Prof. E. W. Kemmerer of Cornell university, whose conclusions are based on an exhaustive study of the history

amit by draft, express or postal order able to The Bee Publishing company. y Scent stamps received in payment of accounts. Personal checks, except on aba of eastern exchanges, not accepted of the island and the experiments of the truth of the commonplace principles, "that a people cannot suddenly break with their past; that democracies are evolved, not made, and that capacity for self-government is not, like Jonah's gourd, the growth of a day, but is a sturdy plant of years of experience." He goes on to show that world today is that of the Angle-Saxon races, which passed through eleven centuries between the time of Tacitus and of Magna Charia and

through nearly six centuries more before the ratification of the American constitution, while it was but three centuries to the battle of Manila bay from the time the early Spanish missionaries described patriarchal institu-

tions of the primitive Filipino people, then, just emerging from barbarism, The final word of Prof. Kemmerer is as follows:

The Filipinos are still deficient in those moral qualities which are the foundation stones of popular self-government. The names of the Filipino people have yet to

to learn that political office is a public trust. Possibly the United States is not the best teacher of this lesson; it must be others are essentials of successful democ

have an efficient self-government. Intollectual education is an important factor in capacity for self-government; it is not, however, the only one, nor the one mos difficult to develop. The great work now

before the Filipino people is the develop ment of these sturdy civic virtues. It is at best a herculcan task for a Malay people, living in the tropics, with the historic expect to accomplish it in a day.
