## Some Things About Warner's Corsets That Are Not Found in Other Makes

After recognizing the style perfection, note the details of construction, which are without a parallel in corset making. The bones are as unbreakable as they are rust-proof each bone is celluloid tipped and rounded so that it cannot punch through the fabric. To every Warner's corset is attached the famous security rubber button hose supporters, the metal parts of which are as rustproof as the corsets. \$1.50 to \$3.50 pair.

without discussion, and two ordinances repealing the ordinances giving lunch wagons and fruit stands the right to occupy the streets, and proposed to repeal passed the first two readings. The new ordinances cite prescribed districts where fruit wagons can dispose of their wares, and prohibit lunch wagons from plying their trade before the hour of 8 o'clock in the evening. Another ordinance was passed granting Tolf Hanson the right to construct an underground conduct under the alley between Farnam and Harney streets for a portion of the distance from Fifteenth and Sixteenth streets, on the condition that he pay the city \$30 a year for the use of the alley.

City Engineer and Sidewalks. A long communication from the city engineer, stating his position on the question of submitting his plans and specifications head a year ago. Prominent places comfor sidewalk construction was referred to pare as follows.

neer says:
So far as the matter of sidewalk specifications are concerned, from a personal standpoint, I consider them of small significance, but if the law passed by the last legislature is subordinated to an ordinance which the city council has or may hereafter pass, then this would simply be the entering wedge to the reversing of the contemplated proceedings held in view by the legislature when it passed the law last spring, and it would place the law subordinate to municipal ordinance.

He consluded his communication with the neer says:

He consluded his communication with the statement that "the plans and specifications for sidewalk construction are on file in the office of the city engineer, ready for the inspection of bidders, and if there is delay in the awarding of contracts for the construction of walks the responsibility must rest with the city clerk and your honorable body, and not with myself."

Elanser Wants New Sewer. Considerable discussion arose over Cour ilman Elsasser's request for the preparing of plans and specifications for the construction of a sewer on Mason street from Sixteenth to Twenty-first streets, attention being called to The Bee's statement of there being \$100,000 of sewer bond money now lying idle in the banks of Omaha Those favoring the building of the sewer were accused of being in favor of it for the sake of getting votes, but the resolution

Paving Bids Opened.

that there could be no good reason in this case for inflicting the extreme penalty while so many crimes have been disclosed that are yet unpunished.

Judge Wood, after reading his raling. formally sentenced Orchard and fixed May 15 as the date for the execution. Orchard asked permission to speak and it was granted. He thanked the court for the review of the case and for the kindly remarks in regard to him. He repeated that he had told the whole truth and that no promise of immunity or of mercy had over en made to him. Before he had concluded tears were streaming from his eyes and he all but broke down as he again in broken voice thanked Judge Wood for his recommendation to the board of par-

McParland Talks of Case.

DENVER, March 18 .- "I know nothing about what will be done with Orchard," said James McParland, the detective who ecured the confession of Orchard, today. "He was never promised immunity and never asked any. I do not know whether his sentence will be commuted or not.

"Orchard is truly penitent. He made clean breast of his guilt and told me he was willing to stand any punishment which the law inflicts for his crimes. He has told. all he knew about those who caused him to commit his crimes. The fact that they were cleared by juries makes no difference to him.

View of Miners' Federation. Ernest Mills, acting secretary for the Western Federation of Miners, said today

of Orchard's case. "If Judge Woods made the statement credited to him," said Mr. Mills, "there is little doubt that he is paving the way for freedom for Orchard. It has been claimed all along that Orchard had been promised freedom by Governor Gooding of Idaho for making the confession he made

at the trials. That the political ring back of it has promised to go down the line for Orchard is also a well known fact.' Secretary Mills announced his intention to place in the hands of the postoffice inspectors several anonymous letters which he said have been received by George A. Pettibone and his wife since his acquittal of complicity in the Steunenberg trial. President Charles H. Moyer of the feder-

ation recently left Denver for San Diego, Cal., to visit Pettibone, who is sick in a hospital there.
