Liberal World Shipments for the Week Cause Traders to Take Profits and Sell Long Holdings.

Holdings.

OMAHA, Feb. \$, 1905.

The expected bulge was headed off by disappointing cables, and a set back came. Liberal world's shipments for the week caused traders to take profits and the sale floing heads world's cables caused traders to take profits and the sale floing heads world's cables caused off easy soon after the opening. Heavy cables caused good selling. Wheat worked off easy soon after the opening. Heavy cables caused good selling and the strength shown at Winnipag was the only sustaining feature. Considerable long wheat was put on the market later and was not well taken. Values were easy at the close. May wheat opened at 2504c.

Corn was soft with wheat and sold off on general selling by long holders and the putrowd. There was no ginger to the buying side and the tone was not strong near the close. May option opened at 2504c.

The weakness in wheat and corn softened the oats market and, coupled with heavy selling, became a detrimental factor. May onts opened at 5504c.

Size down. Provisions were a shade to 1-1216 for higher.

The decline of 16.01/26 in Liverpool cables, unlooked for, considering strength which prevailed here during the previous session and which was reflected in the opening quotations on the Chicago exchange, was followed by reports that supplies for domestic and foreign consumption were plentiful. Australia was shown to have shipped 455,000 bu. more than during the preceding week and the world's shipments, estimated at 11,600,000 bu., were regarded as greatly in excess of the weekly requirements. The opposing influence of smaller Canadian and northwestern reserves in the estimates for the coming week failed to rescue the market from the lower level. week failed to rescue the market from the lower level. May was off 46% at the opening, advanced to %c. and was later forced back to %6% by the weight of offerings. The close was weak at \$7% c. Primary receipts were 443,000 bu., compared with 344,000 bu. a year ago. Clearances of wheat and flour were equal to \$5,000 bu. Minneapolis, Duluth and Chicago reported receipts of 275 cars, against 194 last week and 274 a year ago.

Corn was lower, owing to increased country offerings and favorable weather for the movement, but the market exhibited a dogree of steadiness in view of the weakness in wheat. There was considerable week-end profit-taking and the trading was without feature. May opened 46% lower at 61% to 63% a dvanced to 81% 661% c. The close was easy at 61% c. Local receipts were 268 cars, with none of contract grade.

Oats were dull and neglected and followed the downward trend of other grains. Elevator interests favored the bear side, but at the low point the bull leaders offered support. The May option, starting 16c lower at 54% c, ranged between 54% c lower at 67 cars.

The provisions market displayed strength at the opening on a smaller run of hogs than estimated for Chicago, but could not withstand the effects of liberal receipts were 167 cars.
