the double shift force of 500 men we will put up about 8,000 tons of ice daily."

Three hundred men more will be given work cutting ice for Omaha ice dealers, packers and railroads, if the aigle mercury will climb down some ten or fifteen rings between Wednesday and Thursday evenings.

But that isn't saying 800 men will begin cutting ice for Forecaster Welsh is in one of his contrary moods and says "the mercury shall not fall tonight."

The ice is not of very good quality and could not be used for anything but being cars and storage houses, where a few tons of cinders will do any great damage in the ice. Until a week ago a large area of Cut-Off was open, and what ice had frozen at different points on the lake disintegrated quickly. A similar condition exists on other lakes, while running streams are not in as favorable condition for the ice harvest as the lakes.

But one or two ice companies and some private packers gave notice to the semi-monthly newspaper Wednesday morning to have no more Cut-Off lake Thursday morning and work will begin. The ice will be put into the houses and some furnished to the railroads for icing cars.

WANT AD WEDDING IS OFF

**Young Woman Who Answers Old Man
Through Newspaper Gets
a Divorce.**

Judge Redick Wednesday morning granted a decree dissolving the marriage of Viola M. and Armando F. Chouan, which took place about two years ago at Randolph as the result of an advertisement inserted in a Sioux City paper. Mrs. Chouan was awarded \$1,000 alimony, which the court decreed he might pay either in lump or in quarterly installments. The grounds upon which the decree was granted was extreme cruelty.

Chouan is a prosperous farmer living near Randolph. About four years ago his first wife died and he became a widower. Two years ago he advertised for a new wife and the ad was answered by a young woman from Sioux City. Chouan tied a red, white and blue ribbon around her neck and invited her to Sioux City to meet the young woman. They were married shortly afterward and lived together about fifteen months, when she left him, charging he was cruel to her. She came to Omaha and sued for divorce.

The court sustained the truth of her charge, but as he is over 64 years old and she a comparatively young woman and capable of taking care of herself, her alimony was limited. It was shown he was worth about \$5,000, but as the two lived together only a year and a half, the court decided she did not contribute much to the family coffers.

The case attracted considerable attention owing to the sensational nature of the charges and a number of witnesses from Randolph attended the trial.

Mina L. Bauman has been given a divorce from Harry D. Bauman in Judge Redick's court on charges of nonsupport. She is also awarded the custody of the child.

On charges she abandoned him and refused to perform household duties Claude Smith was given a divorce from Beasie in Judge Redick's court.

Officers Get Witness Fees

**Police and Deputy Sheriff Paid by
County and Opposition to the
Custom Arises.**

The Union Pacific has taken no chances with the precarious weather, but has been filling ice houses all along the line from Laramie. The two Council Bluffs houses are filled with Laramie ice and the company was about ready to start on the Omaha houses when the recent cold spell came along. All the ice houses in Kansas are being filled from Laramie.

200 Suits to order \$15 Sat. Last chance.

SEARCH FOR WILL GREENER

**Inquiry is Made of Chief Donahue
to Find Man for His
Mother.**

Where is Will Greener? An inquiry has been made of Chief of Police Donahue as to the whereabouts of Will Greener, who was last heard from in Omaha about two years ago. He was five feet eight inches tall, had blue eyes, dark hair, weighed about 150 pounds and was about 20 years old. He was a carpenter by occupation and member of the Carpenters' Union of Fort Dodge, as well as a member of the Knights of the Woodmen of the World.

The inquiry was made in the interest of his mother, who was very ill. The letter says Mrs. Lizzie Brown, 35 First Street, Marshalltown, Ia., or Mrs. Lilly Igote, box 56, Ferguson, Ia., would like to hear from him, or of any information of his whereabouts.

The policemen who are credited with 15 as witnesses in the case are J. R. McDonald, J. T. Donohue, J. T. Dunn, B. H. Ferris, T. J. Mitchell, Dr. Fitzgibbons, Andrew Paulino, J. H. Savage, S. B. Drummey, M. J. Sullivan, Steve Maloney, W. H. Dunn.

