#### Council Passes the Ordinance Without a Dissenting Vote.

**WALKER OFFERS SETTLEMENT**  
Fireman Who Lost a Foot Willing to Take Seven Hundred Dollars and Retain a Position in the Fire Department.

Councilman Fleming's ordinance providing for a slight increase in the salaries of certain municipal officers, which was generally supposed had been carefully laid away in innocuous desuetude, was resurrected and passed by the city council last night without a dissenting vote. The measure increases the salary of the mayor from \$900 per annum to \$1,200, those of the auditor and treasurer each from \$1,000 to \$1,200 and that of the deputy city clerk from \$600 to \$1,000. The pay of the chief of the fire department is raised from \$66 to \$100 a month. This year the mayor was allowed \$300 for clerical help, the city clerk was allowed \$100 for a similar purpose and the auditor and treasurer were allowed jointly a moderate amount for clerical assistance.

City Solicitor Kimball introduced the ordinance providing for the establishment and regulation of a city slaughter house, but the councilmen were not prepared to accept it, so it was referred to the committee of the whole, which will meet on Wednesday afternoon.

Councilman Younkerman, chairman of the fire and light committee, submitted a resolution embodying the terms of a settlement with Fireman Ed Walker, who lost a foot as the result of a runaway accident while exercising one of the teams of No. 1 engine house, a few months ago. The settlement recommended, which was one proposed by Fireman Walker, was payment of \$700 cash and that Walker be retained in the department, subject to all rules and regulations saving that of being "able bodied." Councilman Younkerman and Malone both spoke in support of the proposed settlement, but others of the council doubted the liability of the city in the matter, although of the opinion that some provision should be made for the crippled fireman. After considerable discussion the matter was referred to the judiciary committee on motion of Councilman Wallace, who contended that it was the proper committee to take charge of such a matter. The judiciary committee is to report back at the next meeting of the council.

**W. I. Walker of the Walker Manufacturing company, whose plant is located at Tenth and Eleventh streets, complained that all the streets and avenues in the vicinity of his factory were practically blocked by the different railroad tracks and asked that Eleventh street be opened up by the city from Ninth to Twelfth avenue and that the railroads be compelled to place crossings over their tracks. The committee of the whole will go over the ground Wednesday afternoon.**

A number of residents and property owners in the western part of the city appeared before the council with a request that the gypsies camped north of Avenue A and west of Thirty-seventh street be ordered to move. Chief of Police Richmond was given the problem to wrestle with, the council according to him full liberty to act as he deemed best.

Residents in the southern part of the city asked for arc lights at Thirtieth and Nineteenth avenues and Twelfth street and Twenty-fourth avenue. The petitioners called attention to the recent attacks on young women living in that part of the city and the consequent need of street lights. Residents on Madison avenue asked for electric lights to the city and cordial invitation to the committee on fire and light for investigation.

The list of republican judges and clerks for the primary election as supplied by chairman Reed of the republican city central committee was approved, but that supplied by Chairman Hughes of the democratic committee was laid over until Wednesday.

seventh street and north of Avenue A, on which they have camped for the winter, and the authorities are at a loss how to proceed to get rid of them. Residents on Avenue A yesterday took the matter up with City Solicitor Kimball. They complained that the gypsies are not particular enough as to wearing sufficient clothing when passing from tent to tent in broad daylight and that they lack modesty. Mr. Kimball promised to take the matter up with the city authorities and see what could be done to get rid of them.

## Cottage Heating

The public has so vague an idea of the cost of a heating outfit for a cottage, house, store, church, etc., that this advertisement is useful in giving many a general idea of cost. Low-Pressure Steam and Hot-Water heating are now offered at prices well within the reach of any owner or tenant, due to the large variety of small sizes and simple forms in which are now manufactured the world-famous, fuel-economizing **AMERICAN & DEAL** RADIATORS & BOILERS.

Any building thus outfitted is free from dampness and drafts, is clean, and altogether a delightful place to live in for the full seven cold months.

IDEAL Boilers and AMERICAN Radiators will produce more heat with less fuel than by any other heating method, and distribute it uniformly through the rooms—day and night. They shut off all fuel waste, require no repairs, are safer and easier to run than a stove, and their cleanliness greatly reduces housework.

