CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Feb. 28.—Heavy realizing sales had a depressing effect today on the local wheat market, the May delivery closing at a net loss of %6%c. Corn was down %c. Outs were %c lower. Provisions were 2%c lower to 2%c higher.

The wheat market opened strong because of an advance of more than 2d at Liverpool, caused by smaller shipments for the week, from Argentina than had been expected. The market continued strong during the first haif of the day despite fiberal sales by local longs, but in the last half of the day despite fiberal sales by local longs, but in the last half of the day despite fiberal sales by local longs, but in the last half of the day despite fiberal sales by local longs, but in the last half of the day despite fiberal sales by local longs, but in the last half of the day despite fiberal sales by local longs, but in the last half of the day despite fiberal sales by local longs, but in the last half of the day despite fiberal sales by local longs, but in the last half of the day despite fiberal sales by local longs, but in the last half of the day despite fiberal sales by local longs, but in the last half of the day despite fiberal sales by local longs, but in the last half of the day despite fiberal sales by local longs, but in the last half of the day despite fiberal sales by local longs, but in the last half of the day despite fiberal sales by local longs, but in the last half of the day despite fiberal sales by local longs, but in the last half of the day despite fiberal sales by local longs, but in the last half of the day despite fiberal sales by local longs, but in the last half of the day despite fiberal sales by local longs, but in the last half of the day despite fiberal sales by local longs, but in the last half of the day despite fiberal sales by local longs, but in the last half of the day despite fiberal sales by local longs, but in the last half of the day despite fiberal sales by local lo

against 24 cars last week and 60s cars one year ago.

Corn opened firm, but soon weakened because of liberal selling by holders. Offerings from the country increased and the demand for cash corn by shippers was slow. Receipts both here and at other primary points continued light. The market closed weak and near the low point. May opened unchanged to \$\frac{1}{2}\text{c}\$ and then declined to \$\frac{1}{2}\text{d}\$ c. and vanced to \$\frac{1}{2}\text{c}\$ and then declined to \$\frac{1}{2}\text{d}\$ c. ars. with one of contract grade.

Outs were weak because of selling by cash houses and longs. Trade was mainly in the July and September delivery. The market was influenced chiefly by wheat and corn. May opened unchanged to \$\frac{1}{2}\text{c}\$ c. and the greater part of Provisions were firm the greater part of Provisions of the provisions were firm the greater part of Provisions were firm th

Advance in Liverpool—Corn
Staris Firm and Gains a

Few Fractions.

OMAHA. Feb. 28, 1998.
The grain market continues in strong position and is easily subject to buil influences. Light reserves and lighter Argentina shipments than were expected were the factors on the bull side.

Wheat opened higher in response to the advance in Liverpool. As the top realizing started and a number of commission houses put out short lines and values eased down to the level of yesterday. May wheat opened at 16%c.

Corn statted firm and an advance of a few fractions was made on the strength of the wheat market. The market was dull and inactive with a poor cash demand and light shipments. May oats opened at 56%c.

Oats were strong and higher at the opening, influenced by a good demand, which was the only feature. Elevator concerns deadened this by lefting out heavily and cased the market off. May oats opened at 56%c and closed at 55%c.

Primary wheat receipts were 235.00 bushels and shipments were 35,000 bushels.

Clearances were 35,000 bushels and shipments were 35, RYE-Dull; No. 2 western, 90c, f. o. b.

Market Has Appearance of Reviving Animation During First Hour.

NEW YORK GENERAL MARKET REACTION FOLLOWS ADVANCE

Oregon Railway and Navigation Disbursement Purales Traders-Slight Rise Late in Day.

NEW YORK, Feb. 28.—For an hour today the stock market took on an appearance of reviving animation. It then relapsed into its recent condition of lethargy and scarcely moved for the rest of the day. The grounds advanced for the operations which advanced prices in the first hour had to do with unconfirmed rumors, for the most part, and betrayed the professional origin of most of the activity. Copper mines in Butte, it was said, were to be reopened and an extensive combination was to be effected among copper interests which were still working independently of each other. In quiry in official quarters falled to verify these assertions. The price of copper meta in the London market suffered a reaction. The published remarks of the head of the American Smelting company permitted the construction that a reduction in the dividend disbursement on the shares is in contemplation. The influence of the various rumors in circulation showed some waning power, therefore, as the day advanced. The report of a large extra disbursement by the Oregon Ealiway and Navigation company, one of the subsidiaries of the Union Pacific, puzzled the trading element at the Stock exchange greatly, owing to the intricacy of the financial returns between the various companies in that system. The operation in itself was regarded as largely one of a change in bank accounts, but surmise was busy over a possible ultimate bearing on the plan for segregation of in vestment holdings of the Union Pacific, owhich official intimations have been giver from time to time. Money markets were slightly affected by the preparations for the March I settlements. The week's known movements of money foreshadowed a loss by the banks tomorrow, on account of the week's absorptions by the subtreasury or nearly \$5,000,000 through withdrawals of sovernment deposits and also by the retirement of national notes. While this is offset probably half by the receipts of cash from the interior, the influx from the interior, nevertheless, shows a declining ten dency.

Some late sus

dency.

Some late sustaining effects on price were exercised by the news that the Fowls currency measure had been favorably reported to the house at Washington. The early advances, although not fully held it he late dealings, were better maintaine than first movements have been previously this week. Bonds were steady. Total sales, par valu

HOGS—The supply fell far short of expectations and largely for this reason there was a sharp advance in prices. Receipts at other points were also considerably below the estimates and there was a firmer feeling in the trade at all points as well as a broader general demand. Both local packers and outside buyers showed the usual preference for the heavy and butcher weight loads, but the scarcity of these compelled them to take a liberal proportion in the good light weight stuff and brought about a material improvement in the market for this class of hogs. The range of prices has narrowed down somewhat of late for this reason. Prices today were mostly the higher than yesterday and in some cases as much as life higher. The top was \$4.60 as against \$4.00 yesterday and the built of the offerings sold at \$4.1564.30 against \$4.00pq.15 yesterday.