Moving Day for Judges—Wednesday was moving day among the Judges of the district court. Judge Sears, who will take the criminal dockets at the beginning of the February term, moved his desk and library into the criminal court room. Judge Trout will move downstairs to the room now occupied by Judge Redick, who will move into Judge Sutton's present quarters. Judge Sutton will move upstairs into the room just vacated by Judge Sears and Judge Day will remain in his present court room. Judges Kennedy and Estelle are already in their new quarters in the Bee building.

**Sufferers from GALL STONES
and APPENDICITIS Cured**

The Myers-Dillon Drug Co., 14th and Farnam Sts., Omaha, Neb., are exclusive agents in this territory for Fruticola. This wonderful new discovery in the field of medicine is curing people every day of appendicitis and gall stones.

THIS OMAHA MAN WAS CURED BY FRUTICOLA

Omaha, Neb., Oct. 28, 1907
Myers-Dillon Drug Co., Omaha, Neb.
Gentlemen—For over six months what I supposed to be stomach and bowel trouble, I tried every remedy suggested to me all of this time without receiving any benefit. I saw your advertisement of Fruticola, and was so attracted, and the result was astonishing. After taking Fruticola with Traxo as directed, and the result was complete. The satisfaction of having my health restored again is great to me. I have recommended Fruticola to a great many of my friends, and in every instance, as in my own case, it has done more than you claim for it. It will give me pleasure to mention it in your advertising.

Yours Gratefully,
W. C. HEYDEN
Mgr. "Omaha Branch" John Gund Brewing Co.

FINANCES FOR CORN SHOW

Backing of the Exposition Now to Be Secured.

BOON TO EVERY LOCAL INTEREST

A. L. Reed Says He Can Think of No Agency Better to Promote the Welfare of the City.

I cannot now think of anything which would serve to bring more people into Omaha for amusement and instruction, and place the city and its neighbors on more intimate terms, to the advantage of both, than the proposed corn show," said A. L. Reed, president of the Byron Reed company, who as a member of the executive committee of the Trans-Mississippi exposition had charge of all the concessions at the great exposition.

"The Auditorium in Omaha is the only building of its kind in the state which can offer the people of this territory about Omaha a high-class amusement, exposition or instructive show such as a corn, poultry or live stock show. It was erected with the intention of affording amusement, not only to people in the city, but the thousands in the country, many of whom boasted for the building and invested Bryan dollars in bricks.

If Omaha needs anything now to improve its condition, it is to have more people come to Omaha and come often. Visitors have built up the cities of California. The people want to come to a city just as much as the city wants them to come. When they get the habit of visiting Omaha, they are going to ask for means of getting into the city besides the expensive, frequently delayed and inconvenient steam railroad trains, which run on schedule, one or two a day, from the country stations of Nebraska and Iowa.

"If Omaha needs anything now to improve its condition, it is to have more people come to Omaha and come often. Visitors have built up the cities of California. The people want to come to a city just as much as the city wants them to come. When they get the habit of visiting Omaha, they are going to ask for means of getting into the city besides the expensive, frequently delayed and inconvenient steam railroad trains, which run on schedule, one or two a day, from the country stations of Nebraska and Iowa.

Interurbans Follow Demand.

Interurban railroads will follow the demand of the farmers and well-to-do merchants coming to Omaha, and we need interurban railroads. The line to Bellevue has demonstrated the advantage to both the country community and the city. People of Bellevue who came to Omaha once a month or once a week now come every day, or a number of times a week, and share the advantages of a city with those who live in Omaha.

I believe the corn show, like the Ak-Sar-Ben festivals, will bring the people from the outside and will give them educational advantages as well as amusement."

