Pertures of the Trading and Closing
Prices on Beard of Trade.

CHICAGO, Feb. 25.—Small primary receipts and an urgent demand for cash wheat here and at southwestern markets caused an advance of nearly 2 cents in the price of wheat off the local exchange to day. At the close the May delivery showed a net gain of 4 talke. Corn was up 1/2c. The sharp bulge in wheat followed a weak opening. At the start prices were about 1c below yesterday's final quotations, which was based on a decline of more than 12 at Liverpool. NEW YORK STOCKS AND BONDS

Neglected Condition of Wall Street Market is Unrelieved.

SLIGHT ACTIVITY AT OPENING

Bear Party Tests Sentiment with Short Sales, After Which Dullness Becomes Prominent-Bond Market is Easy.

NEW YORK, Feb. 26.—The neglected condition of the stock market was unrelieved today. Rather, after a temporary increase of activity in the morning, it was aggravated in the later dealings. Buginess originated almost entirely within the walls of the Stock exchange. An example of the character of the transactions and of the hack of consistency in the traders' arguments was offered in Union Pacific. The books of that company for transfers of stock close tomorrow, and consequently the value of the 2½ per cent dividend will be deducted from the price of the stock. One party of traders bought the stock on the ground that the deduction of 2½ points from the price tomorrow will make it look cheap and invite demand. Another party sold it on the ground that shorts had been covering in the stock because they would be obliged to pay the amount of the dividend in carrying charges tomorrow, but would be prepared to put out fresh short lines when the dividend is deducted. The professional traders themselved designated such a market as "trading Jackknives," as they derive as little profit from it as Schoolboys engaged in that transaction.

The bear party among the traders tested the market with short sales at the outset on the assumption that the treasury call upon the national banks, except those of the smaller class, for return of \$5,000,000 of government deposits during March, might prompt some liquidation of stocks. This call has been clearly indicated by the downward course of the margin of the government's free working balance of cash. Moreover, the money supplies are now so considerable that the banks can part with this sum without embarrassment, while the treasury will be correspondingly strengthened in its facilities to help with relief for the money market when cash begins to leave the reserve centers to move the crops. The rapid retrement of bank notes confirms the needs of conficion by the New York trust companies involved a heavy accumulation of cash reserves by these institutions, which made an important requirem

on call.

London Stock Market.

LONDON, Feb. 25—American shares started the day on the stock exchange moderately today. They then dropped below parity, offerings failed to find buyers and business was meager. Canadian Pacific was depressed owing to decreased earnings. Later the New York opening failed to relieve the gloom and prices moved merrily downward. The close was heavy. trade was reasonably healthy and a very fair clearance had been made by noon.

The supply of cows and helfers was by no means excessive and yet these was a sufficient number here to prevent any material improvement in values. Good to choice stuff found ready sale at fully yesterday's figures and there was a good general demand for anything of this kind. Canners and cutters were in more liberal supply and with only a limited demand for this class of stuff buyers were generally able to lower prices, the decline in some cases being as much as 5670c. The market for veal calves was very dull and all but the best grades ruled lower. Bulls, stags, etc., were in good demand and firm.

There was a good inquiry from all sources for stockers and feeders and values ruled steady for anything at all desirable in this line. Light fat stuff of good quality was in good demand as usual of late. Feeder buyers took several loads of good short-fed, warmed-up steers at better prices than killers were willing to pay, but the total volume of business was of only moderate proportions.

however, were sufficiently large to enable packers to secure supplies at not more than steady prices even on the most suitable offerings. In the lamb division several loads on the heavy order were received and these proved to be very poor sellers at weak prices. The market on lambs yesterday was rather unsatisfactory and logilic lower and sales this morning showed no improvement over yesterday.

For handy weights of multon grades of ewes, wethers and yearlings there was no special change and while the trade was slow, prices were quoted about steady on anything at all desirable.

In the feeder division the market was also quiet. While the offerings were limited, the demand was also small and while there was no material change in prices, the trade showed more or less weakness in sympathy with the market on mutton grades
