## INQUIRY INTO TRAIN ORDER LATEST NEWS

Commission Will Take Up Union Pacific Train Cancellation.

PUBLIC HEARING FOR MARCH 4

Governor Sheldon Issues Pardon for Son of Former Lincoln Counctimen Serving Time for Robbery.

(From a Staff Correspondent.) LINCOLN, Feb. 27 .- (Special Telegram.)-If freight business in Nebraska has fallen off to such an extent that the Union Pacific road is warranted in cancelling half its trains on branch lines, the railroad commission wents to know about it. To this end a public hearing has been ordered for March 4, when the facts and figures to substantiate action already taken by the

road must be forthcoming. Within the week, the Union Pacific road took off one freight train a day on the Manhattan branch though Beatrice and ordered tri-weekly service on lines from Kearney, Grand Island and Columbus. The commercial club of Norfolk did not sleep on the matter, but made a complaint to the railroad commission before the order had would be put back and service on this line has already been restored.

This brought the attention of the commission to the order and on representations from the ratiroads that, engines on local freights capable of hauling 1,300 tons at a load were making daily trips with from eighty to 150 tons, the hearing March 4 was ordered. Rate Expert U. G. Powell was and for in Omaka Wednesday and is making a visit to other towns in the state affected to ascertain conditions so the board may be prepared to act advisedly.

Governor Issues Parole.

Governor Sheldon today issued a parole to Thomas Carr, jr., who has been serving a term in the Nebraska penitentiary for robbery committed in Dixon county six years ago. He is being paroled on the word of his father's brother. Young Carr was sent up under the name of Charles Fair. He is 22 years of age. At the time of his conviction an effort was made to prevent a long penitentiary term because of his youth, but the boy had previously been given an opportunity to reform without result. Carr's father is a deputy assessor in Lancaster county and was formerly an influential politician and councilman.

Historical Society Wants Building. The menbers of the State Historical soclety of Nebraska today interviewed the governor concerning a method by which the as conclusive. society may avail itself of the appropriation of \$25,000 made by the last legislature for a new historical society building, provided the city of Lincoln would deed to the state the site of the present market square near the university or land its equivalent in value, the square having originally been

deeded to the city by the state. McBrien is for Taft.

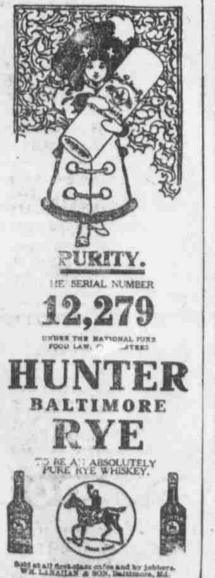

It was reported in Lincoln today that the ame of State Superintendent McBrien is being used by the opponents of Secretary Taft as one of the Roosevelt boosters, in order to injure the candidacy of the war secretary. Mr. McBrien was a member of the Roosevelt league, or at least his name was used as one of the members previous to the recent and last declaration of the president that he would not be a candidate for re-election. Mr. McBrien is at present absent from the city, being in Washington, but in a recent conversation he said:

The way to get Roosevelt delegates is to be for Secretary Taft. Delegates should be instructed for Secretary Taft. Then, it there is no chance for the nomination of the secretary, the delegates will naturally to to Roosevelt, and then there may be a chance that he would take the nomination, he event only that Taft cannot be selected. I endorse Governor Sheldon's speech from first to last, So far as my connection with the Roosevelt league is concerned I supposed the league went out of existence when it was definitely known that the president would not consent to another

Call for Assessors' Meeting. George D. Bennett, secretary of the State Board of Assessment, has sent out the following letter to the various county assess-

For general information and instruction and for the protection of the taxpayers of the state I should like to suggest that the the state I should like to suggest that the various county assessors meet in this city not later than March 19 at 1 o'clock p. m.

The State Board of Equalization and Assessment has no authority to call such a meeting or to defray the expense, but it will be of enough importance to warrant the expense of its assessor in order to prepare him for the work to be done this year. Will you come?

Assessor Wants to Know.

The county assessor of Hail county has put a number of questions to Secretary Bennett of the State Board of Assessment regarding the assessment of railroad property for city purposes. He wants to know if he must assess the main line or just the branch lines; he asks what is the value of the road; the steel rails, cost of ballast a mile, and what is the annual per cent of depreciation. Mr. Bennett simply called the assessor's attention to the law and then informed him that the information he wanted regarding valuation would be furnished in the report of the realiroads. which, however, he is not compelled to take