Following the meeting of the committee of sixty business men Tuesday, when officers and an executive committee were elected, the executive committee met and organized, with C. C. Rosewater as chairman. It will begin at once to make the necessary financial arrangements for the big exposition, which it is proposed to hold in the Auditorium the first week in December, 1908, and every December thereafter as long as Indian corn grows in the state.

It is easy to deliver coal now—the roads are dry and hard—horses do not slip—wagons no not skid. There is no danger of damage to your driveway or house.

Why not order now?

PARKS ASK INHERITANCE TAX

Omaha Board Wants it Put in General Road Fund.

WILL ASK LEGISLATURE TO ACT

Adopts Resolution Calling for Such Disposition of Proceeds from Fortunes in All Counties of State.

A resolution was adopted by the Park board at its meeting Wednesday morning asking that the inheritance tax be put into one general fund for road purposes in all the counties. The resolution further requests the Douglas county delegation to the Nebraska legislature to vote to that effect, that the inheritance tax of the county may be kept intact, and asking that, because a large proportion of this tax comes from Omaha, approximating \$25,000, two-thirds of it be assigned for Omaha boulevard purposes.

The board was visited by delegations from the Fontenelle Park Improvement club asking certain boulevard concessions for that district. The board was of the opinion things were coming pretty well in the Fontenelle parkway, notably the extension of the Walnut Hill street railway line to the southern extremity of Fontenelle park, and hence it was not advisable to rush matters too much just at this time.

Contention also was present from the Fifth Ward Improvement club to act on the Cut-Off lake park proposition.

The information was given the committee that the right of the board to appraise the property needed for the park had been established by the courts and that the appraisers would go on with the appraisal. Assurances were given that all the difficulties threatening the project were in the way of amicable adjustment and that the park was sure to come in due time.

Levi L. Corfman of Dunlap, Ia., has addressed a communication to the Park board tendering an option of the Iowa variety to the Omaha park manager. The board has taken the matter of the acceptance of the option under advisement.

Harry Tukey has received copies of South Dakota papers, all of which speak in the highest praise of Omaha. The delegation to Yankton, though, nicely expresses its appreciation of Omaha's friendship toward that city for next convention.

Thanks are coming to Omaha from almost every point in the upper Missouri valley for the action of the Omaha delegation at the Missouri River Navigation congress in Sioux City last week in selecting Congressman Edgar C. Ellis chairman and voting to send the next congress to Yankton.

Harry Tukey has received copies of South Dakota papers, all of which speak in the highest praise of Omaha. The delegation to Yankton appreciates the hosting done by the "boys" from Omaha and freely acknowledged the obligation to the city in the matter of collecting the taxes for 1906 and 1908 on the ground it was exempt under the provision of the law providing school property cannot be taxed. Judge Kennedy allowed a permanent injunction against the county and city.

The case involved the same questions as were settled by a decision of the supreme court about two years ago in the Rohrbough case in which the court decided business college property is exempt from taxation. The county will not appeal.

PASSES ONLY FOR LAWYERS

Part of Building Used Exclusively for Educational Purposes is Exempt.

The Boyles College company need not pay taxes on that part of its building used exclusively for business college purposes, according to the decision rendered Wednesday.

Judge Kennedy of the circuit court said the tax was brought by the company to injure the city and county treasurer from collecting the taxes for 1906 and 1908 on the ground it was exempt under the provision of the law providing school property cannot be taxed. Judge Kennedy allowed a permanent injunction against the county and city.

The case involved the same questions as were settled by a decision of the supreme court about two years ago in the Rohrbough case in which the court decided business college property is exempt from taxation. The county will not appeal.

THE VALUE OF CHARCOAL

Few People Know How Useful It Is In Preserving Health and Beauty.

Cost Nothing To Try.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better, it is not a drug at all, but simply absorbs the gasses and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables.

Charcoal effectively clears and improves the complexion. It whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disintegrates the mouth and throat from the poison of catarrh.
