RANK OF GRAIN MARKETS

Omaha Market Seventh in Receipts of All Grain. LAKE PORTS SHOW GAINS. Counting Receipts from Primary Markets Duluth and Milwaukee Rank Ahead of Inland Markets, as Shown by Federal Report.

According to the report of the Department of Commerce and Labor, received at the Omaha Grain exchange Friday, Omaha ranks sixth in wheat, third in corn and fourth in oats as a primary grain market for the year of 1907, but it is given seventh place in the total receipts of grain. For the year of 1908, Omaha had greater receipts than Milwaukee, but 12,127 of the Milwaukee receipts are given as the heavier. The total receipts in Omaha for 1907 were 42,697,000 while the Milwaukee receipts are given as 48,314,000. In 1908 the total receipts at the Omaha market were 44,520,000 bushels and the Milwaukee receipts 48,421,000 bushels. But the report shows Duluth a grain market receiving more than 69,000,000 bushels of grain. The report of the Duluth receipts shows that over 70,000,000 bushels of the grain reported as received at Duluth, was forwarded from Minneapolis, where the shipments were 62,000,000 bushels. How Lake Markets Grow. The lake ports, while not receiving the grain from the country as primary markets, have receipts enlarged by reporting all which passes through the elevators or loaded on boats, which pushes the non-lake port markets down the scale as markets. Grain dealers say that if it were not for the lake shipping and grain forwarded to and received from other cities Omaha would stand ahead of both Duluth and Milwaukee. As the reports are made up the same grain is reported received at Minneapolis, shipped from Minneapolis, received at Duluth, shipped from Duluth and received at Milwaukee. Such a counting puts Omaha, Kansas City and St. Louis to a disadvantage. It is believed that Omaha really stands fifth in the total receipts of grain for the year of 1907, counting only the grain on its initial move from the farms to the consumer. For the twelve months the receipts and shipments were as follows: Receipts, Shipments. Chicago 24,287,000 197,997,000, Minneapolis 128,911,000 82,974,000, St. Louis 85,493,000 52,128,000, Duluth 25,423,000 64,422,000, Kansas City 48,947,000 28,947,000, Milwaukee 46,314,000 28,947,000, Omaha 42,327,000 42,327,000. The total receipts of wheat at Omaha were 2,951,000 bushels; corn, 18,620,000 and oats 12,944,000.

FAIRNESS TO COLORED RACE

Chief Donahue Advises Police to Treat Negroes Justly. Chief of Police Donahue has taken occasion, following the shooting of Detective Drummy last Saturday by a negro, to send a letter to the police captains and all members of the police department commanding calmness, coolness and good judgment, pointing out that the fact that a foul crime has been committed by a colored man is no indication that all members of the colored race are on a par with this murderer. He warns against prejudice and counsels calmness. The letter follows: Captains Moseley, Dunn and Savage and all members of the Omaha Police department, gentlemen: We as police officers, one and all, together with the entire community, regret and deeply deplore the unwarranted and untimely murder of Detective S. S. Drummy, one of our beloved and most efficient officers, while in the discharge of his duties. And while our sympathy goes out to his bereaved wife and fatherless children yet we must understand that we, as police officers, have a great and important duty to perform. We must not fail to realize that at this time and in the future we must be more careful than ever in our duties as police officers. That is, we must not let that sympathy which we have for our brother officer and his family in any way interfere or prejudice us in the discharge of our duty and see that the same care and precaution exist now and in the future in arresting criminals as always. We must act carefully and cautiously in the handling of firearms and at all times be sure we are in the right before firearms are put in service. While this deeply deplorable act was one of a vicious, cowardly villain, yet that does not mean that all others of his color are in sympathy with such an act, as we have in this community a large population of colored people, a large majority of whom we have confidence in as being good, upright and law-abiding citizens who I firmly believe deplore the murder committed by one of their color and who I believe are in sympathy with all other good citizens that this man should have been dealt with in accordance with the law and see that the ends of justice might be served should he have lived. The same courtesy and treatment should be extended to the colored people of this community by the police officers in the future as has always been done in the past, and such action on the part of the police department of this city will be approved of by every good citizen, both white and colored. Yeast was recently convicted in the United States district court of conspiracy to defraud the government out of parcels of land by means of fraudulent filings. OWN MUSIC Just as you Own Books

The books on your library shelves you own outright. They are there as a permanency for you to read and reread, for your family and friends to enjoy whenever they wish. But the music you pay to hear at concert or opera disappears as soon as it is sounded. Yet you can place music on just as satisfactory and permanent a basis as your morocco-covered sets of Dickens and Thackeray. The APOLLO PLAYER PIANO gives access to the greatest library of music ever brought together. Music in the form of Apollo rolls is a possession which logically belongs in every well appointed home. There is as much solid satisfaction in owning music in this form as in owning printed books. You can summon into existence your favorite musical compositions just as readily as your favorite characters in fiction or in history. Among the many piano players only the Apollo has received the approval of the world's greatest musical authorities. None of its imitators possess the vital improvements, such as the great transcending mouthpiece, which represents 95 per cent of player value, and besides the Apollo is the only player piano in the world that plays the entire keyboard of the piano. No other player piano in the world has an 88-note range. The Apollo Player Piano is the only player piano that can play compositions like the Scholz-Evier arrangement of the Beautiful Blue Danube waltz of Strauss, as played by artists like Myrtle Elyvn.
