

GRAIN AND PRODUCE MARKET

Lack of Receipts Overcomes Bearish Foreign Reports.

WHEAT BREAKS AT THE START

Recovery Comes Quickly When Offerings Are All Taken and Corn is Strong on Light Arrivals and Little Selling Pressure.

OMAHA, Feb. 19, 1908. With little or no measure on the market values are advanced on the almost absolute absence of receipts.

Corn held strong on light arrivals and a lack of selling pressure. Liverpool cables...

Oats worked higher with commission houses buying heavy and absorbing all offerings.

Clearances were 222,863 bushels of corn, none of oats and wheat and flour equal to 29,000 bushels.

Liverpool closed 1 1/2 points lower on wheat and higher on corn.

Seaboard reported 120,000 bushels of wheat and 60,000 bushels of corn taken for export.

Local range of options: Wheat, 85 1/2; Corn, 82 1/2; Oats, 54 1/2.

NEW YORK STOCKS AND BONDS

Conditions of Railway Finance is Feature of Day's Movement.

SHORT TIME NOTES COMING DUE

Decrease in Earnings Throws Doubt on Ability to Pay and Affects Prices—Raily at the Close.

NEW YORK, Feb. 19.—The feature of the financial situation which was brought into notice by the action of today's stock market was the position of corporations, especially the railroads, with important financial obligations to meet while the falling off in their earnings has been continuing so far on the margin of surplus available for their operations as to seriously impair the market standing of the securities.

The Gould group was acutely affected by the considerations today and securities of that group were particularly depressed.

The degree of resistance shown by the general market, however, to the influence of the demoralized break in the Gould stocks was worthy of remark.

In the early stages the contrary movement in Missouri Pacific was ignored and prices elsewhere were held steady.

A final rally in the market was halted and a general reaction ensued, but it was moderate and confined to securities in the stocks most affected.

The slumping tendency extended to some points in the bond market as well as the same general causes were at work.

Railroad companies generally were forced last year to complete their programs of expansion and the rush of business which that time and the high cost of construction and the lack of profit materially to the urgency of these needs.

It was estimated at an early stage of the banking crisis that the bank would be unable to follow through with such a plan of expansion.

Retrenchment and so on, leading to the refunding of the notes referred to as the "Bonds of the Gould group."

It is estimated that the bank would be unable to follow through with such a plan of expansion.
