CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, March 18.—Higher prices for wheat at Liverpool and a further advance in corn here had a builish effect on the local wheat market, today, the May delivery closing at a gain of 4c. Corn was up 3c. Oata were 35% ac higher and provisions were 74,422% higher.

The wheat market opened moderately strong and continued firm until late in the account of the account Commission houses were the principal buyers throughout the session, but the volume of trade was not large. The early strength was caused by an advance at laver, old and several other European markets, and to the extreme bullishness manifested in the local corn market. Demand was rather tame lass in the day and the close was barely steady. May opened \$60 to 185 to

Provisions were strong on active demand by shorts and one of the leading packers. At the close May park was up 22%c at \$11.50. Lard was up 7%c at \$8.02%. Ribs were 13%c higher at \$6.50. Estimated seceipts for tomorrow are: Wheat, 25 cars; corn, 184 cars; oats, 200 cars; bogs, 33.000 head.

NEW YORK STOCKS AND BONDS

Movement Shifts Constantly and Presents Sharp Contradiction.

SHARP BREAK EARLY IN DAY News Is Against Rise in Values and Manipulation Aids Decline-

Slight Rally at Close,

NEW YORK, March 18.—The stock market gave evidence today of the continued operation of considerable forces in the speculation. The movement shifted so constantly, however, and presented such sharp contradictions in some of its demonstrations that it had the effect of greatily unsettling and confusing suspicion until stocks were unloaded in haste. The strong recevery in yesterday's late market was held to be an infalliable sign that the buill leadership had let down prices on Monday and early yesterday merely for the purpose of chaking off a weak speculative following and for the advantage of buying back stocks which they had themselves soid out at a profit. The sharp break which developed today after a moderate advance proved disconcerting to this weak of the situation.

Incidents in the day's news were against a rise in prices. The market showed primary resistance, however, to the principal of these. New York Central dividend rate from a 6 to a per cent ball. This action caused no great surprise, as the original advice in the dividend rate was regarded, in the view of the market, as bearing rather on the making attractive of new issues in contemplation than on the rate of carnings of the company. The New York Central was one of the earliest to suffer from the heavy increase of expenses, and the maintenance of the dividend has been long in doubt. The effect of the announcement is even more pronounced on either trunk lines' stock, notably Pennsylvania, than on New York Central itself. The effect was aggravated by the heavy declined the armings for February reported by the Baltimore & Ohio. The suthoritative statement carried in the Associated Press dispatches from the president relating to legislative measures which have been subject of conferences at the White House for some time past, With that subject thus removed from the realm of mystery much of the occupation was gone for an element which has made use in the stock market of vague rumors of this subject. The omission of the dividend compared with other prom NEW YORK, March 18.-The stock mar-

Lotal sales for the day, 902.309 shares.

LONDON, March 18.—Money was in increased demand on the market today as a result of the calling of £1,00,000 for the Indian loan. Discounts were firm on adverse reports from the continental exchanges, which caused uncertainty regarding a reduction in the Bank of England's rate of discount. Trading on the stock exchange displayed a more cheerful tone on hopes of a reduction in the bank rate tomorrow. This and the prospects of a good budget induced speculative buying of gilt-edged securities, especially consols, which galand 7-16. Paris paid stiention to foreigners and Kaffirs, while copper shares continued to derive strength from American advices. The dealings on the American section of the market were narrow, but the tone was good in the forenoon and quotations were above parity. The modification of the Aldrich bill was the chief strengthening factor. Later New York bid up Union Paclific, and this strengthened the rest of the list, but New York turned seiler on the reduction in the New York Central dividend, and this continued until the close. Grand Trunk improved when it was learned that the de-

rease in traffic was smaller than had been expected.

BERLIN, March 18.—Prices on the Bourse today were somewhat higher, especially in the case of bank shares.

PARIS, March 18.—Trading on the Bourse today was firm on New York advices.
