The market today was active and strong, with the range of prices and the bulk of sales sub-stantially the same as no closing prices are practically the same as is the close of hast week. Both local packers and pay a premium on the good weight and quality hogs and all classes of buyers discriminate sharply against thin, light and under-weight stuff. For fair to good hogs of all weights. However, the range of prices is not very wide; the top today was \$4.20 and the bulk of the trade around \$4.109 i.25, or substantially the same as a week aso.