IDEAL Boilers and AMERICAN Radiators will outwear the building—when property is sold you get full money back, or 10% to 15% increased rentals. Money put into these outfits is therefore an investment, not an expense.

Quickly put into old buildings—without tearing floors or walls, or disturbing occupants. Prices now usually rule the lowest of the year—and in these few hurried months you get the services of the quickest, most skillful fitters! Write us or come in and let us explain more. **ITCHING ECZEMA**  
**CURED IN FIFTY-FIVE YEARS**

Suffered Torments from Birth—Boils Formed as Big as Walnuts—In Frightful Condition and Could Hardly Work—Tried All Kinds of Remedies to No Avail—At Last WHOLLY CURED IN 8 MONTHS BY CUTICURA

"I had an itching, tormenting eczema ever since I came into the world, and I am now a man fifty-five years old. I tried all kinds of medicine, but it never brought me any relief. At last my blood was so bad that I broke out all over with red and white boils, which kept growing until they were as big as walnuts, causing great pain and misery. I thought they would take the skin off my whole body, but I kept from scratching as well as I could. I was so run down that I could hardly do my work. Mr. Nelson R. Burnett recommended the use of Cuticura Remedies, telling me he was confident they would benefit me, and in time cure me. I used the Cuticura Soap, Ointment, Resolvent, and Pills for about eight months, and I can truthfully say I am cured. I cordially recommend Cuticura Remedies to all who are afflicted the same as I was, believing that, if they will use them according to directions, they will find them all they are represented to be. Any one doubting the truth of the above can write to Mr. Burnett, who will cheerfully vouch for my statement."

"Hale Bordwell, R. F. D. 3, Cedar Corners, Tipton, Ia., Aug. 17, 1907."

"I cheerfully endorse the above testimonial. It is the truth. I know Mr. Bordwell and know the condition he was in. He never tires of praising the Cuticura Remedies."

"Nelson R. Burnett, Tipton, Ia."

Gentle ointments with Cuticura, the great Skin Cure, preceded by warm baths with Cuticura Soap, followed by the severer forms, with mild doses of Cuticura Resolvent Pills, afford instant relief, permit rest and sleep, and point to a speedy cure of torturing, disfiguring, itching, burning, and scaly humors, eczema, tetter, and inflammation, from infancy to age.

**No Blame for Probste's Death.**  
At the inquest held yesterday afternoon over William Probste, who was crushed to death beneath the wheels of a Fifth avenue and Fairmount park motor car on Broadway, Saturday evening, the jury brought in a verdict to the effect that Probste was accidentally killed by an electric car on Broadway and that no blame attached to the crew of the car.

**Many Register at Iowa City.**  
IOWA CITY, Ia., Feb. 18.—(Special.)—The registration at the University of Iowa bids fair to be a record breaker this year. The registration for the second semester has not yet been finished, but it is probable, according to the statement yesterday given out by Registrar Barrett, that it will go beyond the 2,300 mark. This is undoubtedly the greatest part of the Boosting club movement that was organized last fall, in which nearly every student in the university took part. The plan of the boosters is to organize county clubs, each of which has a free hand in its own county. A meeting of these county clubs was held in nearly every county in the state during the holiday recess and regular campaigns were directed toward the prospective college students of the vicinity. The registrar is in receipt of a large number of letters from high school principals all over the state on the matter of their attendance at the university next year. Mr. Barrett predicts that next fall's enrollment will surpass all expectations.

**Alumni Meeting Postponed.**  
IOWA CITY, Ia., Feb. 18.—(Special.)—The annual meeting of the State University of Iowa alumni has been postponed until next fall on account of other meetings of more importance that are to take place about the time of the usual meeting, which has always been held in May. The meeting will be held immediately after the national tuberculosis convention in Washington next fall, and an effort will be made to get the services of men of note at the assembly of the local alumni.

**Ice Dealers Laid with dismay on the condition of the weather. The Des Moines and the Racoon rivers, which furnish the ice for the city, have both broken up in a few days and the water has so risen in both rivers that there is little hope of any commercial ice being formed later in the season. In the Coon river a big ice gorge formed, which for a time threatened the water works in the city.**