Newspaper People Satisfied. All of the editors and the editors' wives and husbands of women eldtors managed to get out of town on time today and so far as heard from every one was satisfied that he got his money's worth by attending the meeting. Governor and Mrs. Sheldon, the Commercial club, Henry Richmond and Will Maupin and local newspaper men were pretty generally complimented for the success of the meeting, as were those who appeared on the program. Colonel John J. Ryder, deputy labor commissioner, is not sure Mr. Bryan was correct when he addressed the editors as journatists instead of "newspaper men" in his speech to the editors. In discussing the

speech Mr. Ryder said: while listening to Mr. Bryan's talk to the editors yesterday the thought occurred to me that the ideal he had in mind is largely realized in the newspapers of Nebraska. For years I have been a great newspaper reader and every week there are several hundred local newspapers delivered in this office which are gone through by myself pretty thoroughly. In the list are comprised dailies, semi-weeklies and weeklies, with a few monthly publications of

the Bryan slate or leaving a lot of sorehead leaders at home. During the editorial meeting here Mr. Bowlby proposed to a number of democrats that Nebraska select eight delegates-at-large, to the national convention and give each delegate one-half a vote, and wherever there is a contest on in a district, the district is to select four delegates, each to have a half a vote. Oklahoma has done this rather than fight, it was told, and some of the democrats here believe it would be a good thing to work the same plan in Nebraska. It is possible, however, that even ficient to take care of all of Mr. Bryan's leaders. Besides the slate agreed upon and stamped approved by Mr. Bryan, other names have been proposed as follows: Mayor Dahlman of Omaha and a member of the Jacksonian club: A. C. eight delegates-at-large would not be sufficient to take care of all of Mr. Bryan's member of the Jacksonian club; A. C. Shallenberger and Richard Metcalfe. The name of Metcalfe, however, is used without the approval and over the protest of the Commoner associate editor, A number of leading democrats, however, believe that Metcalfe is more worthy of a delive business may be created here. The following campaign committee was appointed: William Murphy, Charles Howe, Walter William M. Ely and D. S. Chappel, all Heve that Metcalfe is more worthy of a place on the delegation, regardless of his own feelings, than any other democrat in the state. If the men mentioned should be put on the proposed slate, that would still leave out W. D. Oldham, George W. Berge, P. E. McKillip, and a lot of others who have political ambitions and who cannot be satisfied with a place as a district delegate. Besides, the democrats do not want to stand for three men from Omaha, even if Dahiman is mayor. Bowlby, however, it is understood, is going to throw his plan upon the mercy of the party and ank for its adoption.

There is no question now that it will be impossible for the democrats to keep Mayor Brown out of the convention. Mr. Bryan gave excellent reasons why he is for the mayor in a speech delivered at the banquet given to the editors here Tuesday night. Mr. Bryan was telling the editors of the many things he had to be thankful for. He said when he began the study of law he started out in the office of Mr. Brown in Illinois, a lawyer of splendid mind and a splendid citizen. When he reached Lincoln ward Peterson. Delegates at large: Edgar splendid citizen. When he reached Lincoln | ward Peters Mr. Bryan said he lived across the street from F. W. Brown, now the mayor, who is a brother of the man with whom Mr. Bryan read law. He complimented Mayor Brown and expressed his great gratification in being classed among the latter's friends. Incidentally, the local papers failed to take notice of these complimentary remarks of the mayor of their city. It was announced yesterday that Mr. Berge favored Mayor Brown being a delegate-at-large.

The county convention will be held here next Saturday and it is probable Mayor Brown will have no opposition in getting an endorsement.

John Boeson Again Sues Street Railway for Damages.

ASKS TWENTY-EIGHT THOUSAND

Omaha Courts Eight Years Ago Last December and Resulted in Disagreement.

For the eighth time the suit of John Boesen against the street railway company in district court probably Monday. The case, which grew out of an accident to Boesen in July, 1899, while he was riding to his work in South Omaha, has become one of the famous ones in Douglas county litigation. The suit was filed in December, 1899.

The first two trials resulted in disagreements, but at the third Boeren secured a verdict for \$1.1% and the company appealed, securing a reversal in supremy court. At the February term in 1904 the plaintiff recovered \$4,800. Judge Estelle set the verdict aside for a technicality and at the fifth trial a disagreement resulted. At the sixth hearing in October, 1964, Boesen secured a verdict for \$4,000, but the verdict was set aside by the supreme court. At the seventh trial the street car company won, but the supreme court again reversed the lower court. The trial about to start is the eighth in the district court and the eleventh, including supreme court hearings. Since the first trial two witnesses for the plaintiff have died, the attending physician has removed to the Philippines, one of the defendant's witnesses has died and two have left the state. At various times charges of jury tampering have been made and the grand Jury was asked once to investigate some of these charges. One or two men, it is said, have left the state as the result of these charges. The law in the case has been gone over so thoroughly that the attorneys hope to secure a verdict that will stick at this trial T. W. Blackburn and Richard S. Horton have appeared at all the trials for the plaintiff and John L. Webster and W. J. Connell, assisted by W. R. Thomas, have appeared for the company.
